

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Access–2022

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Semester: **Fall**

Faculty: **Brittany Lombardi, MSN, RN**
Dawn Wikel, MSN, RN, CNE

Teaching Assistant: **Chandra Barnes, BSN, RN**

Graduate Student: **Chandra Barnes, BSN, RN**

Final Grade: **Satisfactory**

Date of Completion:

Faculty eSignature:

DIRECTIONS FOR USE:

Students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated as “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for the clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Lasater Clinical Judgment Rubric
- Faculty Feedback
- Skills Demonstration
- Evaluation of Clinical Performance Tool
- Documentation
- Skills Lab Competency Tool
- High Fidelity Simulation
- Simulation Evaluation Tool
- Skills Lab Checklist/Checkoff

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/patients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective					
1. Recognize the needs of the individual including respect for diversity using a patient-centered approach and therapeutic communication. (1,2,3,4)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies:					
a. Identify spiritual needs of the patient and cultural factors which influence healthcare (Noticing).			S	N/A	S
b. Coordinate care based on respect for patient’s preferences, values, and needs (Responding).			S	N/A	S
c. Use Maslow’s Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).			S	N/A	S
d. Communicate effectively with patients and families (Responding).			S	N/A	S
			BL	BL	BL
Faculty Initials

Clinical Location					

Comments

Week 15-1(a-d) Briana, excellent job this week providing individualized care to your patient while respecting her preferences, values, and needs. You did a great job prioritizing your patient’s need to use the restroom before trying to complete your vital signs and head to toe assessment. Your communication with your patient was excellent this week as well. BL

* End-of-Program Student Learning Outcomes

Objective					
2. Utilize steps of the nursing process including clinical judgment in the formulation of an evidence-based, patient-centered plan of care. (1,2,3,4,5)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
a. Consider possible cause for all abnormal vital signs and assessment findings (Interpreting).			S	N/A	S
b. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).			S	N/A	S
Faculty Initials			BL	BL	BL

Comments

Week 15-2(a) Great job discussing all your patient's abnormal vital signs and assessment findings during debriefing. You were able to correctly identify possible causes for all of the findings as well. BL

* End-of-Program Student Learning Outcomes

Objective					
3. Demonstrate effective psychomotor skills and accurate use of technology in performing assessments and documenting safe nursing care. (1,2,3,4,5,8)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies:					
a. Perform a physical assessment and obtain vital sign measurements utilizing correct techniques (Noticing) .			S	N/A	S
b. Access medical information of assigned patient in Electronic Medical Record (Noticing) .			S	N/A	S
c. Demonstrate correct body mechanics and practice safety measures during the provision of patient care (Responding) .			S	N/A	S
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding) .	S		S	N/A	S
e. Document the physical assessment and vital signs for assigned patient according to policy (Responding) .			S	N/A	S
f. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting) .			S	N/A	S
g. Administer oral, intra-muscular, subcutaneous, and intradermal medications using correct techniques and following the six rights of medication administration (Responding) .			S	N/A	S
h. Document medication administration appropriately (Responding) .		S	S	N/A	S
i. Apply the principles of asepsis and standard precautions (Responding) .			S	N/A	S
j. Organize time providing patient care efficiently and safely (Responding) .			S	N/A	S
Faculty Initials	BL	BL	BL	BL	BL

*Week 5: Meditech Expanse

*Week 12: BMV

Comments

Week 5-3(d) Excellent job this week navigating Meditech and demonstrating beginning skill in accessing patient education material on the intranet. BL

Week 12-3(h) You are satisfactory for this competency by attending the BMV clinical orientation, actively listening, observing, and practicing with the use of the BMV scanner to safely administer medications. BL

Week 15-3(a,e,f-h) Excellent job obtaining vital signs and performing a physical assessment on your patient. Your documentation in Meditech was accurate and very well done. You did a great job with your medication pass and followed all the six rights of medication administration. BL

* End-of-Program Student Learning Outcomes

Objective					
4. Choose evidence-based strategies and legal-ethical concepts which may be applied to health care settings. (7)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies:					
a. Comply with patient’s Bill of Rights (Responding) .			S	N/A	S
b. Respect the privacy of patient health and medical information as required by federal HIPAA regulations (Responding) .			S	N/A	S
c. Follow the standards outlined in the FRMCSN policy, “Student Conduct While Providing Nursing Care” (Responding) .			S	N/A	S
			BL	BL	BL
Faculty Initials					

Comments

* End-of-Program Student Learning Outcomes

Objective					
5. Develop an individualized teaching plan based on patient needs. (2,3,5,6)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies: a. Utilize appropriate resources and terminology when providing patient education (Responding).			S	N/A	S
Faculty Initials			BL	BL	BL

