

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2023**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student: John Z. Zura

Final Grade: Satisfactory

Semester: Spring

Date of Completion: 04/25/2023

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, MSN, RN; Brian Seitz, MSN, RN, CNE
Brittany Lombardi, MSN, RN

Faculty eSignature: Brittany Lombardi, MSN, RN

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, U, or NA”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, it must be addressed with a comment as to why it is no longer a “U” the following week. If the student does not state why the “U” is corrected, it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Assignments
- Completion of Patient Care
- Meditech Documentation
- Observation of Clinical Performance
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Clinical Discussion Rubric
- Preceptor Feedback
- Nursing Care Map Rubric
- Skills Lab Checklists/Competency Tool
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Pathophysiology Grading Rubric
- SBAR/Physician Orders Rubric
- Hand-Off Report Competency Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
4/7/2023	1H	Did not complete Infusion Center Survey	4/10/2023: 1H
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN, CNE		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final

Comments:

Week 2 (1c) Satisfactory during Patient Advocate/Discharge Planner clinical experience and with discussion via CDG posting. Preceptor comments: “Excellent in all areas. John did a great job talking and connecting with patients. Asked a lot of great questions throughout clinical.”. (1f)- Satisfactory with IV skills during your Digestive Health clinical experience. Keep up the great work1 AR/FB

*End-of- Program Student Learning Outcomes

Week 5 (1a,b)- Great job managing patient care and prioritizing care based on your comprehensive assessments. FB

Week 6 (1,b)- Excellent job managing and prioritizing patient care during Patient Management clinical experiences this week. Great job comprehensively assessing patients to provide care that is required. Keep up the great work! FB

Week 7 (1c)- Great job evaluating the plan of care and patient needs to determine the order of care for several patients during this clinical rotation. FB

Week 9-1(a-e, g) Excellent job this week managing complex patient care situations. Your care was well organized and you did a great job with your time management. Your head to toe assessments were very thorough and well done. Your medication passes were nicely done, and you had the opportunity to administer PO and IV medications all while following the six rights. Great job monitoring your patient closely to ensure positive patient outcomes. BL

Week 10(1a,b,c,d,e,g): John, you did a great job this week on 4C with your patient who was mechanically ventilated. You were able to anticipate your patient's needs, respond appropriately, and evaluate your patient's response to interventions performed. You were able to find cardiac rhythm strips for your ECG booklet. Great job this week passing medications, following the six rights of medication administration. CB

Week 11- 1a-e,f- Great job this week assessing and managing care for your patient who was sedated and on a mechanical ventilator. Nice job doing thorough assessments and documenting interventions. Medications were all administered through various routes (SQ, IV, IVP, IVPB, Rectal) while following the six rights. Keep up the great work! BS

Week 12 (1c)- Satisfactory during your Infusion Center clinical and with discussion via CDG posting. Preceptor comments: "Excellent in all areas." Great job! AR

Week 14-1(b,c,f) Satisfactory during Cardiac Diagnostics and Special Procedures clinical and with discussion via CDG posting. Excellent job discussing nursing interventions you observed during both experiences. You also did a nice job evaluating the patients' response to the nursing interventions performed as well. Comments from your preceptor in Special Procedures: "Excellent in all areas. Nice job with clinical today. Very engaged with patients and staff. He was able to see an angioplasty, bone marrow biopsy, paracentesis and fistulogram. IV start with success." Great job! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S	S	S	NA	NA	S	S	S	S	NA	S	NA	NA	NA	S
a. Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)																		
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	NA	NA	S	S	S	NA	NA	S	S	S	S	NA	S	NA	NA	NA	S
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	S	NA	NA	S	S	S	NA	NA	S	S	S	S	NA	S	NA	NA	NA	S
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting)	NA	NA	NA	S	S	S	NA	NA	S	S	S	NA	NA	NA	NA	NA	NA	S
e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	NA	NA	S	S	S	NA	NA	S	S	S	S	NA	S	NA	NA	NA	S
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	CB	BS	AR	AR	BL	BL	BL	BL

Comments:

Week 5 (2a,b)- Great use of clinical judgement skills to determine patient needs, plan care for patients, and implement appropriate nursing interventions. FB

Week 6 (2c) Good job recognizing changes in patient status and taking appropriate action. FB

