

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing- 2023
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Megan Barber

Final Grade: Satisfactory/Unsatisfactory

Semester: Summer Session

Date of Completion:

Faculty: Brian Seitz MSN, RN, Fran Brennan MSN, RN, Chandra Barnes MSN, RN,
 Nick Simonovich MSN, RN, Brittany Lombardi MSN, RN, Kelly Ammanniti MSN, RN
Teaching Assistants: Rachel Haynes BSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Clinical Patient Profile
- Meditech Documentation
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Online Discussion Rubric
- Nursing Process Recording Rubric
- Geriatric Assessment Rubric
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Participation in adjunctive therapies (N.A./A.A.; Erie County Detox Unit, Hospice inpatient care)
- EBP Presentations
- Hospice Reflection Journal
- Observation of Clinical Performance
- Clinical Nursing Therapy Group
- Nursing Care Map Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)

BL	Brittany Lombardi MSN, RN, CNE		
NS	Nick Simonovich MSN, RN		
CB	Chandra Barnes MSN, RN		
RH	Rachel Haynes BSN, RN		

* End-of-Program Student Learning Outcomes

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Objective

1. Apply the principles of psychiatric theory in the care of adolescent to geriatric patients with a mental illness diagnosis. (1, 2, 3, 5, 6, 7, 8)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:		S								
a. Demonstrate an understanding of the relationship between mental health, physical health, and environment for those patients diagnosed with a mental disorder. (noticing)		S								
b. Correlate prescribed therapies, psychotherapy, and alternative therapies in relation to the patient's mental disorder. (interpreting)		S								
c. Provide culturally and spiritually competent care within the scope of nursing that meets the needs of assigned patients from diverse cultural, racial and ethnic backgrounds. (responding)		S								
d. Identify appropriate methods that will assist the patient to regain independence and achieve self-care (noticing)		S								
e. Recognize social determinants of health and the relationship to mental health. (reflecting)		S								
f. Develop and implement an appropriate nursing therapy group activity. (responding)		S								
g. Develop a geriatric physical/mental health assessment and education plan. (Geriatric Assessment) (responding)

Comments:

Week 2 – 1a – Megan, you were thoroughly able to discuss the pathophysiology behind your patient's admission diagnosis of major depressive disorder. Great job discussing potential causes even though it is difficult to identify the specific cause. KA

Week 2 – 1e – Megan, you did a nice job discussing specific social determinants of health and how they related to your patient. You identified housing as being the biggest concern related to SDOH and contributed to her most recent admission. KA

Week 2 – 1f – Megan, you did a great job developing and running a nursing therapy group this week. Your coping skills BINGO was fun and the patients all appreciated the prize of candy when they won! Wonderful job! KA

Objective

2. Synthesize concepts related to psychopathology, health assessment data, evidenced based practice and the nursing process using clinical judgment skills to plan and care for patients with mental illness. (1, 2, 3, 4, 5, 6, 7, 8)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:		S								
a. Assemble a health history which includes past and current history of mental and medical health issues and chief reason for hospitalization. (noticing)		S								
b. Identify patient’s subjective and objective findings including labs, diagnostic tests, and risk factors. (noticing, recognizing)		S								
c. Demonstrate ability to identify the patient’s use of coping/defense mechanisms. (noticing, interpreting)		S								
d. Formulate a prioritized nursing care map utilizing clinical judgment skills. (noticing, interpreting, responding, reflecting)		NA								
e. Apply the principles of asepsis and standard precautions. (responding)		S								
f. Practice use of standardized EBP tools that support safety and quality. (noticing, responding)		S								
Faculty Initials	KA	KA								

Comments:

Week 2 – 2a & 2b – Megan, you did a nice job discussing the patient you worked with this week and her reason for admission to the inpatient unit. KA

Week 2 – 2b – You did a great job identifying the abnormal labs your patient had and how they related to her medical history. What were all the labs they drew on your patient? Were there any labs that would be pertinent for them to draw that they may not have drawn yet? KA

Week 2 – 2f – Megan great job identifying teamwork, patient involvement, transparency, and accountability as being major factors in creating a culture of safety on the psychiatric unit. KA

