

First Student (Client) Recommendations

I have chosen to enlist and consult with Phoebe Elikem Mawuko, a thirteen years old young daughter of Ivy Mawuko, a business partner and Yes! Consultant for the following reasons:

1. She is within the age range of the targeted beneficiaries for Yes! and hence qualifies as a suitable student for the assignment.
2. She is accessible for the assignment and offers a reliable avenue for effective feedback on the consultation process through the parents.
3. She can be a good reference for subsequent access to other clients from her school and church.
4. She is located within the primary catchment area, proximity-wise, suitable for the consideration of a face-to-face consultation session where necessary.
