

WHY I WANT TO BE A NURSE.

The reason why I want to be a nurse a nurse is because I grew up in a community where we had very few nurses and a visit to the hospital was a nightmare because the lines were so long and if you were sick accompanying a sick person, you would be so frustrated and tired and more sick waiting for the nurses to attend to you. So, I prayed to God that if I get a chance to go to college then I would go to nursing school and be a nurse.
