

**EVALUATION OF CLINICAL PERFORMANCE TOOL  
Medical Surgical Nursing – 2023**

**Firelands Regional Medical Center School of Nursing  
Sandusky, Ohio**

**Student:**

**Final Grade:** Satisfactory/Unsatisfactory

**Semester:** Spring

**Date of Completion:**

**Faculty:** Dawn Wikel, MSN, RN, CNE; Lora Malfara, MSN, RN; Kelly Ammanniti, MSN, RN, CHSE;  
Monica Dunbar, MSN, RN; Nick Simonovich, MSN, RN

**Faculty eSignature:**

**Teaching Assistant:** Rachel Haynes, BSN, RN

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U”. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

**METHODS OF EVALUATION:**

- Skills Lab Competency Tool & Skills Checklists
- Simulation, Prebriefing, PEARLS Debriefing, & Reflection Journals
- Nursing Care Map Rubric
- Meditech Documentation
- Clinical Debriefing
- Clinical Discussion Group Grading Rubric
- Evaluation of Clinical Performance Tool
- Lasater’s Clinical Judgment Rubric & Scoring Sheet
- Virtual Simulation Scenarios

**ABSENCE (Refer to Attendance Policy)**

Date	Number of Hours	Comments	Make-up (/Date/Time)

Faculty’s Name	Initials
<b>Kelly Ammanniti</b>	<b>KA</b>
<b>Monica Dunbar</b>	<b>MD</b>
<b>Rachel Haynes</b>	<b>RH</b>
<b>Lora Malfara</b>	<b>LM</b>
<b>Nick Simonovich</b>	<b>NS</b>
<b>Dawn Wikel</b>	<b>DW</b>

**PERFORMANCE CODE**

**SATISFACTORY CLINICAL PERFORMANCE**

**Satisfactory (S):** Safe, accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

**UNSATISFACTORY CLINICAL PERFORMANCE**

**Needs Improvement (NI):** Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

**OTHER**

**Not Available (NA):** The clinical experience which would meet the competency was not available.

---

**\*Grey shaded boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials	Remediation & Instructor Initials

Note: Students are required to submit two satisfactory care maps over the course of the semester. If the care map is not evaluated as satisfactory upon initial submission, the student may revise the care map based on instructor feedback/remediation and resubmit until satisfactory. At least one care map must be submitted prior to midterm.

---

**Objective**

1. Illustrate correlations to demonstrate the pathophysiological alterations in adult patients with medical-surgical problems. (2,3,4,5)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>			S														
a. Analyze the involved pathophysiology of the patient's disease process. (Interpreting)			S														
b. Correlate patient's symptoms with the patient's disease process. (Interpreting)			S														
c. Correlate diagnostic tests with the patient's disease process. (Interpreting)			S														
d. Correlate pharmacotherapy in relation to the patient's disease process. (Interpreting)			S														
e. Correlate medical treatment in relation to the patient's disease process. (Interpreting)			S														
f. Correlate the nutritional needs in relation to patient's disease process. (Interpreting)			S														
g. Assess developmental stages of assigned patients. (Interpreting)			S														
h. Demonstrate evidence of research in being prepared for clinical. (Noticing)	NA S		S														
Indicate your clinical site as well as your patient's age and primary medical diagnosis in this box weekly.	Meditech, FSBS, IV Pump Sessions																
Instructors Initials	KA																

**Comments:**

\*End-of-Program Student Learning Outcomes  
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 1 (1h)- During week 1, the Meditech, FSBS, and IV pump sessions were all considered clinical hours. You came prepared to each of them and demonstrated competency accordingly. For this reason, you have earned an S for this competency. KA

**Objective**

2. Perform physical assessments as a method for determining deviations from normal. (3,4,5)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>			S														
a. Perform inspection, palpation, percussion, and auscultation in the physical assessment of assigned patient. (Noticing)			S														
b. Conduct a fall assessment and implement appropriate precautions. (Noticing)			S														
c. Conduct a skin risk assessment and implement appropriate precautions and care. (Noticing)			S														
d. Communicate physical assessment. (Responding)			S														
e. Analyze appropriate assessment skills for the patient's disease process. (Interpreting)			S														
f. Demonstrate skill in accessing electronic information and documenting patient care. (Responding)	S		S														
	<b>KA</b>																

**Comments:**

Week 1 (2f)- By attending the Meditech clinical update & providing your full, undivided attention during the demonstration of documenting insulin, IV solutions, saline flushes and IV site assessments you are satisfactory for this competency. NS

\*End-of-Program Student Learning Outcomes  
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

**Objective**

3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>	NA		S														
a. Perform standard precautions. (Responding)																	
b. Demonstrate nursing measures skillfully and safely. (Responding)	NA		S														
c. Demonstrate promptness and ability to organize nursing care effectively. (Responding)			S														
d. Appropriately prioritizes nursing care. (Responding)			S														
e. Recognize the need for assistance. (Reflecting)			S														
f. Apply the principles of asepsis where indicated. (Responding)	NA		S														
g. Demonstrate appropriate skill with Foley catheter insertion, maintenance, & removal (Responding)			NA														
h. Implement DVT prophylaxis (early ambulation, SCDs, and TED hose) based on assessment and physicians' orders (Responding)			S														
i. Identify the role of evidence in determining best nursing practice. (Interpreting)	NA		S														
j. Identify recommendations for change through team collaboration. (Reflecting)			S														
	KA																

**Comments:**

\*End-of-Program Student Learning Outcomes  
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

**Objective**

3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>			S														
k. Administer PO, SQ, IM, or ID medications observing the rights of medication administration. (Responding)			S														
l. Ensure patient safety through proper use of EHR, IV flow sheet, and BMV. (Responding)			S														
m. Calculate medication doses accurately. (Responding)			S														
n. Administer IV therapy, piggybacks, IV push, and/or adding solution to a continuous infusion line. (Responding)			S														
o. Regulate IV flow rate. (Responding)	S		S														
p. Flush saline lock. (Responding)			NA														
q. D/C an IV. (Responding)			S														
r. Monitor an IV. (Noticing)	NA S		S														
s. Perform FSBS with appropriate interventions. (Responding)	S		NA														
	KA																

**Comments:**

Week 1 (3o, r)- By attending the IV Pump clinical and providing your full, undivided attention and active participation during the demonstration of the Alaris pump, documentation of IV site maintenance and recognition of potential IV complications, you are satisfactory for this competency. LM

(3s)- You were able to demonstrate understanding of the rationale of FSBS and the use of the glucometer. You were able to perform a Quality Control check of the glucometer as well as demonstrate skills and knowledge required of proper sample ID, collection, and handling of blood. DW

\*End-of-Program Student Learning Outcomes  
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

**Objective**

4. Use therapeutic communication techniques to establish a baseline for nursing decisions. (1,5,7)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>			S														
a. Integrate professionally appropriate and therapeutic communication skills in interactions with patients, families, and significant others. (Responding)																	
b. Communicate professionally and collaboratively with members of the healthcare team using hand-off communication techniques. (SBAR) (Responding)			S														
c. Report promptly and accurately any change in the status of the patient. (Responding)			S														
d. Maintain confidentiality of patient health and medical information. (Responding)			S														
e. Consistently and appropriately post comments in clinical discussion groups. (Reflecting)			S														
f. Obtain report, from previous care giver, at the beginning of the clinical day. (Noticing)			S														
g. Provide a clear, organized hand-off report to your patient's next provider of care. (Responding)			S														
	KA																

**Comments:**

\*End-of-Program Student Learning Outcomes  
 Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

**Objective**

5. Implement patient education based on teaching needs of patients and/or significant others. (1,6)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
<b>Competencies:</b>			NI														
<b>a. Describe a teaching need of your patient.** (Reflecting)</b>			NI														
<b>b. Utilize appropriate terminology and resources (Lexicomp, UpToDate, Dynamic Health, Skyscape) when providing patient education. (Responding)</b>			NI														
	KA																

**\*\*5a & b- You must address this competency in the comments below for all clinicals on 3T, 4N, or Rehab- describe the patient education you provided; be specific- include the topic, method of delivery, reason for teaching need, materials to support learning through above resources (if applicable), and method used to validate learning.**

**Example: Education related to orthostatic hypotension (changing positions slowly by sitting at the side of the bed or chair for a few minutes before moving to another position, utilizing the walker when ambulating) was provided to my patient through discussion and demonstration. This was necessary to maintain patient safety as he/she was experiencing a drop-in blood pressure and dizziness when getting out of bed. A patient education sheet was printed from Lexicomp and given to the patient. The teach back method was used to validate learning.**

**Comments:**

NI: I feel that I could use some minute adjustments in my patient education when explaining newly ordered medications. There were newly added medications to my patient’s prescription list. I felt a little thrown off because it was a medication I wasn’t able to research beforehand. However, with more practice of noticing changes in the clinical setting, I can be quicker at noticing a pattern in my patient med list.

NI: I felt that I can improve on my confidence in my patient education. I want to be firm in my knowledge about the disease process and be able to give my patient the most relief with the knowledge I have obtained. My patient was slightly confused on why they were on different medications in the hospital versus at home, and I educated them to the best of my ability to explain why certain medications were given on a short-term basis. I may not be able to alleviate all of their stressors, but the ones I can control (pertaining to that of a disease process), I want to relieve them by being able to teach them about their disease process.

