### Introduction

Hi All! Communications has always been my passion.

My professional background for 30 years was in live video production & communications.

I was fortunate to work with many different organizations, (EWTN, Alabama Power, Southern Company, BellSouth & Jefferson Pilot Sports, etc), as well as some very talented anchors, journalists, directors and camera crews.

These days, I love communicating in more of a one-on-one environment and helping one person at a time focus on their authentic design!

---

### Credentials

- Certified Life Coach, Principio Coaching, Birmingham, AL
- Certified Career Direct Consultant

---

### Mission Statement

I collaborate with eager & determined people to gain clarity about themselves, so they can confidently go after their goals with enthusiasm and momentum, both now and in the future.

### Specialty Details

I love the concept of helping students understand early on in life how they're wired, so they don't have to fall in the potholes most of did while trying to figure out what career to pursue.

I also love helping those in the workforce find new and compelling ways to move into areas that better serve them.