Week 7 (2a,b)- Good use of clinical judgement as you correlate the relationship between patient's disease process, current symptoms, and present condition. You are also assessing for potential risks and anticipating possible complications as you prioritize care for your assigned patients. Keep up the good work! FB

Week 9-2(e) Great job in debriefing discussing cultural considerations and racial inequalities that may need to be assessed while caring for patients. BL

*End-of- Program Student Learning Outcomes

Week 10(2a,e): John, great job completing the pathophysiology, correlating your patient's diagnosis with labs, diagnostic test, and medication that were ordered. Please see the pathophysiology grading rubric below. You also did a great job in debriefing discussing social determinants of health that may affect your patient. CB

Week 4- 2a,b,c,d- Great job correlating the relationships among your patient's disease process, history, symptoms, and present condition utilizing your clinical judgment skills to formulate a prioritized nursing plan of care. (42/42- Satisfactory). Great job also monitoring your patient for potential complications, recognizing changes in your patient's status, and responding with the appropriate actions. BS

Week 14-2(b,c) Great job in 4T debriefing discussing how you monitored your patient for potential risks and anticipated early complications. You also did a great job discussing changes in patient status you noticed, as well as how you responded and took action. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	NA	NA	NA	S NA	NA	NA	NA	NA	NA	NA S	S	S	NA	NA	S	NA	NA	S
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	NA	S	NA	S NA	NA	NA	NA	NA	S	NA S	S	S	S	NA	S	NA	NA	S
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	NA	NA	NA	S NA	NA	NA	NA	NA	NA	NA S	S	S	S	NA	S	NA	NA	S
d. Clarify roles & accountability of team members related to delegation. (Noticing)	NA	NA	NA	S	S	S	NA	NA	S	NA S	S	S	NA	NA	S	NA	NA	S
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	NA	NA	NA	S	S	S	NA	NA	S	NA	NA	NA	NA	NA	NA	NA	NA	S
Faculty Initials	AR	AR	AR	FB	FB	FB	FB	FB	FB	BL	CB	BS	AR	AR	BL	BL	BL	BL

Comments:

Week 3 (3b)- Satisfactory during your Quality Assurance/Core Measures observation experience. RN comments: Stroke- "Satisfactory in all areas. Great job participating!"; Core Measures & Rapid Response/Standards of Care- "Excellent in all areas, with an extra "+" for being actively engaged in the experience". Great job! Satisfactory discussion via CDG posting related to this observation experience. Keep up the great work! AR

Week 5 (3a,b,c) These competencies will be addressed during another clinical rotation. (3d,e)- Great discussion, noticing accountability of delegation and the clarification of roles. You also did a great job interpreting facts to determine the need for prioritization of assigned patient during this clinical rotation. FB

Week 6 (3e) Great job being able to prioritize care for a group of patients during this clinical rotation. FB

Week 7 (3d,e)- You have demonstrated the process of delegation, responsibility, and accountability of the interdisciplinary team members. Great job determining priority care of assigned patients and the priority patient of assigned patients. Keep up the great work! FB

Week 9-3(c) You did a great job ensuring you used the PAR system appropriately when obtaining care items for your patient this week in clinical. This is just one important way to ensure fiscal responsibility in clinical practice. BL

Week 10(3a): This week you were able to critique communication that took place between the bedside nurse, pulmonologist, hospitalist, and family members. CB

*End-of- Program Student Learning Outcomes

Week 12 (3c)- Satisfactory discussion via CDG posting related to your Infusion Center clinical experience. Keep up the great work! AR

Week 14-3(b,c) Satisfactory during Quality Scavenger Hunt with documentation and discussion via CDG posting. Great job! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

4. 4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	NA	NA	S NA	NA	NA	NA	NA	S	NA S	S	S	NA	NA	S	NA	NA	S
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)																		
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	S	NA	NA	S	S	S	NA	NA	S	S	S	S	S	NA	S	NA	NA	S
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	S	NA	S	S	S	NA	NA	S	S	S	S	S	NA	S	NA	NA	S

Comments:

Week 3 (5c)- Satisfactory discussion via CDG posting related to your Quality Assurance/Core Measures observation experience. Keep up the great work! AR

Week 5 (5a)- Reported on by assigned RN during clinical rotation 2/7/2023. Excellent in all areas. Student goals: Make sure to provide self-goals for each patient management clinical experience. Additional Preceptor comments: John is very compassionate and all the patients love him! He is very detailed with his physical assessments and charting. He is always offering a hand to help and eager to learn new things. He is going to be a great nurse! JC/FB

Week 6 (5a)- Reported on by assigned RN during clinical rotation 2/14/2023. Satisfactory in all areas, except excellent in Provider of Care: collection/documentation of data. No Student goals: **John you are to provide a student goal for your next experience.** No additional Preceptor comments BD/FB Reported on by assigned RN during clinical rotation 2/15/2023 Satisfactory in all areas, except excellent in Provider of care: collection/documentation of data, Manager of care: communication skills Student goals: **You are to provide a student goal for your next experience.** No additional Preceptor comments BD/FB

Week 7 (5a) Reported on by assigned RN during clinical rotation on 2/21/2023 – Excellent in all areas. Student goals: “Provide quality care to 3-4 patients., Write at least 1 nurese’s note per each of my patients. Delegate at least 1 task to another member of the healthcare team.” No additional Preceptor comments. JF/FB Reported on

*End-of- Program Student Learning Outcomes

by assigned RN during clinical rotation on 2/22/2023 – Excellent in all areas, except satisfactory in Manager of care: delegation. Student goals: “Provide quality and effective care to 4-5 patients. Write 1-2 nurse’s notes per each of my patients. Ensure my documenting is complete and there are little to zero discrepancies. Additional Preceptor comments: “Timely charting and patient care. He explained medications to patients. Received many compliments on his care and even a marriage proposal!” AT/FB

Week 9-5(b) John, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. You are very organized and consistently well prepared. You took excellent care of your patient this week. Keep up all your great work! BL

Week 9-5(c,e) Excellent job this week during debriefing in which you were actively involved in the discussion of these competencies. BL

Week 10(5b): John, you did a great job seeking new learning opportunities and offering your assistance to your patient’s bedside nurse. CB

Week 11- 5a,b- Great performance in the clinical setting this week. You are always eager to learn and seek new opportunities. Nice job working together with the nursing staff and your fellow students. BS

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final

Comments:

Week 2 (6c,f)- Satisfactory CDG posting related to your Patient Advocate/Discharge Planner clinical experience. Great job! AR

Week 3 (6f)- Satisfactory discussion via CDG posting related to your Quality Assurance/Core Measures observation experience. Keep it up! AR

Week 5 (6d)-This competency can be rated a “S” when you hand in the hand-off report competency rubric completed by your assigned RN.

Week 6 (6d)- Satisfactory hand-off report 30/30 completion. No RN comments. ED/FB (6f)- Satisfactory discussion via CDG posting related to your patient management clinical experience. Keep up the great work! FB

*End-of- Program Student Learning Outcomes

Week 7 (6e)- Great job with documenting accurately and appropriately for all aspects of care delivered. FB

Week 9-6(e,f) Excellent job with all your documentation this week in clinical. Your documentation was done in a timely manner and accurate. You also did an excellent job with your CDG this week. Keep up the great work! BL

Week 10(6a,b,c,d,f): John, you did a great job discussing collaborative partnerships and communication that took place with patients, families, and other members of the healthcare team during debriefing this week. You were “Satisfactory” scoring 30/30 on your hand off report rubric. Great job including an intext citation and reference for your cdg this week. CB

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 11- 6a-f- Great job collaborating with the nursing staff, your fellow students, and your patient this week. Great job with documentation and medication administration also. Excellent work on your Care Map, keep up the good work! BS

Week 12 (6c,f)- Satisfactory CDG posting related to your Infusion Center clinical experience. Keep up the great work as you complete the semester! AR

Week 14-6(f) Excellent job with all of your CDGs this week! BL

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery. (1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final

***Course Objectives**

Comments:

Meditech: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders: Satisfactory completion of physician's order lab per the SBAR skills competency rubric. You utilized SBAR communication while communicating with a physician and while taking orders over the phone. Good job! CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for the patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag- valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Starts: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BS/CB/BL

Blood administration/IV pump: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing/IV push: Satisfactory central line dressing change using proper technique, as well as line flushing. Great job with preparation of mixing a medication with normal saline and administering as an IV push through the central line. FB

