Unit 4 – Lesson 7 & 8

Study Guide

This study guide contains some questions and prompts which will help you prepare for the test as you watch the lesson videos. The tests are composed of a random bank of questions taken from this study guide. There are no score keys – the answers can be found watching the lesson videos.

1. Were people not as smart in the past?

2. According to evolutionary theory, would dinosaurs and humans have seen each other?

3. What is intelligence based on?

4. Ancient man knew how to refine and use what metals?

5. How does the evolutionary community respond when human skeletons are found in layers where they do not belong?

6. How does the evolutionary community respond to human artifacts found in cretaceous rock layers?

7. Do fossil shells get abraded easily?

8. Is evolution about science and facts or about a religion?

9. Pyramids of all types can be found where?

10. Boomerangs have been found in:

11. Did the builders of the pyramids know things we do not know today?

12. For what portion of earth's history have smart people been in existence?

13. What four features do basking sharks have?

14. What do dead basking sharks do?

15. What is a major misconception about the "Moab man" bones?

16. How many skeletons were found at the Moab man site?

17. How many tracks does the Turnage/Patton trail on the Paluxy contain, and what distance?

18. Do clams fall open when they die?

19. Do clams stay upright when they move?

20. Are the fossil clams in the Paluxy buried in-situ?

21. What is the Taylor Trail and what is it composed of?

22. How is it easiest to walk in mud or snow?

23. Is it possible to carve a human track into a dinosaur track covered in limestone?

24. Does the absence of pressure laminations in a track rule out authenticity?

25. Have unquestioned fossil dinosaur tracks ever broken off and been found to have no pressure laminations?

26. Does the presence of pressure lines “rule in” a dinosaur track?

27. What is “science’s” best explanation for the presence of human and dinosaur tracks together?

28. When is Permian rock supposed to date from?

29. Native American petroglyphs have been found that would seem to indicate what?

30. There have been reported modern dinosaur sightings where?

31. It appears that the Cambodians knew about dinosaurs as far back as _____

32. What is the only logical explanation for the carvings, drawings, and illustrations of dinosaurs?
