

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Faculty eSignature:	
----------------------------	--

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

ABSENCE (Refer to Attendance Policy)			
Date	Number of Hours	Comments	Make Up (Date/Time)
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN, CNE		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S

Comments:

Week 4 (1c)- Satisfactory during Patient Advocate/Discharge Planner clinical and with discussion via CDG posting. Preceptor comments: "Excellent in all areas. Katelyn was very calm and communicated well with patients. Very helpful as well in a couple patient care situations." Great job! AR

Week 5 (1a,b)- Great job managing patient care and prioritizing care based on your comprehensive assessments. FB

Week 6 (1,b)- Excellent job managing and prioritizing patient care during Patient Management clinical experiences this week. Great job comprehensively assessing

patients to provide care that is required. Keep up the great work! FB

*End-of- Program Student Learning Outcomes

Week 7 (1c)- Great job evaluating the plan of care and patient needs to determine the order of care for several patients during this clinical rotation. FB

Week 8 (1f)- Great job with several successful IV attempts, appropriate technique was demonstrated. FB

Week 9(1a,d,e): Katelyn, excellent job this week managing complex patient care situations. You were well prepared for clinical, and you performed very thorough assessments. You were able to administer IV medications, while following the six rights of medication administration. You were able to find cardiac rhythm strips for your ECG booklet. Keep up the great work! CB

Week 10-1(a-e, g) Excellent job this week managing complex patient care situations. Your care was very well organized, and you did a great job with your time management. Your head to toe assessments were very thorough and well done. All medication passes were very well done, and you had the opportunity to administer PO, IV, IVP and transdermal medications all while following the six rights. Great job monitoring your patient very closely to ensure positive patient outcomes. BL

Week 11(1a,d,e): Great job this week managing complex care situations. You did a great job being prepared for clinical, and ensuring that your assessments were detailed and thorough. You were able to complete your ECG booklet, identifying and measuring cardiac rhythm strips. You did a great job administering medications to your patient this week, following the six rights of medication administration. Great job! CB

Week 12 (1b,c,f)- Satisfactory during Cardiac Diagnostics and Special Procedures clinical experiences, and with discussion via CDG postings. Preceptor comments: Cardiac Diagnostics- “Excellent in all areas. Saw PCI, talked through CVN.” Special Procedures- “Excellent in all areas. Nice job today. IV starts with success. Also able to watch a lymph node biopsy, paracentesis, and angiogram.” Keep up the great work! AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
a. Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	NA	NA	S	S	S	S	NA	NA	S	S	S	S	S					
Faculty Initials	AR	BL	AR	FB	FB	FB	FB	FB	FB	CB	BL	CB	AR					

Comments:

Week 5 (2a,b)- Great use of clinical judgement skills to determine patient needs, plan care for patients, and implement appropriate nursing interventions. FB

Week 6 (2c) Good job recognizing changes in patient status and taking appropriate action. FB

Week 7 (2a,b)- Good use of clinical judgement as you correlate the relationship between patient's disease process, current symptoms, and present condition. You are also assessing for potential risks and anticipating possible complications as you prioritize care for your assigned patients. Keep up the good work! FB

Week 9(2d,e): Great job this week formulating a nursing care map for your patient, please see the grading rubric below. Great job in debriefing discussing cultural and racial inequalities that were assessed while providing care for your patient. CB

Week 10-2(a) Katelyn, your pathophysiology was very well done. Please see the Pathophysiology Rubric at the end of this document for my feedback. 2(e) You did a great job this week in debriefing discussing social determinants of health that may have impacted your patient's health, well-being, and quality of life. BL

*End-of- Program Student Learning Outcomes

Week 11(2b,c,d): Great job in debriefing this week discussing potential risks, possible early complications, and changes you recognized in your patient. You were also able to discuss nursing diagnosis or priorities that would be appropriate for your patient. CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	S	S NA	NA	NA	NA	NA	NA	S	S	S	NA	S				
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	S	NA	NA	S NA	NA	NA	NA	NA	S	NA S	S	S	S	S				
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	NA S	NA	S	S NA	NA	NA	NA	NA	S	S	S	S	S	S				
d. Clarify roles & accountability of team members related to delegation. (Noticing)	NA	NA	NA	S	S	S	NA	NA	S	S	S	S	NA	S				
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	NA	NA	NA	S	S	S	NA	NA	S	NA	S NA	NA	NA	NA				
Faculty Initials	AR	BL	AR	FB	FB	FB	FB	FB	FB	CB	BL	CB	AR					

