

I want to be a nurse because I am passionate about helping people and making a positive difference in their lives during times when they are most vulnerable. Nursing allows me to combine compassion, science, and teamwork to care for others while continuously learning and growing. I admire how nurses advocate for patients, provide comfort, and play a vital role in healthcare by supporting both individuals and their families. Becoming a nurse would give me the opportunity to serve my community, build meaningful connections, and contribute to improving health and well-being every day.