Comments

* End-of-Program Student Learning Outcomes

Objective					
6. Analyze and discuss specific role changes necessary to transition from licensed practical nurse to registered nurse. (1,3,4,5,6,7,8)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies:	S	S	S	N/A	S
a. Incorporate instructor feedback for improvement and growth (Reflecting) .			S	N/A	S
b. Reflect on differences between RN and LPN role in the acute care setting (Reflecting) .			S	N/A	S
c. Discuss care and tasks that are appropriate to delegate related to assigned patient (Reflecting) .			S	N/A	S
Faculty Initials	BL	BL	BL	BL	BL

Comments

Week 15-6(b,c) Excellent job reflecting on the differences between the RN and LPN role in the acute care setting during debriefing. You were also able to give several examples of tasks that would have been appropriate for you to delegate to the unlicensed assistive personnel (UAP) for the care of your patient. Great job! BL

* End-of-Program Student Learning Outcomes

Objective					
7. Establish personal goals for success in the RN nursing program based upon concepts of self-directed learning, time management, and values clarification. (7)*					
Clinical Experience	Week 5	Week 12	Week 15	Make-Up	Final
Competencies:	S	S	S	N/A	S
a. Reflect on areas of strength** (Reflecting) .	S	S	S	N/A	S
b. Reflect on areas for self-growth with a plan for improvement.** (Reflecting) .	S	S	S	N/A	S
c. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect (Responding) .	S	S	S	N/A	S
d. Incorporate the core values of caring, diversity, excellence, integrity, and “ACE”- attitude, commitment, and enthusiasm during all clinical interactions (Responding) .	S	S	S	N/A	S
e. Actively engage in self-reflection (Reflecting) .	S	S	S	N/A	S
Faculty Initials	BL	BL	BL	BL	BL

****7(a,b)-You must provide specific examples of areas of strength and areas for self-growth. You must also provide an explanation of how you will improve in your area for self-growth. Remember that a goal includes what you will do to improve, how often you will do it, and when you will do it by. Example, “I had a hard time with taking a manual BP. I will get a BP cuff and practice manual BP’s with at least three members of my family over the next week.” Please ensure that you answer this section in-depth with your plan of action.**

Comments 7a) I feel comfortable about navigating through the chart. I was able to document and edit in a chart and was able to find results and records with ease. I struggled with focus. I will get my personal life together and reorganize to have success in school. Great job, Briana! BL
7A&b) I feel as though my strengths of this week is the computer knowledge and where to find information if I have questions. I am able to use the meditech system and how to navigate if the scanning is having issues or other questions arise. I struggle with the fear of not knowing everything I need to with every medication. A way to overcome this is to continue to read and study. I will also use my resources to get the most accurate information for each medication as I can and learn the information. Excellent job! It’s important to have a good understanding of any medication that you administer to a patient. You have plenty of excellent resources such as Skyscape or Lexicomp to help expand your knowledge related to medications if you find yourself unsure about anything. Keep up all your hard work! BL

WEEK15 7a) I feel comfortable with patients and with the morning flow with them. I was able to connect with the patient and completed what I needed to in a timely matter with the patient and able to adjust with the things that came up during clinical. Even though I was prepared with my tasks, I feel as though I can manage my time a little better and continue to stay up on my knowledge of the medications. I will use my resources for delegation and knowledge base better when able to do so. **Briana, you did an excellent job in clinical this week! You were very well prepared for your medication pass and followed all the six rights of medication administration. As you move forward in the program, you will have pharmacology in each of the courses and it will help expand your knowledge further. Keep up all your great work as you move into the spring semester! BL**

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME: *B. Busby (A), E. McCloy (A), T. Thom (M)* OBSERVATION DATE/TIME: *11/29/2022 0915-1015* SCENARIO #: *1*

CLINICAL JUDGMENT	OBSERVATION NOTES
<p>COMPONENTS NOTICING:</p> <ul style="list-style-type: none"> • Focused Observation: E <i>A</i> D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B 	<p>Notices patient has a productive cough.</p> <p>Notices patient has abnormal lung sounds.</p> <p>Notices the patient is in pain after patient prompts with moaning.</p> <p>Notices the patient does not have any medication ordered for pain.</p>
<p>INTERPRETING:</p> <ul style="list-style-type: none"> • Prioritizing Data: E <i>A</i> D B • Making Sense of Data: E A D B 	<p>Prioritizes head to toe assessment.</p> <p>Does not prioritize vital signs or pain assessment.</p> <p>Interprets patient’s lung sounds correctly as crackles.</p> <p>Interprets patient’s pain level as 6/10.</p> <p>Prioritizes giving pain medication.</p>
<p>RESPONDING:</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E <i>A</i> D B • Clear Communication: E <i>A</i> D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E <i>A</i> D B <p style="text-align: center;">B</p>	<p>Assessment nurse introduces self and identifies patient.</p> <p>Raises head of bed to help with patient’s breathing.</p> <p>Auscultates heart sounds, lung sounds and abdominal sounds over the gown.</p> <p>Asks about characteristics of cough.</p> <p>Completes comprehensive head to toe assessment.</p> <p>Communicates with patient throughout assessment, attempts to build rapport.</p>