Ports/Blood Draw: You were satisfactory in accessing an Infusaport device, demonstrated proper technique for CVAD cap change and satisfactorily demonstrated how to draw blood from a CVAD per hospital policy. Nice work! CB

*End-of- Program Student Learning Outcomes

Head to Toe Assessment: You are satisfactory for the head-to-toe assessment competency. Nice Job! BL/BS

EKG/Telemetry/Chest Tube: Satisfactory participation with review of monitoring tutorial and placement of EKG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric
AMSN
2023

Student Name: J. Zura		Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*					
Date or Clinical Week: Week 11							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Nice job identifying abnormal assessment findings, lab and diagnostic results, and risk factors.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Top nursing priority identified and relevant assessment data that support it also identified. Potential complications related to the priority problem are identified with associated symptoms.
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Priority interventions are listed and prioritized, interventions include a frequency, are individualized and realistic, and include rationale.
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

*End-of- Program Student Learning Outcomes

	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	Great job re-evaluating all highlighted data from assessment.
	14. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete	3	
Total Possible Points= 42 points 42-33 points = Satisfactory 32-21 points = Needs Improvement* < 21 points = Unsatisfactory* *Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines. Faculty/Teaching Assistant Comments:							Total Points: 42/42 Satisfactory. BS
							Faculty/Teaching Assistant Initials: Excellent work John! BS

Care Map Evaluation Tool
AMSN

Date	Care Map **	Evaluation & Instructor Initials	Remediation & Instructor Initials
Week 11	4T	S/BS	NA

2023

** AMSN students are required to submit one satisfactory care map during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Pathophysiology Grading Rubric
 Firelands Regional Medical Center School of Nursing
 Advanced Medical Surgical Nursing
 2023

Student Name: John Zura		Clinical Date: 3/21-3/22/23	
1. Provide a description of your patient including current diagnosis and past medical history. (2 points total) <ul style="list-style-type: none"> • Current Diagnosis (1) • Past Medical History (1) 		Total Points: 2 Comments: Great job describing your patient, including their current and past diagnosis. CB	
2. Describe the pathophysiology of your patient's current diagnosis. (1 point total) <ul style="list-style-type: none"> • Pathophysiology-what is happening in the body at the cellular level (1) 		Total Points: 1 Comments: Great job discussing your patient's diagnosis and explaining what is happening at a cellular level. CB	
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (3 points total) <ul style="list-style-type: none"> • All patient's signs and symptoms included (1) • Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (1) • Explanation of how all patient's signs and symptoms correlate with current diagnosis. (1) 		Total Points: 3 Comments: You provided all of your patient's signs and symptoms with a description of why these correlate with the diagnosis. You also explained which symptoms are usually seen that your patient did not have. Good job! CB	
4. Correlate the patient's current diagnosis with all related labs. (4 points total) <ul style="list-style-type: none"> • All patient's relevant lab result values included (1) • Rationale provided for each lab test performed (1) • Explanation provided of what a normal lab result should be in the absence of current diagnosis (1) • Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (1) 		Total Points: 4 Comments: You did a great job with the chart to showing what your patients lab values are, what is normal, and why they are effected by his diagnosis. CB	
5. Correlate the patient's current diagnosis with all related diagnostic tests. (4 points total) <ul style="list-style-type: none"> • All patient's relevant diagnostic tests and results included (1) • Rationale provided for each diagnostic test performed (1) 		Total Points: 4 Comments: You explained diagnostic test your patient had, why the results were related to your patient's diagnosis, and what normal results should be. Good job! CB	

<ul style="list-style-type: none"> • Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (1) • Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis (1) 	
6. Correlate the patient's current diagnosis with all related medications. (3 points total) <ul style="list-style-type: none"> • All related medications included (1) • Rationale provided for the use of each medication (1) • Explanation of how each of the patient's relevant medications correlate with current diagnosis (1) 	Total Points: 3 Comments: You explained all medication your patient was prescribed and how it was related to your patient's diagnosis. CB
7. Correlate the patient's current diagnosis with all pertinent past medical history. (2 points total) <ul style="list-style-type: none"> • All pertinent past medical history included (1) • Explanation of how patient's pertinent past medical history correlates with current diagnosis (1) 	Total Points: 2 Comments: You appropriately explained your patient's past medical history and how it was pertinent to his current diagnosis. Great job! CB
8. Describe nursing interventions related to current diagnosis. (1 point total) <ul style="list-style-type: none"> • All nursing interventions provided for patient explained and rationales provided (1) 	Total Points: 1 Comments: Great job discussing interventions that were provided to your patient based on their current diagnosis, with rationales included. CB
9. Discuss the role of interdisciplinary team members in the care of the patient. (3 points total) <ul style="list-style-type: none"> • Identifies all interdisciplinary team members currently involved in the care of the patient (1) • Explains how each current interdisciplinary team member contributes to positive patient outcomes (1) • Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (1) 	Total Points: 3 Comments: You were able to identify all healthcare team members that are involved in your patient's care, and list appropriate interdisciplinary team members that could be involved to ensure high quality care for your patient. Great job! CB
Total possible points = 23 18-23 = Satisfactory 13-17 = Needs improvement <12 = Unsatisfactory	23/23. John, great job with your pathophysiology. You were very thorough and met all requirements per the grading rubric. CB

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME(S): Sarah Kopp, Gloria Plue, Livia Suresh, John Zura

GROUP #: 4

SCENARIO: Week 8 Simulation

OBSERVATION DATE/TIME(S): February 27, 2023 1430-1630

CLINICAL JUDGMENT COMPONENTS						<u>OBSERVATION NOTES</u>
<p>NOTICING: (1,2)*</p> <ul style="list-style-type: none"> • Focused Observation: E A D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B 						<p>Notices patient is complaining of fatigue and nausea. Notices patient's heart rate is low. Notices patient's SpO2 is decreased. Notices patient's heart rhythm change with a decrease in blood pressure. Notices second heart rhythm change.</p> <p>Notices patient's heart rate is elevated and SpO2 is decreased. Notices there is no change in patient's heart rate or rhythm after medication administration. Notices decreased blood pressure. Notices patient is in fluid overload. Notices patient has crackles.</p> <p>Notices patient is unresponsive and pulseless.</p>
<p>INTERPRETING: (1,2)*</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 						<p>Initially prioritizes performing assessment. Interprets patient's initial heart rhythm as sinus bradycardia. Recognizes a need for medication to increase heart rate. Interprets heart rhythm change as a second degree type II heart block. Interprets second heart rhythm change as first degree heart block.</p> <p>Initially interprets patient's heart rhythm as atrial flutter; then recognizes it is atrial fibrillation. Recognizes a need to administer medication to decrease patient's heart rate. Recognizes a need for a fluid bolus to increase patient's blood pressure. Prioritizes stopping patient's fluids when patient shows signs of fluid overload.</p> <p>Interprets patient's heart rhythm as ventricular fibrillation.</p>
<p>RESPONDING: (1,2,3,5,6,7)*</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D 						<p>Introduces self and identifies patient. Obtains vital signs, performs assessment. Notifies physician of patient's decreased heart rate and SpO2. Recommends Atropine 0.5-1 mg IVP. Applies 2L of oxygen via nasal cannula. Calms and reassures the patient. Administers Atropine 0.5 mg IVP. Reassesses patient's heart rhythm. Notifies physician of rhythm change. Obtains vital signs, increases oxygen. Reassesses heart rhythm.</p> <p>Introduces self and identifies patient. Obtains vital signs and places patient on the monitor. Applies oxygen 2L via nasal cannula. Auscultates patient's heart.</p>

