

I want to be a nurse because I enjoy helping others especially in a time of need. Nursing lets me care for others and make a difference in their lives. In seeing others get better can be very rewarding knowing that you played a role in it. I have been an LVN for over 20 years and I have always wanted to be an RN. I have enjoyed working as a part of a healthcare team and advocating for those that are unable to speak for themselves. By becoming an RN, I can continue learning every day while making meaningful impact on patients' lives.
