### Wstęp

- > Have you ever reached a moment in your career when you knew something needed to change, but you had no idea where to begin?
- > Are you feeling stuck in your job – the kind of stuck where every Sunday your stomach tightens at the thought of another week at work?
- > Or maybe you're a student trying to navigate endless career options and simply wishing someone would guide you toward a direction that truly fits who you are?
- > Or perhaps you're a leader or HR professional looking to better align people's strengths, motivations and roles to build a stronger, more engaged team?

I have met people in all of these places – overwhelmed, uncertain and longing for clarity. And for over a decade, I have been helping them find it.

I am a career consultant, certified ICF coach, HR advisor, recruiter, mentor and outplacement expert supporting individuals in discovering their unique design and making career decisions aligned with their strengths, values and long-term goals.

I work with clients at different stages – students choosing their first path, mid-career professionals seeking change and leaders looking for meaningful development. My approach combines deep listening, structured guidance and practical tools that help people move forward with confidence and purpose.

I also specialize in creating inclusive, age-diverse and psychologically safe workplaces and advising on modern HR strategies aligned with the “S” (Social) pillar of ESG. This allows me to help clients not only choose the right direction, but also understand the environments in which they will genuinely thrive.

Alongside my consulting practice, I lecture in HR and ESG, authored Poland’s largest employee benefits guide and am currently writing a book on responsible offboarding and outplacement. I serve as the Program Coordinator and mentor at the Mentoring Academy of Evangelical Poland, supporting individuals in their professional, personal and spiritual growth.

My passion is to equip people to discover who they truly are – and to step into careers where they can flourish.

(I work in both Polish and English.)

---
