This young family lives in Southern California where the real estate is high. The father, Jerry is 40 years old. The mother, Janice, is 38 years old and is an X-ray technician. Neither are followers of Jesus Christ, but they have a religious background. They do not attend church. They have two young children, Billy who is 8 years old, and

Due to the financial challenges in this home, Jerry and Janice do not have a good marital relationship. They see a marriage counselor weekly to save and strengthen their marriage. Previously unknown to Jerry, Janice has a credit card debt (Credit cards #1 to #5) totaling \$48,000. He recently became aware of this debt and reached out to the creditors. Currently, they are trying to make the minimum payments on all their debts.

Both Jerry and Janice are paid twice a month, on the first and fifteenth. Jerry has a part-time job as a technician. He pays the medical and dental insurance for himself, Janice, and the two children. They have a Preferred Provider Organization (PPO) that pays of \$30 per visit. Dental insurance is a Dental Health Maintenance Organization (HMO) with no deductibles, annual check-ups, and a percentage of dental repair. The Vision Insurance covers the cost of an annual vision exam, contact lenses, glasses and frames or contact lenses. Jerry has a term life insurance policy with Janice as the beneficiary. They own an investment home valued at \$400,000 with a mortgage of \$250,000 and a monthly mortgage payment of \$1,500. They have a rental income of \$3,500, leaving \$200 each month for maintenance, repairs, and other rental property expenses.

They have two cars. Car #1 is paid off and car #2 is financed. The family has auto insurance with liability coverage on car #2.
