

## NCLEXRN Study Prep Resources

*One of the best approaches to studying for the NCLEX is to study early and often. You may have times where you are waiting in line, waiting to pick up kids, or have down time. An app on your phone can be a great way to utilize this time. Most of the apps listed below have free questions available. You can then upgrade to get more. If a particular app works for you, please share with instructors and classmates.*

1. Simple Nursing website
2. Notability app (free)
3. Beautiful Nursing LLC (lots of free cheat sheets)
4. ChatGPT app (free)
5. Learning EKG <https://monitortech.org/rhythm-strip-practice>
6. Google NotebookLM Podcast allows students to create mind maps and creates a podcast of students PPTs, note, book text:
