

## CASE STUDY C

Matthew and Sharon Thornton have been married for 6 years and have no children. Matthew is 30 years old and works for a gaming company. Sharon is 28 years old and works at the church. Matthew gets paid every two weeks, while Sharon gets paid twice a month. They are currently renting a home in suburban North Carolina from JL Properties. Both are active members in church and usually give what is left over each month, if anything. In addition to 2 vacations a year, Matthew enjoys purchasing the latest electronic devices. His resolve to live on a budget gets weak when he's near a Best Buy or Office Depot.

They have two cars. One is a 7 year old Chevrolet Malibu worth about \$7,000 and the other is a 1 year old Chevrolet Camaro worth about 34,000. The Malibu is paid off, but they are still making a payment of \$490/month on the Camaro, which is financed at 4.7% with a loan balance of \$21,000. They pay their auto insurance premium every 6 months.

They are both in good health so they have never seen the need for medical or disability insurance. Matthew's company provides a \$50,000 life insurance policy. Matthew is expecting a \$5,500 (gross) bonus to be paid next month. Matthew has been contributing to a 401k from each paycheck and its current balance is \$63,000.

Although they've stopped charging to their credit cards, they still owe about \$22,000 on them: \$7,800 to Discover at 23% interest, \$9,300 to Nations Bank Visa at 25% and \$5,700 to the Raleigh Credit Union at 21.3% for a Mastercard. The minimum monthly payments are \$190 to Nations, \$160 to Discover and \$115 to the Credit Union.

They turned to Crown for help, but they aren't good at filling out spreadsheets. Instead, they uploaded their pay statement and latest bank statement.

Your assignment: Using their statements and the background info above, input information as best you can in the Assets & Liabilities sheet and the 30 day tracker. Complete the "Current" column in the Spending Plan sheet based on the information you have. Add any questions you would ask them and suggestions you would make in the "Comments" columns. You do NOT have to complete a New Budget for this client.

*NOTE: This case study is an exercise to help coaches understand how clients should use their financial statements to complete their forms. In a real coaching situation, Crown would not recommend that you use the client's paystubs and bank statements to fill out the forms for them, although you can certainly help them and show them how to do it. Our goal is that the clients learn how to manage their own finances through God's principles.*

**The questions below will be in the Assignment for Case Study C. They are listed here so you can be thinking about them as you review the forms in this spreadsheet.**

1. How would you help Matthew and Sharon realize the importance of putting God first in their finances?
2. What biblical principles and practical tools could help them get their discretionary spending under control?
3. For some categories such as giving, renter's insurance, auto maintenance, gifts and others, there doesn't appear to be any spending in January. What questions would you ask the Thorntons to make sure everything is covered in the current spending column?
4. What key information that you would need to do your initial assessment is missing?
5. What recommendations, if any, would you make around life insurance, health insurance and hobbies as they begin to prepare a new budget?
6. What recommendations would you discuss with them about Matthew's annual \$5,500 bonus?
