

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2022

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:
Semester:

Final Grade: Satisfactory/Unsatisfactory

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, BSN, RN; Brian Seitz, MSN, RN
Brittany Lombardi, MSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Clinical Assignments
Completion of Patient Care
Meditech Documentation
Observation of Clinical Performance
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Clinical Discussion Rubric
Preceptor Feedback
Nursing Care Plan Rubric
Skills Lab Checklists/Competency Tool
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
Pathophysiology Grading Rubric

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Comments:

Week 2 (1d)- This competency was changed to a "NA" because you do not interpret cardiac rhythms until you are on the ICU/4P clinical rotation. **Make sure to read each competency thoroughly and self-rate based on competency completed that week. FB**

Week 3 (1a,b,c)- Great job managing a group of patients, assessing patients to determine needs and priority of care, and evaluating the patient's response to care delivered. FB

Week 4 (1b)- Great job assessing your patients and responding to needs appropriately. FB

*End-of- Program Student Learning Outcomes

Week 6 (1c)- Satisfactory discussion via CDG posting related to your Patient Advocate/Discharge Planner clinical experience. Keep up the great work! Preceptor comments: Satisfactory in all areas. AR

Week 7 (1f)- Great job performing IV starts during the digestive health clinical. Proper technique and aseptic procedures were followed. Keep up the great work! FB

Week 10- 1b,c- Nice job correlating your patient's symptoms and assessment to the information obtained from the procedure you witnessed. Good job also of evaluating your patient's responses to the interventions provided related to the procedure. BS

Week 11- 1c- Great job discussing two of the patients you worked with at the Infusion Center and summarizing the nursing interventions associated with the diagnosis and treatments provided. BS

Week 12- 1a-e,f- Nice work this week assessing and managing care for your mechanically ventilated patient. Several cardiac rhythms were identified and measured. Medications were administered (OG, IVP, IV, Ophthalmic) appropriately while observing the six rights. BS

Week 13- 1a-e,f- Nice work this week assessing and managing care for your critical care patient. Several cardiac rhythms were identified and measured. Medications were administered (PO, IVP, IV, SQ) appropriately while observing the six rights. BS

Week 14-1(a-e,g) Sydney, you did an excellent job this week managing complex patient care situations. You were well prepared for clinical, and completed all your nursing interventions in a timely manner. You did an excellent job with your medication passes and followed all six rights of medication administration. You satisfactorily completed your ECG book, and you monitored your patient very closely to ensure positive patient outcomes. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Comments:

Week 2 (2d)- You will complete a nursing care plan during your ICU/4P clinical rotation, therefore this competency will be completed at that time. FB

Week 3 (2a,b)- Good use of clinical judgement as you correlate the relationship between patient's disease process, current symptoms, and present condition. You are also assessing for potential risks and anticipating possible complications as you prioritize care for your assigned patients. Keep up the good work! FB

Week 4 (2c)- Great use of clinical judgement as you monitor for risks and possible complications. FB

Week 12- 2a-c,e- Great job correlating the relationships among your patient's disease process, history, symptoms, and present condition utilizing your clinical judgment skills. Good job discussing potential cultural considerations assessed while caring for your patient. BS

Week 13- 2d,e- Good work on your care plan. Please see rubric below for feedback. Nice job discussing social determinants of health that could potentially have an impact on your patient's health during debriefing. BS

*End-of- Program Student Learning Outcomes

Week 14-2(b,c) Great job in debriefing discussing how you monitored your patient for potential risks and anticipated early complications. You also did a great job discussing changes in patient status you noticed, as well as how you responded and took action. BL

Comments:

Week 2 (3a,b,c)- These competencies will be completed during various clinical rotation (i.e. quality assurance/core measures, ICU/4P rotations). (3d,e)- Great discussion, noticing accountability of delegation and the clarification of roles. You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 3 (3d,e)- You have demonstrated the process of delegation, responsibility, and accountability of the interdisciplinary team members. Great job determining priority care of assigned patients and the priority patient of assigned patients. Keep up the great work! FB

Week 4 (3d, e)- Great job with prioritization and using clinical judgement to determine plan of care. Make sure when delegating care, as the RN you are responsible for knowing the abilities to whom you are delegating. FB

Week 5 (3b)- Satisfactory discussion via CDG posting related to your Quality/Core Measures observation experience. Keep it up! Comments per Core Measures RN: "Excellent in all areas". Comments per Rapid Response RN: "Excellent in all areas. Great participation." Comments per Stroke RN: "Excellent in all areas. Great job participating!" AR

