Specialty Details

Working with children and helping others has always been my passion. Living in a small, remote town means that many of our young people have limited exposure to the wide range of careers and opportunities the world has to offer. I have made it my mission to inform and empower both learners and parents by sharing the many options available, enabling them to make informed choices about their future.

Kinders en om mense te help was nog altyd my passie. Omdat ons in 'n klein, afgeleë dorpie woon, het baie van ons jongmense nie toegang tot die nodige blootstelling aan die verskeidenheid beroepe en moontlikhede wat die wêreld bied nie. Ek het dit daarom my missie gemaak om beide leerders en ouers in te lig oor die uiteenlopende opsies wat beskikbaar is, sodat hulle ingeligte keuses vir die toekoms kan maak.
