

**EVALUATION OF CLINICAL PERFORMANCE TOOL**  
**Psychiatric Nursing- 2023**  
**Firelands Regional Medical Center School of Nursing**  
**Sandusky, Ohio**

**Student:** Keyara Schneider

**Final Grade:** Satisfactory/Unsatisfactory

**Semester:** Summer Session

**Date of Completion:**

**Faculty:** Brian Seitz MSN, RN, Fran Brennan MSN, RN, Chandra Barnes MSN, RN,  
 Nick Simonovich MSN, RN, Brittany Lombardi MSN, RN, Kelly Ammanniti MSN, RN  
**Teaching Assistants:** Rachel Haynes BSN, RN

**Faculty eSignature:**

**DIRECTIONS FOR USE:**

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S), Needs Improvement (NI), Unsatisfactory (U), and Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, or U". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, the following week it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, then it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

**METHODS OF EVALUATION:**

- Clinical Patient Profile
- Meditech Documentation
- Evaluation of Clinical Performance Tool
- Onsite Clinical Debriefing
- Online Discussion Rubric
- Nursing Process Recording Rubric
- Geriatric Assessment Rubric
- Lasater Clinical Judgment Rubric
- Virtual Simulation scenarios
- Participation in adjunctive therapies (N.A./A.A.; Erie County Detox Unit, Hospice inpatient care)
- EBP Presentations
- Hospice Reflection Journal
- Observation of Clinical Performance
- Clinical Nursing Therapy Group
- Nursing Care Map Rubric

## **PERFORMANCE CODE**

### **SATISFACTORY CLINICAL PERFORMANCE**

**Satisfactory (S):** Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

### **UNSATISFACTORY CLINICAL PERFORMANCE**

**Needs Improvement (NI):** Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

**Unsatisfactory (U):** Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

### **OTHER**

**Not Available (NA):** The clinical experience which would meet the competency was not available.

### Comments:

Week 3(7c,e): Excellent job this week during your hospice clinical experience. You did a great job completing your reflection journal. Comments from the RN you were assigned to in Hospice: Excellent in all areas. “Keyara assisted with personal care. Observed and administered medications crushed and slurried. Observed insertion of subQ buttons. Eager to learn. Observed and performed oral suction using yanker. Hands on and professional.” Keep up all your great work! CB

week 4: 7(d)- You did great with your CDG this week and when answering the last question you talk about turning negative things that patients say about themselves into positives, and this is a great example of ACE. Keep up the good work. RH

Good job on your geriatric assessment. You missed points due to not filling out the second half of the pain assessment (even though their pain was zero, no "0" was filled out on the back) and you did not have dosage or route of the medications on the medication list. RH  
 You must receive a total of 77 out of 100 points to receive a "S" grade on the Evaluation of Clinical Performance tool. Due date can be located on the clinical schedule.
