

CASE STUDY C

Matthew and Sharon Thornton have been married for 16 years. Matthew is 45 years old and works for a large corporation. Sharon is 39 years old and is a stay at home mom. They have 2 children, a son 10 and a daughter 8. They purchased a home in Stafford, Virginia. They both are active members in church and usually give weekly tithes. Matthew is struggling to save for the children college education. They turned to Crown for help.

The questions below will be in the Assignment for Case Study C. They are listed here so you can review the forms in this spreadsheet.

1. How would you help Matthew and Sharon realize the importance of putting God first in their financial decisions?
2. What would you recommend that they do with Matthew's annual \$7,500 bonus?
3. While referring to the Crown MoneyMap, what would you recommend that they do in each of the categories? List each destination followed by specific actions they should take in that destination before moving on to the next. In light of this, how would you advise them about saving for their children's college education?
4. What biblical principles and practical tools could help them get their discretionary spending under control?

LIABILITIES / DEBT LIST ¹

CREDIT CARDS	What Was Purchased	Minimum Monthly Payments	Interest Rate	Past Due?