Comments:

Week 2 (3b)- Satisfactory during Quality Assurance/Core Measures observation, and with discussion via CDG posting. RN comments: Rapid Response & Standards of Care- "Excellent in all areas. Good participation in the discussion."; Core Measures- "Satisfactory in all areas"; Stroke- "Satisfactory in all areas. Good luck in OB or NICU!". AR

Week 5 (3a,b,c) These competencies will be addressed during another clinical rotation. (3d,e)- Great discussion, noticing accountability of delegation and the clarification of roles. You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 6 (3e) Great job being able to prioritize care for a group of patients during this clinical rotation. FB

Week 7 (3d,e)- You have demonstrated the process of delegation, responsibility, and accountability of the interdisciplinary team members. Great job determining priority care of assigned patients and the priority patient of assigned patients. Keep up the great work! FB

Week 9(3a): This week in clinical you were able to critique communication barriers among healthcare members when you came to your patient's care. Competency 3b was changed to "S" because you participated in this by documenting care provided to your patient. CB

Week 10-3(c) You did a great job ensuring you used the PAR system appropriately when obtaining care items for your patient this week in clinical. This is just one important way to ensure fiscal responsibility in clinical practice. BL

Week 11(3a): Katelyn, this week in clinical you were able to witness different types of communication between your patients, different healthcare providers, bedside nurses, respiratory therapy, wound nurses, and speech therapy. CB

Week 12 (3b,c)- Satisfactory during Quality Scavenger Hunt clinical, with documentation, and discussion via CDG posting. Keep it up! AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	S	S NA	NA	NA	NA	NA	S	S	S	S	S	S				
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)	NA	NA	S	S NA	NA	NA	NA	NA	S	S	S	S	S	S				
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	NA	NA	S	S	S	S	NA	NA	S	S	S	S	S	S				
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	NA	S	S	S	S	NA	NA	S	S	S	S	S	S				
Faculty Initials	AR	BL	AR	FB	FB	FB	FB	FB	FB	CB	BL	CB	AR					

Comments:

Week 5 (4a) This competency will be addressed during another clinical rotation. (4c)-You are doing a great job presenting yourself in a professional manner through your attitude, commitment, and eagerness to learn. FB

Week 9(4a): Katelyn, you did a great job in debriefing discussing legal and ethical issues that you observed in the clinical setting, and how important these issues are. CB

Week 11(4c): Katelyn, great job exhibiting professional behavior during your clinical rotation. Keep up the good work! CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	NA	S	S	S	S	NA	NA	S	S	S	S	S	S				
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
Faculty Initials	AR	BL	AR	FB	FB	FB	FB	FB	FB	CB	BL	CB	AR					

Comments:

Week 2 (5c)- Satisfactory discussion via CDG posting related to your Quality Assurance/Core Measures observation experience. Keep up the great work! AR

Week 5 (5a)- Reported on by assigned RN during clinical rotation 2/7/2023. Excellent in all areas, except satisfactory in provider of care: Demonstrates prior knowledge of departmental/nursing responsibilities. Student goals: Take on more patients (3) be more confident in myself. Additional Preceptor comments: More confidence when giving IV push and SQ injections. ER/FB

Week 6 (5a)- Reported on by assigned RN during clinical rotation 2/14/2023. Excellent in all areas. Student goals: Be more confident! Additional Preceptor comments: You got this! Excellent communication with the patients! CO/FB Reported on by assigned RN during clinical rotation 2/15/2023 Student goals: take on more patients. Feel more comfortable talking to doctors. Additional Preceptor comments: Great time management skills, bedside manner and thorough charting. LL/FB

Week 7 (5a) Reported on by assigned RN during clinical rotation on 2/21/2023 – Excellent in all areas. Student goals: “Practice IV’s more don’t think I’m always gonna hurt the patient, sometimes you need a little force.” Additional Preceptor comments: “Excellent time management, good knowledge base, confident and willing to learn. Took on 5 patients with meds and charting. Assisted with 2 discharges and 1 admission.” CR/FB Reported on by assigned RN during clinical rotation on 2/22/2023 – Satisfactory in all areas. No student goals last patient management clinical. Additional Preceptor comments: “Katelyn is very kind and helpful with patient care. She educated patients on their medications and was knowledgeable about their disease process.” SS/FB

