

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2022**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:
Semester:

Final Grade: Satisfactory/Unsatisfactory

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, BSN, RN; Brian Seitz, MSN, RN
Brittany Lombardi, MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Clinical Discussion Rubric
- Preceptor Feedback
- Nursing Care Plan Rubric
- Skills Lab Checklists/Competency Tool
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Pathophysiology Grading Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Initials	Faculty Name		
CB	Chandra Barnes, BSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S	S																
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	S																
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	S																
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	S	S																
e. Administer medications observing the six rights of medication administration. (Responding)	S	S																
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	NA	S																
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	S	S																
Faculty Initials	BS	BL																
Clinical Location	4C	4P																

Comments:

Week 2- 1a-g- Good job providing care to your mechanically ventilated, critical care patient. Good job assessing your patient and evaluating his responses to the care you provided. Medications were all administered appropriately following explanations of why they were being given. BS

Week 3-1(a-g) Madison, excellent job this week managing complex patient care situations. You were well prepared for clinical, and you performed very thorough and accurate assessments. You did a great job practicing identifying your patient's cardiac rhythm. You were able to administer PO and SQ medications, all while following

*End-of- Program Student Learning Outcomes

the six rights of medication administration. On Wednesday, your patient was on a heparin drip and you were able to learn about the protocol for titration. You had a successful IV start, and demonstrated great skill and dexterity. You monitored your patient closely to ensure positive patient outcomes. Keep up the great work! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Correlate relationships among disease process, patient’s history, patient symptoms, and present condition utilizing clinical judgment skills. CC (Noticing, Interpreting, Responding)																		
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	S																
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	S	S																
d. Formulate a prioritized nursing care plan utilizing clinical judgment skills. CC (Noticing, Interpreting, Responding, Reflecting)	NA	NA																
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	S																
Faculty Initials	BS	BL																

Comments:

Week 2- 2e- I would like to see you participate a little more during debriefing following clinical. BS

*End-of- Program Student Learning Outcomes

Week 3-2(a) Madison, you did an excellent job with your pathophysiology in which you addressed this competency. Your pathophysiology was very detailed and well done. It was clear that you spent a substantial amount of time on this assignment. Please see the Pathophysiology Grading Rubric at the end of this document for my feedback. BL

Week 3-2(e) You did a great job this week identifying social determinants of health that may have impacted your patient's health, well-being, and quality of life. Keep up all your great work! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	S	S NA																
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	S	S																
d. Clarify roles & accountability of team members related to delegation. (Noticing)	S	S																
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	NA	NA																
Faculty Initials	BS	BL																

Comments:

Week 3-3(c) You did a great job ensuring you used the PAR system appropriately when obtaining care items for your patient this week in clinical. This is just one important way to ensure fiscal responsibility in clinical practice. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)																		
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	S																
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	⊕ S	S NI																
Faculty Initials	BS	BL																

Comments:

Week 2- 2a- Please make sure to respond to all questions during debriefing. BS

WEEK 2: This week, I forgot to complete my survey of the Friday 1/14/22 lab. I completed the survey on Tuesday when I realized I had forgotten to complete it however, at this point it was late. In the future, I will put all assignment due dates in my reminder app on my phone so I do not make the same mistake.

Thank you for bringing this up, but if the lab was on Friday (1/14) your survey wouldn't have been due until the following Friday, so it will not be marked as late. BS

Week 3-4(c) Madison, you exhibited very professional behavior in the clinical setting on both Tuesday and Wednesday. Unfortunately, you did not submit the correct clinical tool by the due date and time, therefore this competency has been changed to an "NI" for this week as it relates to responsibility. Going forward, please be sure to double check you have submitted the correct tool each week. BL

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	S																
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	S																
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	S																
d. Perform Standard/Standard Plus Precautions. (Responding)	S	S																
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	S																
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	S																
Faculty Initials	BS	BL																

Comments:

Week 5a,c- Good performance in the clinical setting this week, keep it up! Good job discussing factors that create a culture of safety when completing your CDG. BS

Week 3-5(b) Madison, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. Keep up all your great work! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)																		
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	NA	S																
c. Collaborate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S	S																
d. Deliver effective and concise hand-off reports. (Responding)	S	S																
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	S	S																
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S	S NI																
Faculty Initials	BS	BL																

Comments:

Week 2- 6e- Nice job with documentation this week. You will become more comfortable and efficient with time and practice. BS

Week 3-6(a,b,c) Excellent job in debriefing discussing these competencies, as well as applying them to practice during your clinical experience this week. BL

