

DONUT WORKSHEET

Note to Dr. Strydom, I questioned medical research as a vocation because of the advanced degrees required. The case notes said Sarah was an average student. I would ask how much time she was willing to spend getting an education before we ruled out a career that required an advanced degree. I'm curious to know if she grew up on a farm due to her interest in agriculture and animal care.

HOBBY INTERESTS:

Outdoors, nature, gardening, plants, agriculture, caring for animals, homemaking, physical fitness
