

Z- CH # 23

ON-LINE CONTENT (1H)

Review the assignment and place your answers to the questions in the Z-CH # 23 drop box by 0800 on March 27, 2023.

In order to receive full credit (1H class time) for this assignment, it must be completed in its entirety by the due date/time assigned. Any assignment not completed in its entirety will result in missed class time.

Patients often use the Internet to search for health-related issues. Search the Internet for any health-related issue of your choosing. Evaluate the website by answering the following questions:

1. Do the authors have qualifications listed? What are their qualifications? What is the domain? (.gov, .edu, .org)
 - Yes, the author has a BSN. The domain is .net
2. When was the site created? When was the site last updated or revised?
 - The site was created in 2004. It was last updated today.
3. Who is the targeted audience? Does the web site present facts or opinions?
 - The target audience is anyone who is seeking information about medial diagnosis. The website seems to present facts that are accurate.
4. How complete and accurate is the content information? Does it agree with other expert sources?
 - Everything appears to be factually correct as well as lining up with other sources.
5. Does the site load quickly? Is it a secured site? Are there graphics, or pictures on the page that serve a purpose? If so what are they and how do they relate to the health issue?
 - The page loads quickly, is secure, and includes graphics that relate to the health-related issue that was searched. For example, since right-lower abdominal pain was searched, there is a picture of a woman holding her abdomen and a video from a doctor talking about abdominal pain.

The site I used:

<https://www.news-medical.net/health/Pain-in-the-Lower-Right-Abdomen-When-to-be-Concerned.aspx#:~:text=People%20who%20suffer%20from%20lower,it%20can%20be%20life%2Dthreatening.>
