2. **Results:** Mental Stimulation, Helping Others, Learning Opportunities, Leadership Opportunities
3. **Life Purpose:** Faith, Excellence, Being with Family, Being Helpful

### Recommendations:

It doesn't matter if this student is 16 or 60. Computer is her true love. She can communicate better with a computer than a human beings. She would want to explore anything about computer. She may also want to explore in business management courses. During her high school years, she will need to pass her English, Biology, History to be accepted by a college. She is doing very good in Math, Chemistry, Physic, and Computer. If she really can't fulfill those academic requirements for college, there is many computer certificate out there she may be interest, such as cyber security, coding, cloud. Her future is bright.
