*Course Objectives

Firelands Regional Medical Center School of Nursing
Nursing Foundations 2023
Skills Lab Competency Tool

Student Name: Ava Lawson

Comments:

Week 1 (Technology Lab):

During this lab you were able to satisfactorily navigate:

- Edvance360 Learning Management System.
- Skyscape Resource System.
- Assessment Technologies Institute (ATI) / Virtual Simulation (vSim) Systems.
- Guided tour of library and computer lab. AR

Week 2 (Hand Hygiene; Vital Signs; PPE):

During lab this week you were able to satisfactorily demonstrate:

- Appropriate hand hygiene utilizing hand sanitizer and soap/water.
- Accurate verbalization of procedure for donning & doffing PPE.
- Appropriate level of skill during guided practice with measurement of radial and brachial pulses, along with manual blood pressure. Vital signs skills will be observed 1:1 with faculty during Week 3. Keep up the good work! AR

Week 3 (Vital Signs):

Great job in the lab this week! You satisfactorily completed the vital sign check off during 1:1 observation, including oral temperature, radial pulse, respiratory rate, pulse oximetry, and blood pressure measurement. During the blood pressure measurement, you accurately obtained two out of two blood pressure results on the Vital Sim manikin. You were able to verbally discuss the following measurements: axillary and rectal temperature along with orthostatic vital signs. You were able to remind yourself to verify the patient's identity by asking for name and DOB and required one prompt as a reminder to raise the siderail and lower the bed prior to leaving the bedside and room. Your Meditech documentation related to vital signs had two omissions: "irregular" for pulse rhythm and "114/68" for blood pressure measurement. The remainder of the documentation was accurate and complete. Keep up the great work!! AR

Week 4 (Assessment):

Satisfactory with head to toe assessment guided practice, hand-off report activity, and Lexicomp/Intranet navigation activity. You will be observed 1:1 for Head to Toe Assessment competency during Week 5. NS

Week 5 (Assessment; Mobility):

Great job in lab this week! You have satisfactorily demonstrated a basic head to toe assessment in the skills lab. Your approach was systematic, thorough, and overall well done. You did require 1 prompt related to asking about numbness and tingling in extremities. You demonstrated friendly, professional, and informative communication. You were able to correctly identify the lung sounds as crackles. Great job! CB

Feedback on documentation this week: With this being the first time that you fully documented these interventions, there are some areas for improvement. You did a good job, overall, with your Meditech documentation. You documented on the interventions listed below; however, some areas were inaccurate and omitted. NS

- Vital signs: accurate and complete
- Pain: accurate and complete

- Safety and Falls: accurate and complete
- Physical Re-Assessment – omitted left ear documentation. Needs to add “labored” breathing to respiratory effort. Otherwise, accurate and complete.

Mobility Lab 9/21/2023: Satisfactory completion of mobility lab through demonstration of the following: Logrolling/turning a patient, lifting a patient in bed, repositioning from lying to sitting, repositioning from sitting to standing, stand/pivot transfer from a bed to a chair, ambulating with a walker, ambulating with crutches, ambulating with a cane, use of a gait belt, and safe use of a wheelchair. Proper body mechanics were utilized to promote safety for the health care worker and the patient. Great job with active participation throughout the duration of the lab. NS

Week 6 (Personal Hygiene Skills):

Week 7 (NG Skills: Insertion, Irrigation, and Removal; Feedings):

Week 8 (Foley Skills: Insertion, Removal; Sterile Gloves; I&O, Documentation Lab):

Week 9 (Dressing Change: Dry Sterile, Damp to Dry Packed, Stoma Skills):

Week 10 (Safety; Infection Control; Prioritization; Weight; Pressure Ulcer Prevention; Soft Restraints; Doppler BP):

Week 11 (Medication Lab):

8/17/2023