	<p>Does not complete a full set of vital signs.</p> <p>Medication nurse introduces self, identifies patient and allergies.</p> <p>Administers ordered medications and provides education.</p> <p>Provides education on increasing fluids, coughing and deep breathing, incentive spirometer and smoking cessation.</p> <p>Performs pain assessment after patient begins moaning.</p> <p>Assessment and medication nurse calls healthcare provider and utilizes SBAR.</p> <p>Assessment nurse reads order back to the physician.</p> <p>Medication nurse administers pain medication as ordered.</p> <p>Medication nurse verifies patient's vital signs before administering metoprolol.</p>
<p>REFLECTING:</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Participated well in debriefing. Each member of the team reflected on the experience and asked appropriate questions. Members of the team noticed areas for improvement such as taking a full set of vital signs, pain assessment, and having all patient information gathered before phoning the healthcare provider. Group members discussed ways to make improvements in the future.</p>
<p>SUMMARY COMMENTS:</p> <p>Satisfactory completion of the simulation scenario is a score of “Beginning” or higher in all areas of the rubric.</p> <p>E= Exemplary</p> <p>A= Accomplished</p> <p>D= Developing</p> <p>B= Beginning</p> <p>A = Assessment Nurse</p> <p>M = Medication Nurse</p>	<p>Noticing: Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs. Recognizes subtle patterns and deviations from expected patterns in data and uses these to guide the assessment. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. Even when facing complex, conflicting, or confusing data, is able to (a) note and make sense of patterns in the patient's data, (b) compare these with known patterns (from the nursing knowledge base, research, personal experience, and intuition), and (c) develop plans for interventions that can be</p>

	<p>justified in terms of their likelihood of success.</p> <p>Responding: Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.</p>

*Course Objectives

Comments:

Week 6 (Wound Care): You have satisfactorily demonstrated competency in the skill of wound assessment and care (Dry Sterile Dressing & Sterile Wet to Dry Dressing), and completed Meditech documentation related to wound care. Nice job! You also did a great job participating in the restraint station as well. BL

Week 9 (NG Insertion/Care): Great job this week in lab demonstrating competence for Nasogastric Tube Insertion, Irrigation, and Removal through guided observation. You were able to verbalize understanding of the difference between irrigation and flushing, aspiration precautions, and familiarized yourself with the wall suction set up. Additionally, you participated in the PO intake station for accurate calculation of carbohydrate intake, accurately measured gastric output through the NG tube, and completed the assigned documentation in Meditech accurately. Keep up the hard work! BL

Week 10 (Foley Insertion/Care): You did a great job in the lab this week and were satisfactory with the following skills: Application of Sterile Gloves, Foley Catheter Insertion (female), and Foley Catheter Removal. No prompts were needed. You maintained the sterile field throughout the Foley insertion, did not contaminate the catheter or your gloves at any point, had very good communication, and were thorough throughout the observation. Great job! You correctly verbalized the differences in catheter insertion for a male patient. You independently completed the Meditech documentation for Urinary Catheter Management. Keep up the excellent work! BL

Week 11 (Head to Toe Assessment): Briana, great job in lab this week! You have satisfactorily demonstrated a basic head to toe assessment in the skills lab. Remember to always place your stethoscope directly on the patient's skin when auscultating. One prompt was needed for a reminder to ask the patient about any presence of cough, sputum, or shortness of breath. Your approach was systematic, thorough, and overall well done. You demonstrated friendly, professional, and informative communication. You did a great job with the prioritization and delegation activity, as well as completing documentation in Meditech for vital signs, pain, safety and falls, and the physical reassessment. Keep up your excellent work! BL

Week 12 (Documentation): You have satisfactorily completed the documentation lab by actively participating in Meditech documentation related to vital signs, physical re-assessment, safety and falls, pain assessment, patient rounds, TED hose/SCD/Ace wrap, feeding method, Intake and Output, urinary catheter management, and writing a nurse note. You utilized your time wisely, asked appropriate questions, and gained experience with each intervention listed. Great job! BL

Nursing Access–2022

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