Week 9(5c,e) Excellent job this week during debriefing in which you were actively involved in the discussion of factors that create a culture of safety, and EBP tools that are used to support safety and quality. CB

Week 10-5(b) Katelyn, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. You are very organized and consistently well prepared. You took excellent care of your patient this week. Keep up all your great work! BL

Week 11(5b): Katelyn, you are organized and independently take initiative to complete very thorough assessments and nursing interventions. Your patient's receive great care, and you ensure patient safety and satisfaction. CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	S	S	S	S	NA	NA	S	S	S	S	S	S				
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)																		
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
c. Collaborate and communicate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	NA	NA	S	S	S	S	NA	NA	S	S	S	S	S					
d. Deliver effective and concise hand-off reports. (Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	S					
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S	NA	S	S	S	S	S	NA	S	S	S	S	NA					
Faculty Initials	AR	BL	AR	FB	FB	FB	FB	FB	FB	CB	BL	CB	AR					

Comments:

Week 2 (6f)- Satisfactory CDG posting related to your Quality Assurance/Core Measures observation. Great job! AR

Week 4 (6c,f)- Satisfactory discussion via CDG posting related to your Patient Advocate/Discharge Planner clinical experience. Keep up the great work! AR

Week 5 (6d) Satisfactory completion of an effective and concise hand-off report 30/30 points. FB

Week 7 (6e)- Great job with documenting accurately and appropriately for all aspects of care delivered. FB

Week 9(6e,f): Great job this week documenting all interventions appropriately and efficiently. Great job on your cdg, ensuring that you included an intext citation and reference. CB

Week 10-6(a,b,c) Excellent job in debriefing discussing these competencies, as well as applying them to practice during your clinical experience this week. BL

Week 10-6(e,f) Excellent job with all your documentation this week in clinical. Your documentation was done in a timely manner and accurate. You also did a great job taking my feedback on Tuesday and applying it to all your documentation on Wednesday. Your CDG was very well done this week. Keep up all your great work! BL

*End-of- Program Student Learning Outcomes

Week 11(c,d,e,f): Great job this week collaborating with peers and bedside nurses to achieve optimal patient outcomes. You did a great job on your hand-off report, scoring 30/30 per the 4T hand-off report grading rubric. Good job with your documentation this week, it was very thorough and completed on time. Your CDG was Satisfactory, meeting all requirements. CB

Week 12 (6f)- Satisfactory CDG postings related to your Cardiac Diagnostics, Quality Scavenger Hunt, and Special Procedures clinical experiences! Keep up the great work as you complete the semester! AR

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery.
(1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S				
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	NA	S	S	S	S	S	NA	S	S	S	S	S	S

Comments:

Meditech: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab per the SBAR skills competency rubric. You utilized SBAR communication while communicating with a physician and while taking orders over the phone. Good job! CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Starts: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

Blood administration/IV pump: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing/IV push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

Ports/Blood Draw: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

Head to Toe Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

ECG/Telemetry/Chest Tube: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric
AMSN
2023

Student Name: Katelyn Howard				Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.			
Date or Clinical Week: 3/15/23							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job providing specific abnormal patient data and relevant risk factors for your patient.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Great job providing all pertinent nursing priorities and highlighting the top priority for your patient. Potential complications were listed and you were able to also list signs and symptoms related to each of them.
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	You did a great job listing realistic interventions that were related to your patient, that were prioritized. You provided a rationale for each intervention that was pertinent to your patient, and each intervention included a frequency.
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. An appropriate rationale is	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

*End-of- Program Student Learning Outcomes

	included for each intervention						
Reflecting	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Great job reassessing all highlighted findings that were pertinent to your nursing priority. You also included to continue the plan of care.
	14. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete		
Total Possible Points= 42 points 42-33 points = Satisfactory 32-21 points = Needs Improvement* < 21 points = Unsatisfactory* *Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.						Total Points: 42/42	
Faculty/Teaching Assistant Comments: Katelyn, you did a great job on your care map. You included all abnormal assessment findings, nursing priorities, potential complications, interventions, and reassessment findings. Great job!						Faculty/Teaching Assistant Initials: CB	

Care Map Evaluation Tool
AMSN
2023

Date	Care Map **	Evaluation & Instructor Initials	Remediation & Instructor Initials
3/15/23	Impaired Gas Exchange	S/CB	NA

