

Student Name Abigail West

Date: 10/28/25

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Angela Westfall

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

vaginal swab, breast exam, patient teaching, PAP smear, weight loss consult

2. What was the best/most interesting part of the experience?

Seeing the PAP Smear was very interesting. I was able to see the cervix and my OB was very informative!

3. Is a community nursing position something that you would consider working in? Why or why not?

Yes, I enjoy all the different ways they are able to help patients from child bearing all the way to menopause.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

Yes, I saw my OB reach out to other interdisciplinary teams in order to treat a patient in the best way possible.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

Yes, we saw a woman who was going through menopause. She was taught how to use Progesterone cream and to eat nutritious foods and exercise. Yes, she answered all the patients questions adequately and thoroughly.

6. Provide examples of care describing *one or more* of the IM6 Student Learning Outcomes.

IM6 Student Learning Outcomes				
Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality: ✓

Clinical Judgment: ✓

Patient Centered Care: Patients insurance would not cover a wellness visit so we switched it to a weight loss visit so she would not receive a bill.

Professionalism:

Communication & Collaboration: ✓
