

Hanna Wells Parkridge

IM6 Student Learning Outcomes

Safety & Quality

Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.

Clinical Judgment

Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.

Patient Centered Care

Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.

Professionalism

Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.

Communication & Collaboration

Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.

Safety & Quality:

Clinical Judgment:

Patient Centered Care:

Professionalism:

My nurses displayed professionalism through listening to the pts and hearing their concerns. As well as, being nonjudgmental, empathetic and resourceful to these patients going through these new life experiences.

Communication & Collaboration:
