## Pediatric ED Reflection Questions

1. What types of patients (diagnoses) did you see in the PED?  
Stomach pain, fevers, knee injury, head injury
2. The majority of the patients who came into the PED were from which age group? Was this what you expected?  
Newborn - 14 years of age  
yes!
3. Was your overall experience different than what you expected? Please give examples.  
yes, not as busy as I expected.
4. How did growth and development come into play when caring for patients (both in triage and in treatment rooms)?  
An 18 month old kept crying while trying to get vital signs, looked at mom for comfort
5. What types of procedures did you observe or assist with?  
vital signs, assisted with a straight cath
6. What community acquired diseases are trending currently?  
RSV, rhino, adenovirus
7. What community mental health trends are being seen in the pediatric population?  
none
8. How does the staff debrief after a traumatic event? Why is debriefing important?  
was not able to obtain information on this
9. What is the process for triaging patients in the PED?  
Pull back, vital signs, ask questions, place them in room
10. What role does the Child Life Specialist play in the PED?  
helping calm children with procedures that may be scary
