

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2023**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Spring

Date of Completion:

Faculty: Dawn Wikel, MSN, RN, CNE; Lora Malfara, MSN, RN; Kelly Ammanniti, MSN, RN, CHSE;
Monica Dunbar, MSN, RN; Nick Simonovich, MSN, RN

Faculty eSignature:

Teaching Assistant: Rachel Haynes, BSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U”. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Skills Lab Competency Tool & Skills Checklists
- Simulation, Prebriefing, PEARLS Debriefing, & Reflection Journals
- Nursing Care Map Rubric
- Meditech Documentation
- Clinical Debriefing
- Clinical Discussion Group Grading Rubric
- Evaluation of Clinical Performance Tool
- Lasater’s Clinical Judgment Rubric & Scoring Sheet
- Virtual Simulation Scenarios

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make-up (/Date/Time)

Faculty’s Name	Initials
Kelly Ammanniti	KA
Monica Dunbar	MD
Rachel Haynes	RH
Lora Malfara	LM
Nick Simonovich	NS
Dawn Wikel	DW

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials	Remediation & Instructor Initials
1/26/2023	Acute Pain	Satisfactory/MD	NA/MD	NA/MD

Note: Students are required to submit two satisfactory care maps over the course of the semester. If the care map is not evaluated as satisfactory upon initial submission, the student may revise the care map based on instructor feedback/remediation and resubmit until satisfactory. At least one care map must be submitted prior to midterm.

Objective

1. Illustrate correlations to demonstrate the pathophysiological alterations in adult patients with medical-surgical problems. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S	NA													
a. Analyze the involved pathophysiology of the patient's disease process. (Interpreting)			S	NA													
b. Correlate patient's symptoms with the patient's disease process. (Interpreting)			S	NA													
c. Correlate diagnostic tests with the patient's disease process. (Interpreting)			S	NA													
d. Correlate pharmacotherapy in relation to the patient's disease process. (Interpreting)			S	NA													
e. Correlate medical treatment in relation to the patient's disease process. (Interpreting)			S	NA													
f. Correlate the nutritional needs in relation to patient's disease process. (Interpreting)			S	NA													
g. Assess developmental stages of assigned patients. (Interpreting)			S	NA													
h. Demonstrate evidence of research in being prepared for clinical. (Noticing)	S		S	NA													
Indicate your clinical site as well as your patient's age and primary medical diagnosis in this box weekly.	Meditech, FSBS, IV Pump Sessions		Rehab, 72 y.o., lumbar stenosis	ECSC													
Instructors Initials	MD	MD	MD														

Comments:

*End-of-Program Student Learning Outcomes
 Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 1 (1h)- During week 1, the Meditech, FSBS, and IV pump sessions were all considered clinical hours. You came prepared to each of them and demonstrated competency accordingly. For this reason, you have earned an S for this competency. MD
Week 3 Objective 1-Sela-You did a nice job this week with meeting all of these objectives in the clinical setting. You were able to correlate what the patient was experiencing with their diagnosis and how the medications they were taking worked with their diagnosis as well. MD

Objective

2. Perform physical assessments as a method for determining deviations from normal. (3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S	NA													
a. Perform inspection, palpation, percussion, and auscultation in the physical assessment of assigned patient. (Noticing)			S	NA													
b. Conduct a fall assessment and implement appropriate precautions. (Noticing)			S	NA													
c. Conduct a skin risk assessment and implement appropriate precautions and care. (Noticing)			S	NA													
d. Communicate physical assessment. (Responding)			S	NA													
e. Analyze appropriate assessment skills for the patient's disease process. (Interpreting)			S	NA													
f. Demonstrate skill in accessing electronic information and documenting patient care. (Responding)	S		S	NA													
	MD	MD	MD														

Comments:

Week 1 (2f)- By attending the Meditech clinical update & providing your full, undivided attention during the demonstration of documenting insulin, IV solutions, saline flushes and IV site assessments you are satisfactory for this competency. NS

Week 3 Objective 2-You did a great job with this objective in clinical. You were able to perform a thorough assessment and communicate findings to me and the primary RN. MD

Objective

3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:	S		S	NA													
a. Perform standard precautions. (Responding)	S		S	NA													
b. Demonstrate nursing measures skillfully and safely. (Responding)	S		S	NA													
c. Demonstrate promptness and ability to organize nursing care effectively. (Responding)			S	NA													
d. Appropriately prioritizes nursing care. (Responding)			S	NA													
e. Recognize the need for assistance. (Reflecting)			S	NA													
f. Apply the principles of asepsis where indicated. (Responding)	S		S	NA													
g. Demonstrate appropriate skill with Foley catheter insertion, maintenance, & removal (Responding)			NA	NA													
h. Implement DVT prophylaxis (early ambulation, SCDs, and ted hose) based on assessment and physicians' orders (Responding)			S	NA													
i. Identify the role of evidence in determining best nursing practice. (Interpreting)	S		S	NA													
j. Identify recommendations for change through team collaboration. (Reflecting)			S	NA													
	MD	MD	MD														

Comments:

Week 3 Objective 3-You did really well with prioritizing and having organized care this week. MD

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S	NA													
k. Administer PO, SQ, IM, or ID medications observing the rights of medication administration. (Responding)			S	NA													
l. Ensure patient safety through proper use of EHR, IV flow sheet, and BMV. (Responding)			S	NA													
m. Calculate medication doses accurately. (Responding)			S	NA													
n. Administer IV therapy, piggybacks, IV push, and/or adding solution to a continuous infusion line. (Responding)			NA	NA													
o. Regulate IV flow rate. (Responding)	S		NA	NA													
p. Flush saline lock. (Responding)			NA	NA													
q. D/C an IV. (Responding)			NA	NA													
r. Monitor an IV. (Noticing)	S		S	NA													
s. Perform FSBS with appropriate interventions. (Responding)	S		NA	NA													
	MD	MD	MD														

Comments:

Week 1 (3o, r)- By attending the IV Pump clinical and providing your full, undivided attention and active participation during the demonstration of the Alaris pump, documentation of IV site maintenance and recognition of potential IV complications, you are satisfactory for this competency. LM

(3s)- You were able to demonstrate understanding of the rationale of FSBS and the use of the glucometer. You were able to perform a Quality Control check of the glucometer as well as demonstrate skills and knowledge required of proper sample ID, collection, and handling of blood. DW

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 3 Objective 3K, L, M-You did an awesome job with medication administration! MD

Objective																	
4. Use therapeutic communication techniques to establish a baseline for nursing decisions. (1,5,7)*																	
Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S	NA													
a. Integrate professionally appropriate and therapeutic communication skills in interactions with patients, families, and significant others. (Responding)			S	NA													
b. Communicate professionally and collaboratively with members of the healthcare team using hand-off communication techniques. (SBAR) (Responding)			S	NA													
c. Report promptly and accurately any change in the status of the patient. (Responding)			S	NA													
d. Maintain confidentiality of patient health and medical information. (Responding)			S	NA													
e. Consistently and appropriately post comments in clinical discussion groups. (Reflecting)			S	NA													
f. Obtain report, from previous care giver, at the beginning of the clinical day. (Noticing)			S	NA													

*End-of-Program Student Learning Outcomes
Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

g. Provide a clear, organized hand-off report to your patient's next provider of care. (Responding)			S	NA													
	MD	MD	MD														

Comments:

Week 3 Objective 4B-You did awesome with SBAR report with me and the primary RN. MD

Objective

5. Implement patient education based on teaching needs of patients and/or significant others. (1,6)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S	NA													
a. Describe a teaching need of your patient.** (Reflecting)			S	NA													
b. Utilize appropriate terminology and resources (Lexicomp, UpToDate, Dynamic Health, Skyscape) when providing patient education. (Responding)			S	NA													
	MD	MD	MD														

****5a & b- You must address this competency in the comments below for all clinicals on 3T, 4N, or Rehab- describe the patient education you provided; be specific- include the topic, method of delivery, reason for teaching need, materials to support learning through above resources (if applicable), and method used to validate learning.**
Example: Education related to orthostatic hypotension (changing positions slowly by sitting at the side of the bed or chair for a few minutes before moving to another position, utilizing the walker when ambulating) was provided to my patient through discussion and demonstration. This was necessary to maintain patient safety as he/she was experiencing a drop-in blood pressure and dizziness when getting out of bed. A patient education sheet was printed from Lexicomp and given to the patient. The teach back method was used to validate learning.

Comments:

Week 3: 5a & b. Education related to increased protein intake. It is important to increase protein intake as we age, it is helpful in the healing process, especially since they had lumbar surgery done, and the protein levels were low as well. I verbally provided my patient with information on increasing their protein intake. The teach back method was used to validate learning. **Great job! MD**

*End-of-Program Student Learning Outcomes
 Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Implement patient-centered plans of care utilizing the nursing process, clinical judgment, and consideration for cultural, ethnic, and social diversity. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Develop and implement a priority care map utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)			S	NA													
b. Identify factors associated with Social Determinants of Health (SDOH) &/or cultural elements that have the potential to influence patient care.** (Noticing, Interpreting, Responding, Reflecting)			S	S													
	MD	MD	MD														

****6b- You must address this competency in the comments on a weekly basis. For all clinicals - provide an example of SDOH &/or cultural elements that influenced your patient's care; be specific.**

Comments:

Week 3: 6b. Some SDOH that influenced my patient's care was their education and their access to healthcare. My patient was very educated and she was well aware of what health issues that she had and how to best reduce the severity of them by taking time to understand what can happen if she does not stay active and aware of what her body is telling her. She also has transportation to get her to and from the hospital as well as insurance that helps to cover her medical finances. **Awesome observations! MD**

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 4: 6b. A social determinant of health that influences the patrons of the ECSC is the community that they have built around them. At the center, they partake in meals on wheels and deliver hot meals to those who are not able to prepare a meal everyday during the week. The patrons who are able to come to the senior center, also help with bagging and packaging goodies for the meals on wheels as well.

See Care Map Grading Rubrics below.

Objective

7. Illustrate professional conduct including self-examination, responsibility for learning, and goal setting. (7)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Reflect on an area of strength. ** (Reflecting)	S		S	S													
b. Reflect on an area for improvement and set a goal to meet this need.** (Reflecting)	S		S	S													
c. Demonstrate evidence of growth, initiative, and self-confidence. (Responding)	S		S	NA													
d. Follow the standards outlined in the FRMCSN Student Code of Conduct Policy. (Responding)	S		S	NA													
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S		S	NA													
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (Responding)	S		S	NA													
g. Demonstrate the ability to give and receive constructive feedback. (Responding)	S		S	NA													
h. Actively engage in self-reflection. (Reflecting)	S		S	NA													
	MD	MD	MD														

****7a and 7b: You must address these competencies in the comments section on a weekly basis. Please write a different comment each week. Remember that a goal includes what you will do to improve, how often you will do it, and when you will do it by (example- "I had trouble remembering to do the three checks of the six medication rights prior to administering medications. I will review the six rights and medication administration content in the textbook twice before the next clinical. Additionally, I will request to meet with my clinical faculty member to practice preparing and administering at least three medications before the next clinical."**

Comments:

Week 1: 7a. Strength- I was able to perform a FSBS on myself along with properly calibrating the system before checking my blood sugar. **Great! MD**

7b. Needs improvement- I need to be more careful at making sure that I do not break aseptic technique when taking the cap off of the IV medication bag and the cap off of the IV spike before inserting it into the IV medication bag. I will review the skills video on how to properly administer IV medication twice and also review the notes from the IV medication administration lab before the next clinical. **Great goal! This will get easier with time! MD**

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 3: 7a. Strength- I was able to properly apply and document a lidocaine patch on my patient. **You did a great job with documentation overall during clinical! MD**

7b. Needs improvement- I had trouble finding a way to do my assessments without feeling like I was interrupting my patient while they were talking to me. I will practice finding ways that I can assess my patient while they talk to me in the next two clinicals. **Great goal! It will come with practice as well! MD**

Week 4: 7a. Strength- I was able to openly engage with the senior citizens that were at the senior center without feeling nervous.

7b. Needs improvement- I need to be more confident in taking the lead when it comes to starting an activity for a group of people. I will practice taking more of a lead the next two times in clinical.

Student Name: Sela Berry		Course Objective:					
Date or Clinical Week: 1/26/2023							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	All components met. MD
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	All components met. MD
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	All components met. MD
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3

Comments:

Week 1

(IV Math)-You satisfactorily participated in the IV Math learning session on 1/10/23 as well as the assigned IV Math practice questions and the IV Math Application lab on 1/11/23 or 1/12/23. KA/DW

(Assessment)- You were able to satisfactorily demonstrate the Basic Head to Toe Assessment during lab. KA/RH

(Insulin)- You were able to correctly prepare an insulin pen and administer subcutaneous insulin. Insulin requirements were accurately identified and calculated through the corrective scale and carbohydrate coverage orders. MD

(Lab Day)- You satisfactorily completed the mandatory lab review of nursing foundational skills. This was achieved through simulating care for a patient in a scenario requiring competency in assessment, communication, medication administration (including PO and IM injection), nasogastric tube insertion and maintenance, patient mobility and hygiene, use of PPE for Contact Isolation, wound care, and foley insertion. NS/LM

(IV Skills)- You have satisfactorily completed the IV lab including a saline flush, IV push, hanging a primary and secondary IV solution, adjusting a flow rate to run by gravity, discontinuing IV solution, and monitoring the IV site for infiltration, phlebitis, and signs of complication. NS/MD/RH

Week 2

(Trach Care & Suctioning 1/19/2023) - During this lab, you satisfactorily demonstrated competence with tracheal airway suctioning and tracheostomy care. You did an excellent job of explaining the procedure to your patient. You have a strong understanding of sterility and maintaining a sterile field. You were confident in the steps and therefore, both skills were performed efficiently. Keep up the good work! DW

(EBP Lab)- You actively participated in the online searching process for evidence-based practice literature, as well as reviewing example articles to determine appropriate selection and information needed when summarizing a research article. LM/LK

EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2023

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature and Date:

12/9/2022
