89. [Miao Xian \(Cindy\). Zhou, D.M.D., M.S.](#) — Periodontist
90. [Mojun Zhu, M.D.](#) — Oncologist

2. When was the site created? When was the site last updated or revised?

Mayoclinic.org was created in 2001 and is updated frequently.

3. Who is the targeted audience? Does the web site present facts or opinions?

There target audience is ranging from prospective patients and consumers seeking health information, to individuals exploring career, education, and research opportunities at mayo clinic.

Most of the information found on the website are based on facts.

4. How complete and accurate is the content information? Does it agree with other expert sources?

Most of the information comes from other sources that have been referenced on the website.

The information is noted to be accurate, but I am not sure on the completeness of the information.

5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?

The site does load quickly. It states it is secure however there are a lot of ads running on the website. People are able to contact the clinic if they are in need of assistance. The ads and graphics on the page don't have anything to do with the health issue itself.
