

YES Recommendation—Leanna Q 20241216

These are the requests from Leanna's mother from this consultation:

1. Affirmation of her unique design
2. Increased self-awareness
3. General guidance for potential interests to explore

Request 1. And 2. will be made obvious when walking Leanna through her report.

Request 3.

Assuming these are her top vocational interests before I can meet with her to confirm them:

- Business Administration
- Business Management
- Agriculture
- Art/ Design

I would recommend Leanna explore more about business, management, and business administration subjects such as finance and accounting. Computer classes will be another area she can explore, since computer can be her supporting interest or it may turn out becoming her true love. She can also take some agriculture and art classes to further develop her interest in these areas. Leanna's love for outdoor activities and sports are her assets which need to keep developing. I would also like to see her volunteering herself in some junior administration positions at her fellowship or Awana club.