Week 11- 3c- Nice job discussing strategies you witnessed that focus on the fiscal health of the organization, which is so important in this department. BS

Week 12- 3b,c- Good job discussing the resources you utilized to complete the quality scavenger hunt and discussing the variances you found. Good job also of discussing how the variances could potentially affect the fiscal health of the organization. BS

Comments:

Week 2 (4a)- This competency will be discussed during your ICU/4P clinical rotation. FB

Week 3 (4c)- You have presented yourself in a very professional manner during this clinical rotation. Great job! FB

Week 7 (4c): My clinical tool was turned in late this week. I had it written on my calendar as a reminder but still forgot. To prevent this from happening again, I will set a reminder in my phone as well and pay special attention during the weeks I don't have a CDG. This is a good plan for improvement. AR

Midterm (4c)- Overall you were satisfactory for the first half of the semester. AR

Week 12- 4a,c- Good job discussing examples of legal/ethical issues observed in the clinical setting during debriefing this week. Professional behavior observed at all times. BS

Week 13- 4c- Professional behavior observed at all times in the clinical setting. BS

Comments:

Week 2 (5c)- This competency will be completed during the ICU/4P clinical rotation. Reported on by assigned RN on 1/18/2022 – Excellent in all areas except satisfactory in delegation. Additional Preceptor Comments: Amazing job seeking out learning opportunities, always willing to help. Student Goals: Take on more patients and try to be more independent with my nursing interventions. Be able to confidently give patient education. CA/FB

Week 3 (5a) Reported on by assigned RN on 1-25-22 – Satisfactory in all areas except Communication Skills, Delegation, Professionalism, and Attendance (Excellent). Student Goals: To grow in my knowledge and my independence to make nursing judgement decisions. EW/FB. Reported on by assigned RN on 1-26-22 – Excellent in all areas except Knowledge Base (Satisfactory). Student Goals: I will continue to build my independence and expand my knowledge. My main goal is to do better with getting morning medications done and establish confidence in my nursing judgement. EB/FB

Week 4 (5a)- Reported on by assigned RN on 2/1/2022 – Excellent in all areas. Student Goals: “I would like to continue to build confidence and nursing judgement. I would like to continue to push myself and face new challenges.” Additional Preceptor Comments: “Sydney was very knowledgeable of patient’s meds; she was able to correctly answer patient’s questions regarding meds.; Sydney discussed focused assessments for each patient; she did great!” KA/FB Reported on by assigned RN on 2/2/2022 – Excellent in all areas. Student Goals: “This is my last experience. I have learned so much and have built a lot of confidence. I look forward to the future and hope I can continue to learn and grow” Additional Preceptor Comments: “Sydney assisted with several discharges. She provided safe patient care and was able to perform adequate IV skills such as priming a secondary and primary line and giving IV pushes. She is wonderful with her patients” KA/FB

Week 5 (5c)- Satisfactory discussion via CDG posting related to your Quality/Core Measures observation experience! AR

*End-of- Program Student Learning Outcomes

Sydney Steffani with Angela Auxter

3-18-22 – Satisfactory in all areas. “IV Starts, observed paracentesis, fistulogram, HD-cath placement/angio.”

Sydney Steffani with Mary Grieger

3-29-22 – Excellent in all areas. “Helpful, good questions, IV starts.”

Sydney Steffanni with Todd Chambers

4-1-22 – Excellent in all areas. “Sydney was able to watch a cardioversion, mechanical thrombectomy in cath lab as well as a heart cath that had severe left main disease into LAD. Patient had severe unstable angina during procedure., She was able to observe what the nurse does during a heart cath and during an emergency.”

Week 12- 5a,b,c,e- You performed well in the clinical environment this week. During debriefing you were able to discuss factors that create a culture of safety and discuss the use of EBP tools that support safety and quality, nice work! BS

Week 13- 5a,b- You performed well in the clinical environment this week, providing quality nursing care to your patients. You were also able to observe an intubation. BS

Week 14-5(b) Sydney, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. You consistently ask great questions to help improve your knowledge and overall care as well. BL

Comments:

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

Meditech: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab utilizing SBAR communication and taking orders over the phone. Good job! CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Blood administration/IV pump: Satisfactory completion of practice with blood administration safety checks activity. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

IV Starts: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

Head to Toe Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

ECG/Telemetry/Chest Tube: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial. BL/BS

Ports/Blood Draw: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

Central Line Dressing/IV push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

ECG Measurements: Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You accurately measured and interpreted a 6-second rhythm strip for Normal Sinus Rhythm. Great job! AR
