

IM6 Student Learning Outcomes

Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality: I taught my patient how to use an IB. Additionally, benefits, complications if tx refused, and the teach-back method were also discussed. The patient was continuously sitting at 91-92%, but bilateral lung field A/P were clear; the IB will assist the patient in taking deep breaths + T O2 SATS.

Clinical Judgment:

Patient Centered Care:

Professionalism:

Communication & Collaboration:
