

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2022
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Livia Suresh

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

**Faculty: Fran Brennan MSN, RN, Monica Dunbar MSN, RN,
 Lora Malfara MSN, RN, Brittany Lombardi MSN, RN
 Teaching Assistants: Chandra Barnes BSN, RN, Devon Cutnaw BSN, RN**

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Patient Profile
- Meditech Documentation
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Online Discussion Rubric
- Nursing Process Recording Rubric
- Geriatric Assessment Rubric
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Participation in adjunctive therapies (N.A./A.A.; Erie County Detox Unit, Hospice inpatient care)
- EBP Presentations Rubric
- Hospice Reflection Journal
- Observation of Clinical Performance
- Clinical Nursing Therapy Group
- Nursing Care Map Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Initials	Faculty Name		
FB	Frances Brennan, MSN, RN

BL	Brittany Lombardi MSN, RN		
LM	Lora Malfara MSN, RN		
CB	Chandra Barnes BSN, RN		
DC	Devon Cutnaw BSN, RN		

* End-of-Program Student Learning Outcomes

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate effective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective										
1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
Competencies:	NA	S	S	NA	S	S	S			
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)	NA	S	S	NA	S	S	S			
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)	NA	S	S	NA	S	S	S			
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)	NA	S	S	NA	S	S	S			
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)	NA	S	S	NA	S	S	S			
e. Recognize social determinants of health and the relationship to mental health. (reflecting)	NA	S	S	NA	S	S	S			
f. Develop and implement an appropriate nursing therapy group activity. (responding)	NA	NA	S	NA	NA	NA	NA			
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)					NA					
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			
Clinical Location		1-S	1-S	NA	NA	-Erie County Detox & Sandusky Artisans	Stein Hospice			

* End-of-Program Student Learning Outcomes

Comments: Week 2 (1a,b)- Great job providing an understanding of mental illness and its relationship to an individual's physical health. You also were able to correlate the importance of alternative therapies used in conjunction with medication therapy to increase the chances of mental well-being. (1e). Social determinants of health were recognized and how they affect an individual's mental health. FB

Week 3 1 c,d – You did well communicating and respecting patients and their narratives. Proper use of therapeutic communication. DC

Week 6 (1a,b,c,d): This week at the Erie County Detox Center and Sandusky Artisan's you were able to see different types of therapies that may be used and methods that will help each patient regain self-care. CB

Objective										
2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	9/Make Up	Final
Competencies:	NA	S	S	NA	S	NA	S			
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)	NA	S	S	NA	S	NA	S			
b. Identify patient's subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)	NA	S	S	NA	S	NA	S			
c. Demonstrate ability to identify the patient's use of coping/defense mechanisms. (noticing, interpreting)	NA	S	S	NA	S	S	S			
d. Formulate a prioritized nursing care map utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)	NA	S	S	NA	NA	NA	NA			
e. Apply the principles of asepsis and standard precautions. (responding)	NA	S	S	NA	S	S	S			
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)	NA	S	S	NA	S	S	S			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments: Week 2 (2a)- Great job providing a thorough history including past and present issues. (2b) Subjective and objective data including labs, diagnostic testing and associated risk factors were provided. (2d) Satisfactory completion of prioritized nursing care map, see grading rubric attached below. FB

* End-of-Program Student Learning Outcomes

Week 3 2 a-c, e,f –You did well communicating the patient’s history and reason for admission. DC

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)	NA	S	S	NA	S	S	S			
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)	NA	S	S	NA	S	NA	S			
c. Identify barriers to effective communication. (noticing, interpreting)	NA	S	S	NA	S	S	S			
d. Construct effective therapeutic responses. (responding)	NA	S	S	NA	S	S	S			
e. Construct a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)					S					
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)	NA	S	S	NA	NA	S	S			
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)	NA	S	S	NA	NA	S	S			
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)	NA	S	S	NA	S	NA	S			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments: Week 2 (3a) You did a great job communicating while interacting with patients on 1-S this week. (3f)- CDG was done on time and documented in the appropriate section. FB

* End-of-Program Student Learning Outcomes

Week 3 3 a-h – Good job on both of your CDGs for this week. You did well with therapeutic communication and were professional at all times. DC

Week 6(3f)- Livia, your CDG posts regarding clinical experiences for Sandusky Artisans and Erie County Health Department Detox Unit were completed on time and following all requirements provided on CDG rubric, great job! CB

Week 7-3(f) Livia, you did an excellent job with your Hospice Reflection Journal. I'm glad you learned a lot during this experience and enjoyed your time spent there. Thank you so much for sharing your thoughts and feelings about the experience. BL

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
a. Discuss the safe administration of medication while observing the six rights of medication administration. (responding)	NA	S	S	NA	S	S	S			
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)	NA	S	S	NA	S	S	NA			
c. Identify the major classification of psychotropic medications. (interpreting)	NA	S	S	NA	S	S	NA			
d. Identify common barriers to maintaining medication compliance. (reflecting)	NA	S	S	NA	S	S	S			
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)	NA	S	S	NA	S	NA	NA			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments: Week 2 (4b)- Good job with discussion of patient's medications and appropriate implications. FB

Week 3 4 a-h – You correlated the medications to the patient's medical needs and easily communicated contraindications/S.E. DC

* End-of-Program Student Learning Outcomes

Objective

5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*

Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)	NA	NA	NA	NA	S	S	NA			
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)	NA	NA	NA	NA	S	S	NA			
c. Attend Erie County Health Department Detox Unit observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit)	NA	NA	NA	NA	NA	S	NA			
d. Attend Narcotics/Alcoholics Anonymous meeting. (Alcoholics/Narcotics Anonymous at the Artisans of Sandusky Observation)	NA	NA	NA	NA	NA	S	NA			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments:

Week 6(5 a-d)- Great job with CDG posts related to your clinical experiences at Sandusky Artisans and the Erie County Health Department Detox Unit. These clinical experiences are great learning experiences and provide you with knowledge regarding resources available for patients. CB

* End-of-Program Student Learning Outcomes

Objective										
6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
Competencies:	NA	S	S	NA	S	NA	NA			
a. Demonstrate competence in navigating the electronic health record. (responding)	NA	S	S	NA	S	NA	NA			
b. Demonstrate satisfactory documentation of physical and psychiatric assessments and nursing notes utilizing the electronic health record. (responding)	NA	S	S	NA	S	NA	NA			
c. Demonstrate the use of technology to identify mental health resources. (responding)	NA	S	S	NA	S	S	NA			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments:

Week 3 6 a-c: Great job on your group presentation as well as your documentation. DC

* End-of-Program Student Learning Outcomes

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	9//Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)	NA	S	S	NA	S	S	S			
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)	NA	S	S	NA	S	S	S			
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)	NA	S	S	NA	S	NA	S			
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE" – attitude, commitment, and enthusiasm during all clinical interactions. (responding)	NA	S	S	NA	S	S	S			
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)	NA	S	S	NA	S	S	S			
f. Comply with the standards outlined in the FRMCSN policy, "Student Conduct While Providing Nursing Care." (responding)	NA	S	S	NA	S	S	S			
Faculty Initials	FB	FB	DC	LM	MD	CB	BL			

Comments:

7a- (week 2) 6/15/22 Strengths for myself this week would be the ability to sit and listen to a patient's true concerns and needs. Being an open ear was very important to my patients this week, and I was able to approach them in a non-judgmental manner and allow them to vent. **Great strength, active listening is very important, being an active listener is often just what an individual needs and sometimes is difficult to do. Active listening is a form of therapeutic communication. FB**

7a- (week 3) 6/24/22 Strengths for myself this week would be being able to create a trusting relationship with my patient in 1-S. By creating a sense of universality with my patient (without oversharing or reversing roles), I told my patient how much she reminded me of my sister. My patient feels hopeless and that taking her life is the best option. I told her my sister feels the same way I would be lost without her, and that people would be just as hurt too if she were to end her life. I felt like this openness and genuineness of conversation made her feel more comfortable talking with me. **Great therapeutic communication this week! DC**

7a week 5 Strengths for this week would be therapeutic communication and remaining calm while talking to my agitated patient in the live simulation. I allowed the patient to express how they felt while also doing what was necessary for their assessment. **Good! MD**

7A WEEK 6 Strengths for myself this week was asking appropriate questions at the detox unit to get the full picture of what a client goes through to be admitted, and what qualifications must be met. I also was active in discussion at the Sandusky Artisans and provided openness and honesty, while actively listening to what everyone had to share. **Great job this week at clinical. Asking questions to have a better understanding is a must in nursing. CB**

WEEK 7—A strength for myself this week in hospice was that I was able to seek out opportunities to learn and help staff in order to create for a better and more rewarding clinical experience. **Great job, Livia! BL**

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric

Course Objective: Synthesize concepts related to psycho-pathology, health assessment data, evidence based practice, and the nursing process using clinical judgment skills to plan and care for patients with mental illness.		Student Name: Livia Suresh				
		Date: 6/15/2022				
Top Nursing Priority: Risk for Suicide r/t verbal suicidal ideation						
		3 Points >75% Complete	2 Points 50-75% Complete	1 Point <50% Complete	0 Points 0% Complete	Comments
Noticing	Identify all abnormal assessment findings, subjective and objective	3				Great job providing all subjective and objective data obtained during your assessment of the patient.
	Identify all abnormal lab finds/diagnostic tests	3				
	Identify all risk factors	3				Very thorough list of all risk factors provided.
	Highlight all related/relevant data in the noticing boxes				0	No data related to the priority problem is highlighted such as some of data provided in the assessment findings.
Interpreting	List all nursing priorities	3				
	Highlight the top mental health nursing priority	3				
	Identify all potential complications	3				Nice job presenting potential complications.
	Highlight potential complications relevant to top mental health nursing priority				0	All complications related to the priority nursing problem, therefore all should have been

					highlighted.
	Identify signs and symptoms to monitor for each complication		2		For each complication that was listed there should have been signs and symptoms provided.
Responding	List all nursing interventions relevant to top mental health nursing priority	3			
	Interventions are prioritized		2		Prioritizing interventions should always start with an assessment and then based off of that data you will carry out orders and provide education.
	All interventions include a frequency	3			
	All interventions are individualized and realistic	3			Great job individualizing and all interventions were realistic for this patient.
	An appropriate rationale is included for each intervention	3			
Reflecting	List the reassessment findings for the top mental health nursing priority	3			
	Reflection includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care Discuss pertinent Social Determinants of Health for your patient	3			Great job providing a list of all the social determinants of health.
48-33 points = Satisfactory 32-17 points = Needs Improvement ≤ 16 points = Unsatisfactory		Total Points Earned: 40/48 Comments: Overall great job, Satisfactory completion. Faculty Initials: FB

NURSING PROCESS STUDY

Criteria	Ratings				Points Earned
Criterion #1 Process Recording is organized and neatly completed	5 Points Typed process recording with spelling and grammar correct.	3 Points Typed process recording with 5 or less spelling and grammar mistakes.	1 Points Typed process recording with 5 or more spelling and grammar mistakes.	0 Points Process recording is not typed with 10 or more spelling and grammar mistakes.	5
Criterion #2 Assessment	7 Points Identifies pertinent patient background, current medical and psychiatric history. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	5 Points Identifies areas of assessment but incomplete data provided in 2 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	3 Point Identifies areas of assessment but incomplete data provided in 3 of the 4 areas. Provides a self-assessment of thoughts and feelings prior and during therapeutic communication interaction with patient. Identifies the milieu and effects on patient.	0 Points Missing data in all 4 areas of assessment.	7
Criterion #3 Mental Health Nursing Diagnosis (priority problem)	8 Points Identifies priority mental health problem (not a medical diagnosis) providing at least 5 potential complications.	5 Points Identifies Priority mental health problem provides at least 4 potential complications.	3 Point Identifies priority mental health problem provides at least 3 potential complications.	0 Points Does not provide priority mental health problem and/or less than 3 potential complications.	8
Criterion #4 Nursing Interventions	10 Points Identifies all pertinent nursing interventions (at least 5) in priority order including a rationale and timeframe. Interventions must be individualized and realistic. Identifies a therapeutic communication goal	6 Points Identifies 4 or less nursing interventions in priority order including a rationale and time frame. Interventions are not individualized and/or realistic. Identifies a therapeutic communication goal.	4 Point Identifies 4 or less nursing interventions but not prioritized and/or no rationale or time frame provided. Interventions are not individualized and /or realistic. Identifies a therapeutic communication goal.	0 Points Identifies less than 4 interventions, not prioritized, individual, realistic, no rationale, no time frame. No therapeutic communication goal.	10
Criterion #5 Process Recording	15 Points Provides direct quotes for all interchanges. Nonverbal and Verbal behavior is described for	10 Points Direct quotes are not provided. Nonverbal and Verbal behavior is	5 Point Direct quotes are not provided. Nonverbal and Verbal behavior is	0 Points Direct quotes are not provided. Nonverbal and Verbal behavior is	10

	all interactions. Students thoughts and feelings concerning each interaction is provided.	described for at least 7 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	described for at least 5 interactions. Student thoughts and feelings concerning at least 5 interactions are provided.	not described for less than half of the interactions. Student thoughts and feelings for less than half of the interactions provided.	
Criterion #6 Process Recording	20 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic) and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) and example from interactions.	15 Points Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), and technique (exploring, focusing, reflecting, formulating a plan of action, etc.) and no example from interactions provided.	10 Point Analysis of each interaction providing type of communication (therapeutic or nontherapeutic), no technique (exploring, focusing, reflecting, formulating a plan of action, etc.) and/or no example from interactions provided.	0 Points Analysis not provided for each interaction	14
Criterion #7 Process Recording	10 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 10 interchanges between patient and student.	6 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 7 interchanges between patient and student.	4 Points Communication has a natural beginning and ending; the conversation flows from sentence to sentence and has a logical conclusion. There are at least 5 interchanges between patient and student.	0 Points There was less than 5 interchanges between patient and student provided.	10
Criterion #8 Evaluation	15 Points Self-evaluation of communication with patient. Identify at least 3 strengths and 3 weaknesses of therapeutic communication.	10 Points Self-evaluation of communication with patient. Identified 2 strengths and 2 weaknesses of therapeutic communication.	5 Point Self-evaluation of communication with patient. Identified 1 strength and 1 weakness of therapeutic communication.	0 Points No self-evaluation was provided.	15
Criterion #9 Evaluation	10 Points Identify at least 3 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	6 Points Identify at least 2 barriers to communication including interventions or communication that could have been done differently. Identify all pertinent social determinants of health.	4 Point Identify at least 2 barriers to communication did not include interventions or communication that could have been done differently. Did not identify any pertinent social determinants of health.	0 Points Identify at least 1 barrier to communication did not include interventions or communication that could have been done differently. Did not identify any pertinent social determinants of	10

