

IM6 Student Learning Outcomes

Safety & Quality	Clinical Judgment	Patient Centered Care	Professionalism	Communication & Collaboration
<i>Formulate a plan of care for the childbearing family, and the patient with mental health disorders using evidence-based practice, safety, and quality principles.</i>	<i>Demonstrate clinical judgment using evidence-based data in making clinical decisions for the childbearing family, and the patient with mental health disorders.</i>	<i>Demonstrate family centered care based on the needs of the childbearing family, and the patient with mental health disorders.</i>	<i>Relate knowledge, skills, and attitudes required of the professional nurse by advocating and providing care to the childbearing families, and the patient with mental health disorders.</i>	<i>Communicate and collaborate effectively with patients, family, and members of the interdisciplinary team in the childbearing family, and the patient with mental health disorders.</i>

Safety & Quality:

Clinical Judgment:

Patient Centered Care:

Professionalism: I was able to demonstrate professionalism and a positive attitude when I was unable to hear a fetal heart beat; I assured the mother and asked the nurse for help and she was able to find and distinguish fetal heart tone.

Communication & Collaboration:

Instructional Module 6: Obstetrics Community Clinical Experience

Community Site: Dr. blann

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?

I was able to observe fetal heart monitoring, manual blood pressures and listening to teaching for STI's and birth control.

2. What was the best/most interesting part of the experience?

the favorite part of my day was being able to listen to babies heart beats and feeling where the baby was lying.

3. Is a community nursing position something that you would consider working in? Why or why not?

yes, I enjoy the community nursing hours and having something to do everyday until 5. I enjoy seeing the patients come in especially knowing they're all coming in for pregnancies.

4. Do you feel like this community site met the needs of the population they serve? Why or why not?

yes, they served the women who came into the clinic needing pregnancy visits, and follow ups.

5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?

yes I did witness patient teaching. in this clinic the communication was more teaching on birth control methods. I believe the teaching and communication was very therapeutic with many options to choose from.
