

ON-LINE CONTENT (1H)

Review the assignment and place your answers to the questions in the Z-CH # 23 drop box by 0800 on March 27, 2023.

In order to receive full credit (1H class time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignment not completed in its entirety will result in missed class time.

Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

<https://www.mayoclinic.org/diseases-conditions/supraventricular-tachycardia/symptoms-causes/syc-20355243>

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)
 - a. Mayo Clinic staff, the credentials are a link and those who contributed to the article are specified when the link is clicked. I noticed that many of the credentials of those who are staff members credited are MD, PHD, and MS.
2. When was the site created? When was the site last updated or revised?
 - a. The site was created/revised in March of 2023. The credentials of those contributing to the articles was revised on March 24, 2023.
3. Who is the targeted audience? Does the web site present facts or opinions?
 - a. The targeted audience was for those who are experiencing or interesting in learning more about the diagnosis of SVT. It was very informational defiantly specifying facts and using pictures to help with, specifying symptoms, types, and when to see a doctor.
4. How complete and accurate is the content information? Does it agree with other expert sources?
 - a. The content is accurate and for those reading or interesting in learning more about SVT would understand as it is accurate and given in a way those who are uneducated would understand but also informatively learn more about the diagnosis.
5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?
 - a. The site loaded quickly; it was secured. There are pictures and graphics to help make understanding of the location of the heart that SVT is located. The heath issue is specifically located in the atrium of the heart, the pictures help specify the pathway of the heart and how SVT impacts the heart rhythm.
