

# Susan's Design / Career Funnel

Health educators design educational materials like pamphlets, posters, and booklets to inform the public about health-related topics such as disease prevention, nutrition, and healthy lifestyle choices. They often work in public health departments, hospitals, or nonprofit organizations.

Matching Susan's personality traits—detached, unstructured, introverted, and cautious—with a career as a health educator:

**DETACHED:** Susan's detached nature might make her more objective in her approach to health education. She could focus on delivering factual, evidence-based information without being overly influenced by emotional aspects. This trait can be valuable in ensuring her information is clear, unbiased, and scientifically accurate. She may excel in creating educational content that is straightforward and focused on the essential facts.

**UNSTRUCTURED:** Working unstructured might allow her to be flexible and adaptable in her approach to health education, creating novel ways to engage different audiences and different formats (like workshops, interactive sessions, or digital content).

**INTROVERTED:** Susan's introspective nature might help her to deeply understand the material she is teaching, allowing her to convey complex health information clearly and concisely by developing educational materials like pamphlets, posters, online content and resources to educate the public.

**CAUTIOUS:** Susan's cautious nature can be an asset in health education, where accuracy and reliability are crucial. She would likely be thorough in researching and verifying the information she shares. Her careful approach might also make her mindful of potential risks.

Susan's VOCATIONAL INTERESTS also align with the scope of a HEALTH EDUCATOR

ART AND DESIGN - expressing of ideas

WRITING – developing the concept/proposal of the illustration

HEALTH SCIENCE – the scientific field of health

PERFORMANCE/COMMUNICATION – communicating concepts through images and visuals.

Susan's SKILLS AND ABILITIES also align with the scope of a HEALTH EDUCATOR. Through her ARTISTIC skills, Susan will be COMMUNICATING and EXPRESSING complex medical information, including medical MECHANICAL and ENGINEERING.

Susan's WORK ENVIRONMENT VALUES, namely FLEXIBLE HOURS, INDEPENDENCE, HARMONY and EQUALITY are attainable. Her WORK OUTCOME VALUES are also possible: Being able to understand and communicate the current and new concepts, as well as CONTINUOUS EDUCATION, will be essential. She can work independently as a self-employed or contracted professional or a permanently employed staff member of a medical/health company or a state department. Both of which can provide SECURITY, HIGH/good INCOME and CAREER PROGRESSION.

A career as a HEALTH EDUCATOR can align with her LIFE VALUES of FAITH, FAMILY, FRIENDS or AESTHETICS.