Week 3-6(e,f) Excellent job with all your documentation this week in clinical! Your documentation was done in a timely manner and accurate. You also did a great job taking my feedback on Tuesday and applying it to all your documentation on Wednesday. Although your pathophysiology was very well done, there were 3 additional questions that were to be answered in addition to your pathophysiology that were not included. These questions were listed on the “Clinical Sites: Directions, Instructions, and CDG” document that I discussed with everyone in clinical. Please add your responses to these questions to your CDG in order to be graded as satisfactory. Please do this by 1700 on February 2, 2022. If you have any questions, please do not hesitate to ask. BL

*End-of- Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery. (1,3,4,6,7,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S																
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	S																
c. Comply with the FRMCSN “Student Code of Conduct Policy.” (Responding)	S	S																
d. Incorporate the core values of caring, diversity, excellence, integrity, and “ACE”- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	S																
Faculty Initials	BS	BL																

Comments:

Week 2- 7a,b- You chose a good EBP article to discuss for your CDG this week, very pertinent to your patient, nice job. BS

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab utilizing SBAR communication and taking orders over the phone. Good job! CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks activity. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change/IV Push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

Blood Draw/Ports: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

*End-of- Program Student Learning Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

ECG/Telemetry Placements/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial. BL/BS

ECG Measurements: Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You accurately measured and interpreted a 6-second rhythm strip for Normal Sinus Rhythm. Great job! AR

Pathophysiology Grading Rubric
 Firelands Regional Medical Center School of Nursing
 Advanced Medical Surgical Nursing
 2022

Student Name: Madison Cummings		Clinical Date: 1/25-1/26/2022	
1. Provide a description of your patient including current diagnosis and past medical history. (2 points total) <ul style="list-style-type: none"> • Current Diagnosis (1)-1 • Past Medical History (1)-1 		Total Points: 2 Comments: Great job providing a detailed description of your patient's current diagnosis and past medical history. BL	
2. Describe the pathophysiology of your patient's current diagnosis. (1 point total) <ul style="list-style-type: none"> • Pathophysiology-what is happening in the body at the cellular level (1)-1 		Total Points: 1 Comments: Excellent job! Your pathophysiology of your patient's current diagnosis is described with great detail. Credible resource used for this information as well. BL	
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (3 points total) <ul style="list-style-type: none"> • All patient's signs and symptoms included (1)-1 • Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (1)-1 • Explanation of how all patient's signs and symptoms correlate with current diagnosis. (1)-1 		Total Points: 3 Comments: Excellent job! BL	
4. Correlate the patient's current diagnosis with all related labs. (4 points total) <ul style="list-style-type: none"> • All patient's relevant lab result values included (1)-1 • Rationale provided for each lab test performed (1)-1 • Explanation provided of what a normal lab result should be in the absence of current diagnosis (1)-1 • Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (1)-1 		Total Points: 4 Comments: Excellent job! All relevant labs results included, normal values explained, rationales provided, and correlation with current diagnosis provided. BL	
5. Correlate the patient's current diagnosis with all related diagnostic tests. (4 points total) <ul style="list-style-type: none"> • All patient's relevant diagnostic tests and results included (1)-1 • Rationale provided for each diagnostic test performed (1)-1 • Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (1)-1 • Explanation of how each of the patient's relevant 		Total Points: 4 Comments: Great job, Madison!	

diagnostic test results correlate with current diagnosis (1)-1	
6. Correlate the patient's current diagnosis with all related medications. (3 points total) <ul style="list-style-type: none"> All related medications included (1)-1 Rationale provided for the use of each medication (1)-1 Explanation of how each of the patient's relevant medications correlate with current diagnosis (1)-1 	Total Points: 3 Comments: Excellent job! The heparin drip is very important to administer until the patient can go for his procedure to remove the DVT. BL
7. Correlate the patient's current diagnosis with all pertinent past medical history. (2 points total) <ul style="list-style-type: none"> All pertinent past medical history included (1)-1 Explanation of how patient's pertinent past medical history correlates with current diagnosis (1)-1 	Total Points: 2 Comments: Great job, Madison. Yes, with the patient's history of DVTs and PEs, and recent diagnosis of Covid-19 Pneumonia, it is very likely that the Covid-19 Pneumonia is what led to the development of this DVT. BL
8. Describe nursing interventions related to current diagnosis. (1 point total) <ul style="list-style-type: none"> All nursing interventions provided for patient explained and rationales provided (1)-1 	Total Points: 1 Comments: Excellent job! All nursing interventions included and detailed rationales provided. BL
Total possible points = 20 17-20 = Satisfactory 14-16 = Needs improvement <13 = Unsatisfactory	Total Points: 20/20 Satisfactory Pathophysiology. Excellent job! BL

EVALUATION OF CLINICAL PERFORMANCE TOOL

Advanced Medical Surgical Nursing- 2022
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date:

ar 12/15/2021
