

FINAL SUMMARY OF STUDENT'S PROGRESS AND DEVELOPMENT

Firelands Regional Medical Center School of Nursing Faculty Manual

NAME OF STUDENT (LAST)	(FIRST)	(MIDDLE)
Wilson	Mackenzie	May

1. Describe your outstanding personality characteristics (relevant to nursing) possessed at the completion of the program:

Something that I believe stands out about my personality is my compassion. I truly care about people and want to do everything I can to make them feel better. I enjoy taking the time to do the little things for patients and helping with their basic needs. Something that may be deemed "aide work" I take joy in completing because those activities are often the times that deeper connections are made with patients.

2. Describe your special interests and abilities in nursing:

I really enjoy working with the geriatric population. I think this was heavily influenced because I began my healthcare career as an aide in an assisted living. I enjoyed helping residents with their ADLs and being their main caregiver for the day. When I see an elderly person in need something in my heart just changes. I feel that I work hard to put my patients first and to fulfill any needs that they have to the best of my ability.

3. Discuss your experiences with interpersonal relationships – faculty and staff, patients and their families, and members of the healthcare team throughout the nursing program:

Throughout the nursing program, my confidence and communication skills have grown immensely. By engaging with staff, patients, and family members I have become better at communicating important information and learning to ask important questions. I have also learned that body language matters just as much as spoken words. It is vital to show patients and families that you care by having an optimistic mindset, honest communication, and positive body language.

4. Participation in activities throughout the program:

Throughout the program I have collected items and donated them for Make a Difference Day. It was rewarding to be able to donate much needed items to the Safe Harbor Domestic Violence Shelter. I have also volunteered consistently at The Chapel in Norwalk on the greeting team and at the assisted living I work at passing out Christmas cards each year.

5. Explain at least 2 professional goals you would like to achieve during your nursing career:

I would like to obtain my BSN through BGSU following their 3-semester program. I am planning on starting in fall 2023. I want to obtain my BSN in order to further my education and to open doors to career advancement opportunities.

Another goal I would like to achieve during my nursing career would be to begin volunteering my time at clinics, hospitals, or other medical services in underserved communities. I think it would be amazing to be able to go on mission trips and be able to help those who are in need, whether it be locally, throughout the US, or internationally.

6. List your address at the time of graduation- Include a future address if known:

4741 Butler Rd. Wakeman, Ohio 44889

Signature