*End-of- Program Student Learning Outcomes

<p>B</p>	<p>Notifies physician of patient’s elevated heart rate and abnormal rhythm. Recommends administering diltiazem bolus followed by a drip. Asks the patient to cough and bear down to help bring down heart rate. Educates patient on diltiazem. Administers diltiazem bolus and drip. Reassesses patient and obtains vital signs. Notifies physician about patient’s decreased blood pressure. Recommends IV fluid bolus. Administers fluid bolus IV. Reassesses patient and vital signs. Stops IV fluids when patient has symptoms of fluid overload. Performs a focused respiratory assessment. Calms and reassures the patient. Notifies physician that patient is in fluid overload after IV fluid bolus. Recommends administering Amiodarone or performing a cardioversion.</p> <p>Calls MET. Initiates CPR. Applies fast patches. Defibrillates patient. Restarts CPR. Administers epinephrine 1 mg IVP.</p>
<p>REFLECTING: (1,2,5)*</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Discussed first scenario, identification and treatments for symptomatic bradycardias. Reviewed chart to look for causes of heart block (metoprolol, patient history). Talked about holding medication to see if sinus rhythm will be restored. Alternate drugs for complete heart block discussed (epi, dopamine). Discussed pacing options for symptomatic bradycardias (transcutaneous, transvenous, permanent). Talked about the importance of adjusting electrical current to obtain capture, need for medication). Excellent teamwork!</p> <p>Discussed recognition of A-fib and associated symptoms. Talked about goals of diltiazem therapy. Explanation and demonstration of synchronized cardioversion; discussed differences between cardioversion and defibrillation, the need for sedating medications prior to delivering shock. Great teamwork and communication.</p> <p>Discussed the importance of immediate CPR and defibrillation with pulseless v-tach. Discussed alternative to epi (amiodarone). Roles of the code team discussed (recorder, CPR, airway, meds, lead). Potential causes of code blue discussed (review of chart reveals low K+). Defibrillation discussed, starting low and increasing joules with subsequent shocks. Excellent job!</p>
<p>SUMMARY COMMENTS: * = Course Objectives</p> <p>Satisfactory completion of the simulation scenario is a score of “Developing” or higher in all areas of the rubric.</p> <p>E= Exemplary</p> <p>A= Accomplished</p> <p>D= Developing</p> <p>B= Beginning</p>	<p>Lasater Clinical Judgement Rubric Comments:</p> <p>Noticing: Focuses observation appropriately; regularly observes and monitors a wide variety of objective and subjective data to uncover any useful information. Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the</p>

*End-of- Program Student Learning Outcomes

<p>Scenario Objectives:</p> <ul style="list-style-type: none"> • Differentiate the clinical characteristics and ECG patterns of common dysrhythmias. (1,2)* • Choose nursing interventions for patients who are experiencing dysrhythmias. (1)* • Differentiate between defibrillation and cardioversion. (1,2,6)* • Communicates collaboratively to other healthcare providers utilizing SBAR. (3,5,6,7)* 	<p>exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse.</p> <p>Responding: Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.</p> <p>You are satisfactory for this simulation. Great job!</p>

Lasater Clinical Judgment Rubric Scoring Sheet

STUDENT NAME(S): J. Zura

GROUP #: 4

SCENARIO: Comprehensive Simulation

OBSERVATION DATE/TIME(S): 4/21/2023 1200-1500

CLINICAL JUDGMENT COMPONENTS						OBSERVATION NOTES
NOTICING: (2,6) *						
• Focused Observation:	E	A	D	B	<p>Recognized all signs and symptoms associated with patient's inferior wall MI upon arrival to the ER (ex. chest pain, diaphoresis, vital signs, labs)</p> <p>Recognized the need to clarify patient's last dose of Sildenafil in order to administer nitrates, as well as the importance of holding patient's Metformin for 48 hours after the heart catheterization.</p> <p>Recognized the appropriate use of MONAH (morphine, oxygen, nitrates, aspirin, heparin), fluid resuscitation, diuretics, and potassium use for the inferior wall MI patient.</p> <p>Recognized the association between patient history, including non-compliance, and current findings.</p> <p>Recognized the importance of identifying the culprit vessel during a STEMI so that the appropriate equipment can be prepared to treat an inferior STEMI, with catheters that will engage the right coronary artery.</p> <p>Recognized patient's allergy to contrast dye and the importance of pre-medicating so that any potential allergic reaction can be minimized.</p> <p>Recognized the appropriate patient information pertinent to communication with next caregiver following SBAR.</p> <p>Recognized the necessary components of assessment for the post Inferior STEMI patient upon return from the cardiac cath lab.</p>	
• Recognizing Deviations from Expected Patterns:	E	A	D	B		
• Information Seeking:	E	A	D	B		

