Introduction

Over the past 14 years, I have been involved in various ways to help others identify opportunities to transform their thinking toward finances, small business ideas, and even their career choices that provide for themselves and their families.

I want to walk alongside those who want to try something new and see things from a different perspective. To assist those people (individuals or couples) who want to act on their new knowledge and find peace with finances, financial decision-making, and now, career path decisions that they have never felt they deserve or have tasted before.

Credentials

13 years of Financial Coaching
10 years Business Owner/Leader
4 Career Transitions Co-Leader and Coach
Senior Quality Assurance Analyst
Certificates of Completion for:
