DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Clinical Discussion Rubric
- Preceptor Feedback
- Nursing Care Map Rubric
- Skills Lab Checklists/Competency Tool
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Pathophysiology Grading Rubric
- SBAR/Physician Orders Rubric
- Hand-Off Report Competency Rubric

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 2 (1b,c,f)- Satisfactory during Special Procedures clinical experience and discussion via CDG posting. Preceptor comments: “Satisfactory in all areas. IV start success. Able to observe a kidney hematoma drain placement, fistulagram, angiogram, and lung biopsy.”. Great job! AR

*End-of- Program Student Learning Outcomes

Week 4 (1c)- Satisfactory during Infusion Center clinical experience and with discussion via CDG posting. Preceptor comments: “Excellent in all areas. Mignon took initiative and participated in infusaport care and wound care.” Great job! AR

Week 5(1a,d,e): Mignon, excellent job this week managing complex patient care situations. You were well prepared for clinical, and you performed very thorough assessments. You were able to administer PO medications, while following the six rights of medication administration. You were able to start working on your ECG booklet, appropriately interpreting and measuring strips. Keep up the great work! CB

Week 6(1c): Mignon, great job this week evaluating your patient’s response to interventions performed and responding accordingly. CB

Week 7- 1a-e,f- Great job this week assessing and managing care for your patient who was sedated and on a mechanical ventilator. Nice job doing thorough assessments and documenting interventions. Medications were all administered through various routes (OG, SQ, IV, IVP) while following the six rights. Keep up the great work! BS

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Comments:

Meditech: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab per the SBAR skills competency rubric. You utilized SBAR communication while communicating with a physician and while taking orders over the phone. Good job! CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Starts: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

Blood administration/IV pump: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing/IV push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

Ports/Blood Draw: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

*End-of- Program Student Learning Outcomes

Head to Toe Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

EKG/Telemetry/Chest Tube: Satisfactory participation with review of monitoring tutorial and placement of EKG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium

Advanced Medical Surgical Nursing- 2023
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