** AMSN students are required to submit one satisfactory care map during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Pathophysiology Grading Rubric
Firelands Regional Medical Center School of Nursing
Advanced Medical Surgical Nursing
2023

Student Name: Katelyn Howard

Clinical Date: 3/21-3/22/2023

1. Provide a description of your patient including current diagnosis and past medical history. (2 points total) - Current Diagnosis (1)-1 - Past Medical History (1)-1	Total Points: 2 Comments: Great job discussing your patient's current diagnosis and past medical history.
2. Describe the pathophysiology of your patient's current diagnosis. (1 point total) Pathophysiology-what is happening in the body at the cellular level (1)-1	Total Points: 1 Comments: Excellent job! Pathophysiology is detailed and accurate.
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (3 points total) - All patient's signs and symptoms included (1)-1 - Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (1)-1 - Explanation of how all patient's signs and symptoms correlate with current diagnosis. (1)-1	Total Points: 3 Comments: All patient's signs and symptoms included with detailed explanation of correlation to current diagnosis. Great job discussing the signs and symptoms that are typically expected with a patient who is diagnosed with congestive heart failure.
4. Correlate the patient's current diagnosis with all related labs. (4 points total) - All patient's relevant lab result values included (1)-1 - Rationale provided for each lab test performed (1)-1 - Explanation provided of what a normal lab result should be in the absence of current diagnosis (1)-1 - Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (1)-1	Total Points: 4 Comments: Excellent job, Katelyn! This section is very thorough and well done.
5. Correlate the patient's current diagnosis with all related diagnostic tests. (4 points total) - All patient's relevant diagnostic tests and results included (1)-1 - Rationale provided for each diagnostic test performed (1)-1 - Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (1)-1 - Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis (1)-1	Total Points: 4 Comments: All diagnostic tests and results included. Detailed rationales provided. Great job correlating the diagnostic test results with the patient's diagnosis of congestive heart failure.

6. Correlate the patient's current diagnosis with all related medications. (3 points total) - All related medications included (1)-1 - Rationale provided for the use of each medication (1)-1 - Explanation of how each of the patient's relevant medications correlate with current diagnosis (1)-1	Total Points: 3 Comments: Great job! All information is detailed and accurate.
7. Correlate the patient's current diagnosis with all pertinent past medical history. (2 points total) - All pertinent past medical history included (1)-1 - Explanation of how patient's pertinent past medical history correlates with current diagnosis (1)-1	Total Points: 2 Comments: Great job correlating the patient's past medical history with current diagnosis.
8. Describe nursing interventions related to current diagnosis. (1 point total) All nursing interventions provided for patient explained and rationales provided (1)-1	Total Points: 1 Comments: Excellent job! All pertinent nursing interventions provided with detailed rationales.
9. Discuss the role of interdisciplinary team members in the care of the patient. (3 points total) - Identifies all interdisciplinary team members currently involved in the care of the patient (1)-1 - Explains how each current interdisciplinary team member contributes to positive patient outcomes (1)-1 - Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (1)-1	Total Points: 3 Comments: Great job identifying additional interdisciplinary team members that should be included to ensure positive outcomes for your patient.
Total possible points = 23 18-23 = Satisfactory 13-17 = Needs improvement <12 = Unsatisfactory	Total points: 23/23 Excellent job, Katelyn! Your pathophysiology was very detailed, thorough and well done. Keep up all your hard work! BL

