~~Patients often use the Internet to search for health related issues. Search the Internet for any health related issue of your choosing. Evaluate the website by answering the following questions:-~~

Topic: High fever in children.

Website: <https://www.mayoclinic.org/diseases-conditions/fever/symptoms-causes/syc-20352759>

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)

There is no author listed for this article. The website gives credit to Mayo Foundation for Medical Education and Research (MFMER). However, you can search doctors that treat whatever specific issue that you searched for on the website. The domain for this site is .org.

2. When was the site created? When was the site last updated or revised?

The site was created in 1998. The site was last updated in 2023.

3. Who is the targeted audience? Does the web site present facts or opinions?

The targeted audience is really whoever is reading the article; however, it does say your child a lot. So, it is assuming whoever googled is searching for their own child and is a parent of this child. The website presents facts I would say. It has a lot of good information on it that follows standards of care and EBP of fevers in children.

4. How complete and accurate is the content information? Does it agree with other expert sources?

The content information is accurate and very complete. It breaks everything down for fevers by symptoms & causes, diagnosis & treatment, Doctors & Departments and even age. It furthermore gives home treatment remedies, when to see a doctor exactly, how to make the appointment, prepare for the appointment, and even questions to ask.

5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so, what are they and how do they relate to the health issue?

The site loaded very quickly. It is a secure site. There are no graphics or pictures on the page. There are bullet points and information under each heading related to the topic. It is nicely laid out and did not overkill with graphics, for it used 0 photographs.