* End-of-Program Student Learning Outcomes

Objective										
3. Refine basic verbal and nonverbal therapeutic communication skills when interacting with patients, families, and members of the health care team. (1, 2, 3, 5, 7, 8)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Illustrate professionally appropriate and therapeutic communication skills in interactions with patients, and families. (responding)		S								
b. Demonstrate professional and appropriate communication with the treatment team by using the SBAR format for handoff communication during transition of care. (responding)		S								
c. Identify barriers to effective communication. (noticing, interpreting)		S								
d. Construct effective therapeutic responses. (responding)		S								
e. Construct a satisfactory patient-nurse therapeutic communication. (Nursing Process Study) (responding, reflecting)										
f. Posts respectfully and appropriately in clinical discussion groups. (responding, reflecting)		S								
g. Respect the privacy of patient health and medical information as required by federal HIPAA regulations. (responding)		S								
h. Teach patient/family based on readiness to learn and patient needs. (responding, reflecting)		S								
Faculty Initials	KA	KA								

Comments:

Week 2 – 3f – Megan, you did a nice job responding to all the CDG questions on your 1 South clinical experience this past week. Your responses were well written and thorough. You included appropriate resources to support your information and included in-text citations. In the future include a coma between the author and year in your in-text citation. Keep up the terrific work! KA

* End-of-Program Student Learning Outcomes

Objective										
4. Demonstrate knowledge of frequently prescribed medications utilized in treating mental illness. (1, 4, 5, 6, 7)*										
Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Discuss the safe administration of medication while observing the six rights of medication administration. (responding)		S								
b. Demonstrate ability to discuss the uses and implication of psychotropic medications. (responding, reflecting)		S								
c. Identify the major classification of psychotropic medications. (interpreting)		S								
d. Identify common barriers to maintaining medication compliance. (reflecting)		S								
e. Explain the effects, adverse effects, nursing interventions and safety issues, related to the use of psychotropic medications. (responding, reflecting)		S								
Faculty Initials	KA	KA								

Comments:

Week 2 – 4a, 4b, & 4e – Megan, you did a great job discussing your patient’s medications, their side effects, and nursing interventions related to each. You noted one of the medications having psychiatric side effects. Great job! You completed medication administration on the patient efficiently and accurately observing the rights of medication administration. The patient reported potentially not being administered a medication during the medication pass, but your accurate documentation and following of the rights of medication administration supported the fact you administered the medication as ordered. You thoroughly researched your medications and were well versed on each one before you administered them. Great job handling a difficult situation. KA

* End-of-Program Student Learning Outcomes

Objective

5. Develop an awareness of community Mental Health resources and services. (5, 6, 7, 8)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify the need for the community resources-detox unit available to patients with a mental illness. (noticing, interpreting)		NA								
b. Discuss recommendations for referrals to appropriate community resources and agencies. (reflecting)		NA								
c. Attend Erie County Health Department Detox Unit observing the care of a patient with mental illness-substance abuse. (Community Agency Observation-Detox Unit)		NA								
d. Attend Narcotics/Alcoholics Anonymous meeting. (Alcoholics/Narcotics Anonymous at the Sandusky Artisans Recovery Center (Observation))		NA								
Faculty Initials	KA	KA								

Comments:

* End-of-Program Student Learning Outcomes

Objective

6. Demonstrate satisfactory proficiency when using informatics and techniques in the assessment of patients with a mental illness diagnosis. (1, 2, 3, 4, 6, 8)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
Competencies:		S								
a. Demonstrate competence in navigating the electronic health record. (responding)		S								
b. Demonstrate satisfactory documentation of physical and psychiatric assessments and nursing notes utilizing the electronic health record. (responding)		S								
c. Demonstrate the use of technology to identify mental health resources. (responding)		S								
Faculty Initials	KA	KA								

Comments:

* End-of-Program Student Learning Outcomes

Objective

7. Evaluate self-participation in patient care experiences with the focus on safety, ethical, legal, and professional responsibilities. (7)*

Weeks of Course:	1	2	3	4	5	6	7	8	Make Up	Final
a. Identify your strengths for care delivery of the patient with mental illness. (reflecting)		S								
b. Demonstrates effective use of strategies to reduce risk of harm to self or others. Create a safe environment for patient care. (responding)		S								
c. Illustrate active engagement in self-reflection and debriefing. (reflecting)		S								
d. Incorporate the core values of caring, diversity, excellence, integrity, and “ACE” – attitude, commitment, and enthusiasm during all clinical interactions. (responding)		S								
e. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (responding)		S								
f. Comply with the standards outlined in the FRMCSN policy, “Student Conduct While Providing Nursing Care.” (responding)		S								
Faculty Initials	KA	KA

EVALUATION OF CLINICAL PERFORMANCE TOOL
Psychiatric Nursing

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