STUDENT NAME(S): Hailey Giles, Katelyn Howard, Alicia McGraw, Neil Trautman

GROUP #: 1

SCENARIO: Week 8 Simulation

OBSERVATION DATE/TIME(S): February 27, 2023 0800-1000

CLINICAL JUDGMENT COMPONENTS	OBSERVATION NOTES				
NOTICING: (1,2)* - Focused Observation: E A D B - Recognizing Deviations from Expected Patterns: E A D B - Information Seeking: E A D B	Notices patient is complaining of fatigue and nausea. Notices patient's SpO2 is 93% on room air. Notices patient's heart rate is low and rhythm is sinus bradycardia. Notices patient's heart rate decreases to 29 and has a change in heart rhythm. Notices patient has a rhythm change after Atropine is administered with continued decreasing heart rate. Notices patient's heart rate is elevated and rhythm is abnormal. Notices patient is short of breath, complaining of dizziness and palpitations. Notices patient's heart rhythm and rate is unchanged after administering medication. Notices patient is complaining of dizziness and blood pressure is decreased. Notices patient has crackles after fluid bolus is administered. Initially does not notice patient is unresponsive without a pulse.				
INTERPRETING: (1,2)* - Prioritizing Data: E A D B - Making Sense of Data: E A D B	Interprets patient's SpO2 as low. Interprets patient's initial heart rhythm as sinus bradycardia. Interprets patient's heart rhythm change as a second degree type II heart block. Recognizes a need for medication to increase heart rate. Interprets Atropine dose as 1 mg IVP. Initially interprets patient's second heart rhythm change as a first degree heart block; then interprets it as a third degree heart block. Interprets patient's heart rhythm as atrial fibrillation; then sinus tachycardia. Recognizes a need for medication to decrease heart rate. Interprets dose of diltiazem as 25 mg IV to be given over 15 minutes. Prioritizes medication administration. Prioritizes stopping the fluid bolus. Initially interprets patient's heart rhythm as ventricular tachycardia with a pulse; then realizes patient is pulseless. Interprets correct dose of medications. Interprets patient's low potassium as a potential cause for cardiac arrest.				
RESPONDING: (1,2,3,5,6,7)* - Calm, Confident Manner: E A D B - Clear Communication: E A D B - Well-Planned Intervention/Flexibility: E A D B - Being Skillful: E A D B	Introduces self and identifies patient. Obtains patient's vital signs. Puts the patient on 2L oxygen via nasal cannula. Completes a focused GI assessment. Notifies the physician of patient's low heart rate and sinus bradycardia rhythm. Notifies the physician of patient's continued decreasing heart rate and rhythm change to second degree type II heart block. Places fast patches on patient. Rechecks patient's vital signs. Administers 1 mg of Atropine IVP. Notifies physician of heart rhythm change for a second time with a decreasing heart rate. Introduces self and identifies patient. Obtains patient's vital signs. Places patient on the monitor. Asks the patient to bear down. Places the patient on 2L oxygen via nasal cannula. Notifies physician that patient is in atrial				

*End-of- Program Student Learning Outcomes

	fibrillation with a heart rate of 160. Reassures patient and communicates calmly. Administers diltiazem bolus. Reassesses patient, obtains vital signs. Increases patient's oxygen. Notifies physician that patient's heart rate and rhythm is unchanged after medication administration. Administers diltiazem 10 mg/hr IV. Reassesses patient and obtains vital signs. Notifies physician of decreased blood pressure with unchanged heart rhythm and rate. Administers a bolus of fluids to increase blood pressure. Reassesses patient. Notifies physician of fluid overload. Places patient on monitor and obtains vital signs. Calls physician. Assesses patient's radial pulse. Begins CPR, applies fast patches. Administers epinephrine 1 mg IVP. Reassesses pulse. Defibrillates patient. Begins CPR.
REFLECTING: (1,2,5)* • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B	Discussed first scenario, identification and treatments for symptomatic bradycardias. Reviewed chart to look for causes of heart block (metoprolol, patient history). Talked about holding medication to see if sinus rhythm will be restored. Alternate drugs for complete heart block discussed (epi, dopamine). Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for medication). Excellent teamwork! Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication. Discussed the importance of immediate CPR and defibrillation with pulseless v-tach. Discussed alternative to epi (amiodarone). Roles of the code team discussed (recorder, CPR, airway, meds, lead). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed, starting low and increasing joules with subsequent shocks. Excellent job!
SUMMARY COMMENTS: * = Course Objectives Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric. E= Exemplary A= Accomplished D= Developing B= Beginning	Lasater Clinical Judgement Rubric Comments: Noticing: Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs. Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family. Interpreting: Focuses on the most relevant and important data useful for explaining the patient's condition. In most situations, interprets the patient's data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more

*End-of- Program Student Learning Outcomes

Scenario Objectives: • Differentiate the clinical characteristics and ECG patterns of common dysrhythmias. (1,2)* • Choose nursing interventions for patients who are experiencing dysrhythmias. (1)* • Differentiate between defibrillation and cardioversion. (1,2,6)* • Communicates collaboratively to other healthcare providers utilizing SBAR. (3,5,6,7)*	experienced nurse. Responding: Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Displays proficiency in the use of most nursing skills; could improve speed or accuracy. Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses. You are satisfactory for this simulation. Great job!

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2023

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

*End-of- Program Student Learning Outcomes