*End-of- Program Student Learning Outcomes

	<p>Recognized abnormal vital sign, Atrial fibrillation, impending heart failure, and ecchymosis at right radial arterial site upon admission to critical care unit.</p> <p>Recognized the different medical diagnosis and past medical history that needed to be considered when developing a discharge education plan.</p>
<p>INTERPRETING: (1,2,3,6) *</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 	<p>Accurately interprets abnormal assessment findings (chest pain, diaphoresis, SOB), vital signs (BP, HR, SpO2), ECG (ST elevation-Inferior wall MI), and lab values (Troponin) in ER.</p> <p>ECG interpreted correctly. Recognized the need to continually interpret vital signs, heart rhythm, and pain throughout the case.</p> <p>Interpreted the areas affected by an inferior wall MI and artery responsible for this particular MI.</p> <p>Excellent job prioritizing appropriate data to include in communication using the SBAR format.</p> <p>Excellent interpretation of data. Upon reviewing the vital signs and monitor/ECG, Afib was noticed and interpreted to be a priority. When reviewing patient’s symptom upon arrival to the Critical Care Unit, symptoms were interpreted to indicate heart failure/fluid overload.</p> <p>Interpreted current diagnosis and past medical history and determined the need for education on current and past health issues as well as lifestyle modifications.</p>
<p>RESPONDING: (2,3,6,7) *</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D B 	<p>Multiple dosage calculations performed accurately. Several IV drips and boluses (heparin, nitroglycerin, Bivalirudin, amiodarone) were calculated and initiated appropriately. Sedation medications were calculated, verbalized, and administered. IV pump correctly programmed for bivalirudin bolus and drip. Nice job with SBAR communication when transferring patient throughout the scenarios.</p> <p>Appropriate medications were chosen to treat Afib and heart failure/fluid overload.</p> <p>Provided patient/family education related to lifestyle modifications including medication compliance and smoking cessation.</p> <p>Demonstrated clear communication providing the necessary</p>

*End-of- Program Student Learning Outcomes

	<p>components to include during hand-off report for transition of care utilizing SBAR.</p> <p>Applied appropriate interventions based on assessment findings in all departments.</p> <p>Active engagement throughout scenario.</p> <p>Provided accurate and pertinent information when phoning healthcare provider; accurately read orders back to verify.</p> <p>Provided appropriate communication and conflict management responses to daughter.</p>
<p>REFLECTING: (4,5,6,7) *</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Able to identify new knowledge obtained through the simulation and how to apply to future patient care scenarios.</p> <p>Acknowledged the importance of customizing teaching to accommodate patient lifestyle.</p> <p>Asked appropriate questions to gain understanding of information provided.</p> <p>Identified areas of improvement to foster clear and concise communication using SBAR. Reflected on ways to resolve conflict in appropriate manner.</p>
<p>SUMMARY COMMENTS: * = Course Objectives</p> <p>Satisfactory completion of the simulation scenario is a score of Developing or higher in all areas of the rubric.</p> <p>E= Exemplary A= Accomplished D= Developing B= Beginning</p> <p>Scenario Objectives:</p> <ul style="list-style-type: none"> • Assessment of ACS/STEMI, HF, and Atrial Fibrillation from admission to discharge. (1,6)* • Initiate treatment protocols for 	<p>Lasater Clinical Judgement Rubric Comments:</p> <p>Noticing: Focuses observation appropriately; regularly observes and monitors a wide variety of objective and subjective data to uncover any useful information. Recognizes subtle patterns and deviations from expected patterns in data and uses these to guide the assessment. Actively seeks subjective information about the patient's situation from the patient and family to support planning interventions; occasionally does not pursue important leads.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. Even when facing complex, conflicting, or confusing data, is able to (a) note and make sense of patterns in the patient's data, (b) compare these with known patterns (from the nursing knowledge base, research, personal experience, and intuition), and (c) develop plans for interventions that can be justified in terms of their likelihood of success.</p>

*End-of- Program Student Learning Outcomes

<p>ACS/STEMI, HF, and Atrial Fibrillation. (1,6)*</p> <ul style="list-style-type: none"> • Collaborate and communicate with interdisciplinary health care providers while transitioning from admission to discharge. (1,2,6)* • Summarize the nursing implications for medications and treatments utilized in the care of patients with ACS/STEMI, HF, and Atrial Fibrillation and develop plan for discharge. (1,2,3,5,6,7)* • Demonstrate ability to resolve conflict among interdisciplinary healthcare team members. (6,7)* <p>*Course Objectives</p>	<p>Responding: Assumes responsibility; delegates team assignments; assesses patients and reassures them and their families. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses.</p> <p>Overall excellent performance during the comprehensive simulation on a patient experiencing an inferior myocardial infarction. Total care from ED to Catheterization lab to ICU and discharge education was completed satisfactorily.</p>
