

**EVALUATION OF CLINICAL PERFORMANCE TOOL  
Advanced Medical Surgical Nursing- 2023**

**Firelands Regional Medical Center School of Nursing  
Sandusky, Ohio**

**Student:**

**Final Grade:** Satisfactory/Unsatisfactory

**Semester:** Spring

**Date of Completion:**

**Faculty:** Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN  
Chandra Barnes, MSN, RN; Brian Seitz, MSN, RN, CNE  
Brittany Lombardi, MSN, RN

**Faculty eSignature:**

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

**METHODS OF EVALUATION:**

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Clinical Discussion Rubric
- Preceptor Feedback
- Nursing Care Map Rubric
- Skills Lab Checklists/Competency Tool
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Pathophysiology Grading Rubric
- SBAR/Physician Orders Rubric
- Hand-Off Report Competency Rubric

## PERFORMANCE CODE

### SATISFACTORY CLINICAL PERFORMANCE

**Satisfactory (S):** Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

### UNSATISFACTORY CLINICAL PERFORMANCE

**Needs Improvement (NI):** Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

### OTHER

**Not Available (NA):** The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

**Comments:**

Week 2 (1 a,b,c,e,g) Gloria, you were assigned to work with staff RN, and took at least one patient during this clinical rotation. Therefore, these competencies were changed to a "S". Make sure you are reading each competency and self-rating appropriately. Week 3 (1a,b,c)- Satisfactory with managing patients during your patient management clinical experience. Keep up the great work! AR

Week 4 (1c)- Great job evaluating the plan of care and patient needs to determine the order of care for several patients during this clinical rotation. FB

Week 5-1(f) Great job performing IV starts during the digestive health clinical. Proper technique and aseptic procedures were followed. Keep up the great work! FB

\*End-of- Program Student Learning Outcomes

Week 11 (1b,c,f)- Satisfactory during Special Procedures and Cardiac Diagnostics clinical experiences, and with discussion via CDG postings. Preceptor comments: Cardiac Diagnostics: “Excellent in all areas.”; Special Procedures: “Excellent in all areas. Gloria was able to see a myelogram, carotid stent, bone marrow bx, and a leg angiogram. IV starts with successful outcomes. Nice job.” Keep up the great work! AR

Week 12-1(a-e, g) Excellent job this week managing complex patient care situations. Your care was well organized and you did a great job with your time management. Your head to toe assessments were very thorough and well done. Your medication passes were nicely done, and you had the opportunity to administer PO and SQ medications all while following the six rights. Great job monitoring your patients closely to ensure positive patient outcomes. BL

Week 13 (1c)- Satisfactory during Infusion Center clinical. Preceptor comments: “Satisfactory in ‘demonstrates prior knowledge of departmental/nursing responsibilities.’ Excellent in all other areas. Students observed several dressing changes. She drew labs off of a port and PICC line. Observed 2 people receiving blood products.” Great job! AR

Week 13(1a,d,e): Great job this week managing complex care situations. You did a great job being prepared for clinical, and ensuring that your assessments were detailed and thorough. You were able to complete your ECG booklet, identifying and measuring cardiac rhythm strips. You did a great job administering medications to your patient this week, following the six rights of medication administration. Great job! CB

Week 2 (4a)- This competency will be addressed in a future clinical experience. (4c)-You are doing a great job presenting yourself in a professional manner through your attitude, commitment, and eagerness to learn. FB

Week 11 (4c)- Unsatisfactory due to not submitting your Quality Scavenger Hunt document by the due date and time. Be sure to address this U on Weeks 12's tool. In addition, take your time when self-evaluating yourself each week. This competency will never be a NA unless you have no clinical experiences that week. Several other competencies for your Week 11 tool should not have been "NA". AR I will prevent myself from getting a U again by marking what I have completed and not completed on my planner. It is important to be organized and be timely and this will help me prevent future issues going forward. BL

Week 12-4(a) Excellent job this week during debriefing in which you were actively involved in the discussion of this competency. You gave great examples of legal and ethical issues observed in the clinical setting. BL

**Prioritization/Delegation:** Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

**Resuscitation:** Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

**IV Starts:** Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

**Blood administration/IV pump:** Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

**Central Line Dressing/IV push:** Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

**Ports/Blood Draw:** You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

**Head to Toe Assessment:** You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

**EKG/Telemetry/Chest Tube:** Satisfactory participation with review of monitoring tutorial and placement of EKG/Telemetry patches and leads; satisfactory participation in review of Chest Tube (Atrium

AMSN  
2023

Student Name: <b>Gloria Plue</b>		Course Objective: <b>Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*</b>					
Date or Clinical Week: <b>4/11-4/12/2023</b>							
Criteria		3	2	1	0	Points Earned	Comments
<b>Noticing</b>	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job providing specific abnormal patient data and relevant risk factors for your patient. Just a suggestion, I would add non-palpable lower extremities pulses and the use of a Doppler.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
<b>Interpreting</b>	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	2	You did a great job listing nursing priorities, but I would have also included (risk for falls, aspiration, shock, impaired cardiovascular function, decreased cardiac tissue perfusion, pressure ulcers, infection; self-care deficit, acute urinary retention, impaired physical mobility, and impaired dentition). You did a great job highlighting abnormal findings that correlated with your top nursing priority of ineffective airway clearance, although I would have highlighted medical history, AKI, and heart stents. Potential complications were listed and you were able to also list signs and symptoms related to each of them.
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3

<b>Responding</b>	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	You did a great job listing realistic interventions that were related to your patient, that were prioritized. You provided a rationale for each intervention that was pertinent to your patient, and each intervention included a frequency.
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
<b>Reflecting</b>	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	1	When completing the evaluation of your top nursing priority, you are to reevaluate anything that is highlighted in the assessment box, lab and diagnostic box, and the risk factor box. Great job including to continue the plan of care.
	14. Evaluation includes one of the following statements: <ul style="list-style-type: none"> <li>• Continue plan of care</li> <li>• Modify plan of care</li> <li>• Terminate plan of care</li> </ul>	Complete			Not complete	3	
<p>Total Possible Points= 42 points  42-33 points = Satisfactory  32-21 points = Needs Improvement*  &lt; 21 points = Unsatisfactory*  *Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.</p> <p><b>Faculty/Teaching Assistant Comments:</b> Gloria, you did a great job on your nursing care map, scoring 39/42, receiving a Satisfactory. Reviewed chart to look for causes of heart block (metoprolol, patient history). Talked about holding medication to see if sinus rhythm will be restored. Alternate drugs for complete heart block discussed (epi, dopamine). Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for medication). Excellent teamwork!</p> <p>Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication.</p> <p>Discussed the importance of immediate CPR and defibrillation with pulseless v-tach. Discussed alternative to epi (amiodarone). Roles of the code team discussed (recorder, CPR, airway, meds, lead). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed, starting low and increasing joules with subsequent shocks. Excellent job!</p>

Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. In most situations, interprets the patient's data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse.</p>

Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.</p> <p>You are satisfactory for this simulation.
