

RECOMMENDATIONS FOR STUDENT

Johan

You were created with many strengths and abilities, you are clever, have wide interests
You could have earned a lot of money by becoming an engineer, a vet, an agriculturalist.
But you made a choice - to have influence on people, to help them.

You could have chosen psychology as a tool through which to help people,
But you chose education
This is excellent. It gives you a much wider area of influence.

You were made to release children into their calling, their destiny, their unique design.
And to help them overcome obstacles so that they can reach their destinies.
In all of this, you allow the Holy Spirit to guide you.

Because you are so talented it might be that you do regret, or have regretted at some stage, that you
have not made different choices along the way, or that other doors have not been opened before
you. Take your report, pray over it and ask God to show you His hand over your life and your
circumstances. Ask Him to let you see something of your influence in other people's lives.

Looking from outside, I can see God's perfect plan in how your life has gone. What you are doing and
your area of influence is amazing.

Be blessed Johan!
