

Complete Creation

Unit 12 – Lesson 23 & 24

Study Guide

This study guide contains some questions and prompts which will help you prepare for the test as you watch the lesson videos. The tests are composed of a random bank of questions taken from this study guide. There are no score keys – the answers can be found watching the lesson videos.

1. What have people been led to believe regarding fossils and evolution?

2. What do we need to have in order to deal with Creation and evolution?

3. What do we see the world differently than evolutionists?

4. God's Word is our:

5. Who are considered missionaries?

6. What will cause us to start chasing fables?

7. We need to examine the evidence through the lense of:

8. What evidence do the Christian and non-Christian look at?

9. What is the conflict really between?

10. What influences your worldview?

11. What is interpretation of science influenced by?

12. Are the facts and evidence a problem for Creation?

13. Where is the evidence found for evolution?

14. What is it important to look past?

15. What will play into how you interpret the “beef”?

16. What do we need to investigate and ask?

17. What are some key words to watch for when examining evolutionary claims?

18. What will we find when we examine the “beef” behind evolutionary claims?

19. How far back can Carbon 14 dating go?

20. If evolution were fact as is claimed, they would not need to use words such as:

21. Real science is:

22. If you do not observe something, then what is involved?

23. What does radiometric decay simply tell us?

24. What are the assumptions involved in radiometric dating?

25. Do fossils require millions of years to form?

26. When we find fossils, what do we find evidence of?

27. Fossils show evidence of an event that was:

28. What does the fossil record show?

29. Under proper conditions, how rapidly can petrification take?

30. If evolution is true, what would the fossil record show?

31. What does the fossil record show about animals through history?

32. What does evolution have us evolving from?

33. According to the evolutionary charts, where does the aardvark come from?

34. What does evolution attribute rats walking upright to?

35. What does evolutionary theory say about the wolf?

36. Why do evolutionary charts have to show rapid changes?

37. How many transitional forms are found in the fossil record?

38. If God said He created great whales, what should we find in the fossil record?

39. What we see in the fossil record is consistent with what?

40. If the evolution of man were true, what would we find in the fossil record?

41. What do the fossil charts show when you remove the "unknown" information?

42. Do people in the world today have a pretty good idea of who God is?

43. Can one who does not know God, know real love?

44. How does the world view everything?

45. To what does evolution attribute death, pain, and suffering?

46. When we sell out to millions of years of pain and suffering, what do we ultimately do?

47. In order to get “millions of years” to explain the fossil record, what must you use?