				health.	
<p>Total Possible Points= 100 points 77-100 points= Satisfactory completion. 76-53 points= Needs Improvement < 53 points= Unsatisfactory</p> <p>Faculty comments: Great job on your nursing process recording. Please see the comments below. Criterion #5- You received 10 points because direct quotes were not provided for each interchange. Criterion #6- You received 14 points because the type of therapeutic communication was not listed.</p>				<p>Total Points:</p>	<p>89</p>

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME: **L. Suresh** OBSERVATION DATE/TIME: **07/07/2022** SCENARIO #: **1**

CLINICAL JUDGMENT	OBSERVATION NOTES
<p>COMPONENTS NOTICING:</p> <ul style="list-style-type: none"> • Focused Observation: E A D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B 	<p>Notices patient is anxious and agitated</p> <p>Notices patient needs medication based on CIWA scale</p> <p>Does not attempt to seek out information related to patient's substance abuse history</p> <p>Notices patient's blood pressure is elevated</p> <p>Notices patient is having visual hallucinations</p> <p>Does not attempt to seek out information related to patient's substance abuse history</p>
<p>INTERPRETING:</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 	<p>Interprets CIWA score as 8</p> <p>Interprets CIWA protocol accurately for Lorazepam dose (2 mg PO)</p> <p>Interprets CIWA score as 24</p> <p>Interprets CIWA protocol accurately for Lorazepam dose (4 mg PO)</p>
<p>RESPONDING:</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D B 	<p>Introduces self to patient and identifies patient</p> <p>Obtains vital signs</p> <p>Performs CIWA Scale</p> <p>Performs brief mental health exam</p> <p>Performs CAGE Assessment</p> <p>Medication nurse verifies patient</p> <p>Medication nurse administers Lorazepam 2 mg PO</p> <p>Reassesses blood pressure before administering morning medications</p> <p>Medication nurse administers ordered morning medications and discusses them with patient</p> <p>Introduces self to patient</p> <p>Obtains vital signs</p>

	<p>Performs CIWA Scale</p> <p>Remains calm with the patient</p> <p>Uses therapeutic communication with the patient</p> <p>Medication nurse verifies patient</p> <p>Medication nurse administers Lorazepam 4 mg PO</p> <p>Reassesses patient after Lorazepam is administered</p> <p>Reassesses vital signs</p> <p>Provides education to patient related to alcohol withdrawal and support groups</p>
<p>REFLECTING:</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Identified strengths and areas of improvement for performance.</p> <p>Reflected on the importance of providing education to the patient about substance abuse and community resources available.</p> <p>Reflected on the importance of providing education when it is appropriate.</p> <p>Reflected on the importance of therapeutic communication.</p>
<p>SUMMARY COMMENTS:</p> <p>Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric.</p> <p>E= Exemplary</p> <p>A= Accomplished</p> <p>D= Developing</p> <p>B= Beginning</p>	<p><i>Lasater Clinical Judgement Rubric: Information provided relates to the Clinical Judgement Rubric based on comments listed above from student performance. Refer to Lasater’s Clinical Judgement Rubric for more detailed information.</i></p> <p>Noticing: Focuses observation appropriately; regularly observes and monitors a wide variety of objective and subjective data to uncover any useful information. Recognizes subtle patterns and deviations from expected patterns in data and uses these to guide the assessment. Makes limited efforts to seek additional information from the patient and family; often seems not to know what information to seek and/or pursues unrelated information.</p> <p>Interpreting: Focuses on the most relevant and important data useful for explaining the patient’s condition. Even when facing complex, conflicting, or confusing data, is able to (a) note and make sense of patterns in the patient’s data, (b) compare these with known patterns (from the nursing knowledge base, research, personal experience, and intuition), and (c) develop plans for interventions that can be justified in terms of their likelihood of success.</p> <p>Responding: Assumes responsibility; delegates team assignments; assesses patients and reassures them and their families. Communicates effectively; explains interventions; calms and reassures patients and families; directs and involves team members, explaining and giving directions; checks for understanding. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Shows mastery of necessary nursing skills</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on</p>

	and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.
