1 The most accurate way to determine your Federal, State and Other tax withholdings is to check your last Federal and State tax returns.

2 In some cases earned income credit (EIC) will apply. It may be possible to increase the number of deductions to lessen the amount of tax paid per month. Review the last tax return for specific information.

3 This category is used for long-term investment planning, such as college education or retirement.

4 This category is added as a guide only. If you have this expense, the percentage shown must be deducted from other budget categories.

*** Use this for other income you may have: bonuses, income tax refunds, side jobs, etc.

**** If you don't have a first or second car payment, use this for a car replacement fund.

This worksheet is for planning spending by percentage for any "surplus" income, such as "extra" paychecks, income tax refunds, gifts, inheritances, bonuses, etc. It is recommended that you start with a full tithe. You might want to use a *small* portion for a bit of a splurge. Examine other needs and goals - categories that need supplementing (such as your emergency fund), debt reduction acceleration, etc. Be sure, if you are married, that you and your spouse plan together and are in agreement. Pre-planning for surplus income will help to insure that these funds are used wisely. Make this a prayerful process.
