DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care

- Observation of Clinical Performance

- Onsite Clinical Debriefing
- Clinical Discussion Rubric

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Week 9-6(f) Sydney, unfortunately this competency was graded as a “U” for this week because you left the box empty. Remember, if the student does not self-rate a competency the competency is automatically graded as “U.” You did an excellent job with your CDG for Cardiac Diagnostics. There are some areas in need of improvement for your Quality Scavenger Hunt CDG. Some of the information you provided was inaccurate, and you did not answer question #3 in its entirety. Please see competency 3(c) above, as well as visit the CDG to review my feedback. If you have any questions, please do not hesitate to ask. Remember to address this “U” for Week 10. BL