\*End-of-Program Student Learning Outcomes  
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

**Objective**

6. Implement patient-centered plans of care utilizing the nursing process, clinical judgment, and consideration for cultural, ethnic, and social diversity. (2,3,4,5)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Develop and implement a priority care map utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)			NA														
b. <b>Identify factors associated with Social Determinants of Health (SDOH) &amp;/or cultural elements that have the potential to influence patient care.**</b> (Noticing, Interpreting, Responding, Reflecting)			S														
	KA																

**\*\*6b- You must address this competency in the comments on a weekly basis. For all clinicals - provide an example of SDOH &/or cultural elements that influenced your patient's care; be specific.**

**Comments:**

See Care Map Grading Rubrics below.

SDOH: My patient had a poor support system at home with isolating accumulating debt that resulted from circular trips to the hospital. They would share personal information while I was administering medications. I believe this is due to the lack of personal connections at home. The

\*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

disconnect between their homelife and their health was quite prevalent in the sense that if they had more support at home (family relationships), then I believe their sense of belonging could lead them to a more progressive healing journey.

## Objective

7. Illustrate professional conduct including self-examination, responsibility for learning, and goal setting. (7)\*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. <b>Reflect on an area of strength. ** (Reflecting)</b>	S		S														
b. <b>Reflect on an area for improvement and set a goal to meet this need.** (Reflecting)</b>	S		S														
c. Demonstrate evidence of growth, initiative, and self-confidence. (Responding)	S		S														
d. Follow the standards outlined in the FRMCSN Student Code of Conduct Policy. (Responding)	S		S														
e. Incorporate the core values of caring, diversity, excellence, integrity, and “ACE”- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S		S														
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (Responding)	S		S														
g. Demonstrate the ability to give and receive constructive feedback. (Responding)	S		S														
h. Actively engage in self-reflection. (Reflecting)	S		S														
	KA																

**\*\*7a and 7b: You must address these competencies in the comments section on a weekly basis. Please write a different comment each week. Remember that a goal includes what you will do to improve, how often you will do it, and when you will do it by (example- “I had trouble remembering to do the three checks of the six medication rights prior to administering medications. I will review the six rights and medication administration content in the textbook twice before the next clinical. Additionally, I will request to meet with my clinical faculty member to practice preparing and administering at least three medications before the next clinical.”**

### Comments:

Week 1 Strengths: During this week I excelled at hanging and clamping my first IV line. I was able to utilize the skills shown in the ATI videos on how to remove bubbles from the line and I was able to apply this in the classroom setting. I was quickly able to figure the drip rate/minute and per 15 seconds while

controlling the clamp on the IV line. I was also able to overcome the obstacle of dexterity pertaining to insulin application. I also improved on drawing up fluids from a vial more. I was able to narrow down my air bubbles in the syringe to one. **You did a great job demonstrating your knowledge and actively participating in lab this week. KA**

Week 1 Weaknesses: Some weaknesses that I took away from this week is the challenge of forming an IV equation by reading the drip rate off the IV bag. With more repetition and practice, I will be able to swiftly gather information to form an equation for pump and drip rates. Another challenge for me was forming equations to figure out infusion rate times. I am slowly getting better at the problems and with more application to practice problems I'll be able to overcome this obstacle. **Practice will definitely help master these concepts. Please remember to set a more specific goal in the future (i.e. I will practice IV math problems three times before next week). KA**

Week 3 Strengths: I feel that I prevailed in my confidence this week. I was able to master giving an IM injection and going through the process of medication administration. I also have mastered hanging an new IV bag and starting a new line with minimal air occlusions. I was able to confidently communicate to a respiratory therapist about my patient's oxygen status, and I was quicker at interpreting critical levels of oxygen to the nurse.

Week 3 Weaknesses: A weakness of mine this week was confidence in educating my patient about new and upcoming medications that were not prescribed before. With improved confidence as my main goal, I can practice communication to my peers and family members at home. This can aid my ability to swiftly and promptly answers questions in the clinical setting.

**Comments:**

**Week 1**

(IV Math)-You satisfactorily participated in the IV Math learning session on 1/10/23 as well as the assigned IV Math practice questions and the IV Math Application lab on 1/11/23 or 1/12/23. KA/DW

(Assessment)- You were able to satisfactorily demonstrate the Basic Head to Toe Assessment during lab. KA/RH

(Insulin)- You were able to correctly prepare an insulin pen and administer subcutaneous insulin. Insulin requirements were accurately identified and calculated through the corrective scale and carbohydrate coverage orders. MD

(Lab Day)- You satisfactorily completed the mandatory lab review of nursing foundational skills. This was achieved through simulating care for a patient in a scenario requiring competency in assessment, communication, medication administration (including PO and IM injection), nasogastric tube insertion and maintenance, patient mobility and hygiene, use of PPE for Contact Isolation, wound care, and foley insertion. NS/LM

(IV Skills)- You have satisfactorily completed the IV lab including a saline flush, IV push, hanging a primary and secondary IV solution, adjusting a flow rate to run by gravity, discontinuing IV solution, and monitoring the IV site for infiltration, phlebitis, and signs of complication. NS/MD/RH

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Medical Surgical Nursing – 2023**

**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature and Date:

12/9/2022
