

**EVALUATION OF CLINICAL PERFORMANCE TOOL
Maternal Child Nursing – 2023**

**Firelands Regional Medical Center School of Nursing
Sandusky, Ohio**

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Fall

Date of Completion:

Faculty: Kelly Ammanniti, MSN, RN, CHSE; Monica Dunbar DNP, RN;
Brian Seitz, MSN, RN, CNE; Rachel Haynes MSN, RN

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student’s evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a “S, NI, or U”. If the student does not self-rate, then it is an automatic “U”. A student who submits the clinical evaluation tool late will be rated as “U” in the appropriate competency(s) for that clinical week. Whenever a student receives a “U” in a competency, the following week it must be addressed with a comment as to why it is no longer a “U”. If the student does not state why the “U” is corrected, then it will be another “U” until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

- Care Maps
- Patient/Family Education
- Preparedness for Clinical/Clinical Performance
- Online Clinical Discussion Groups
- Administration of Medications
- Nursing Skills Completion of Clinical Performance Tool
- Written Reports of Clinical Experiences
- Documentation
- Conferences with the Faculty
- Lasater Clinical Judgment Rubric
- vSim
- Simulation Scenarios

Absence: (Refer to Attendance Policy)

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from instructor or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available

Objective																		
1. Describe the principles of growth and development and knowledge of pathophysiology as a basis for the provision of safe, quality nursing care to children and the childbearing family across the health-illness continuum. (1,2,3,4,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
Competencies:		NA	NA	NA	NA	S	S	S	NA									
a. Provide care utilizing techniques and diversions appropriate to the patient's level of development.		NA	NA	NA	NA	S	S	S	NA									
b. Provide care using developmentally appropriate communication.		NA	NA	NA	NA	S	S	S	NA									
c. Use systematic and developmentally appropriate assessment techniques.		NA	NA	NA	NA	S	NA	S	NA									
d. Describe safety measures for various stages of development. (i.e. monitoring fall risks, restraints, and DVT assessment)		NA	NA	NA	NA	S	S	S	NA									
e. Identify stage of growth and development (Erikson's Stages)(List Below and explain reason for choice)*		NA	NA	NA	NA	S	S	S	NA

		BS	BS	BS	BS	BS	BS	BS										

Comments:

Week 6

1e: Intimacy vs Isolation; I chose this stage because of my patients age and she is establishing relationships with others while establishing intimacy throughout the birth of her child. **BS**

Week 6 – 1a – You did a wonderful job providing holistic care to the mom you were assigned to this week. KA

***End-of-Program Student Learning Outcomes**

Week 7

1e: Industry vs. Inferiority; I chose this stage because of the age the children were in during clinical. Many children showed inferiority and would ask for help completing tasks during the clinical. **BS**

Week 6 – 1d – You were able to identify safety measures used to keep newborns safe on the OB unit and completed mother newborn verification process when needed. **KA**

Week 7- 1b- You did a nice job discussing the differences you noticed among the age groups you interacted with during your time at the Boys and Girls Club. 1e- Nice job describing the ways in which you adjusted your communication style as you educated and interacted with the different ages of children at the Boys and Girls Club. **BS**

Objective																		
1. Describe the principles of growth and development and knowledge of pathophysiology as a basis for the provision of safe, quality nursing care to children and the childbearing family across the health-illness continuum. (1,2,3,4,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
Competencies:																		
f. Describe psychological changes in response to the expectant mother's pregnancy. Maternal		NA	NA	NA	NA	S	NA	S	NA									
g. Discuss prenatal influences on the pregnancy. Maternal		NA	NA	NA	NA	S	NA	S	NA									
h. Identify the stage and progression of a woman in labor. Maternal		NA	NA	NA	NA	S	NA	S	NA									
i. Discuss family bonding and phases of the puerperium. Maternal		NA	NA	NA	NA	S	NA	S	NA									
j. Identify various resources available for children and the childbearing family.		NA	NA	NA	NA	S	NA	S	NA									
k. Value patient's perspective, diversity, age and cultural factors that influence their behaviors.		NA	NA	NA	NA	S	S	S	NA									
l. Respect the centrality of the patient/family as core members of the health team.		NA	NA	NA	NA	S	NA	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Comments:

Objective																		
2. Integrate principles of decision-making in utilizing evidenced-based practice in the nursing process in providing care for the childbearing family and children encompassing cultural sensitivity and diversity. (1,2,3,4,5)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
a. Engage in discussions of evidenced-based nursing practice.		NA	NA	NA	NA	S	NA	S	NA									
b. Perform nursing measures safely using Standard precautions.		NA	NA	NA	NA	S	NA	S	NA									
c. Perform nursing care in an organized manner recognizing the need for assistance.		NA	NA	NA	NA	S	NA	S	NA									
d. Practice/observe safe medication administration.		NA	NA	NA	NA	S	NA	S	NA									
e. Calculate pediatric and adult drug dosages correctly and determine appropriateness of the dose.		NA	NA	NA	NA	S	NA	S	NA									
f. Utilize information obtained from patients/families as a basis for decision-making.		NA	NA	NA	NA	S	S	S	NA									
g. Identify factors associated with Social Determinants of Health (SDOH) &/or cultural elements that have the potential to influence patient care.** (Noticing, Interpreting, Responding, Reflecting) (List Below)*		NA	NA	NA	NA	S	S	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Comments:

Week 6

2g: Patient has a high school education, she was supported by her boyfriend and parents throughout her pregnancy. She has accessibility to quality care because she has health insurance coverage **BS**

***End-of-Program Student Learning Outcomes**

Week 7

2g: Transportation has the potential to influence care. If the child didn't have transportation from the school to the afterschool program they wouldn't be able to attend. It also has an impact on them being able to receive medical care. Support also has the potential to influence care. If they don't receive much support they may not be as willing to seek care

Week 6 – 2c – You did a wonderful job assisting your classmate with a baby bath for their assigned newborn. You monitored the newborn's temperature before and after bath as well as helped prevent hypothermia by utilizing appropriate warming techniques. KA

Week 6 – 2d – You did a nice job following the rights of medication administration and appropriately documenting the medication administration in the MAR this week on clinical. You had the opportunity to pass PO medications independently on your assigned patient after conferring with your instructor. KA

Week 6 – 2f – You worked with the family to gather information on the baby to be able to appropriately assist with any educational needs. KA

Week 7- 2g- Good job identifying social determinants of health that may have an impact on the children. Lack of social support and lack of transportation certainly have an effect on a family, especially with little ones who benefit from having the same experiences, more or less, as their peers. While many of these children share similar circumstances, the particulars of each child's life can vary greatly. When you get a chance to talk to some of these kids, some of them don't eat from the time they leave until the next morning at school. BS

Objective																		
3. Summarize the legal, moral and ethical issues related to care of children and the childbearing family. (2,6,7)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
a. Act with integrity, consistency, and respect for differing views.		NA	NA	NA	NA	S	S	S	NA									
b. Respect the privacy of patient health and medical information as required by federal HIPAA regulations.		NA	NA	NA	NA	S	S	S	NA									
c. Follow the standards outlined in the FRMCSN policy, "Student Code of Conduct"		NA	NA	NA	NA	S	S	S	NA									
d. Critique examples of legal or ethical issues observed in the clinical setting. (List Below)*		NA	NA	NA	NA	S	S	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Comments:

Week 6:

3d: My patient requested to have her placenta to take home to encapsulate it and use it for vitamins. She was tested for Group B Strep at her 37 week prenatal appointment where she tested positive and was given antibiotics, because of the positive result according to Firelands Hospital policy she is not able to receive her placenta. I've heard some placenta stories before, but not this one! BS

Week 7:

3d: An ethical issue I saw during clinical was bullying/ social inequality throughout the grade levels. Yes, and unfortunately this tends to get worse, and more serious the older they get. BS

Objective																		
4. Construct nursing care plans and clinical reports that demonstrate mastery of clinical judgment skills through holistic, age-appropriate nursing care of the childbearing family and children. (1,2,6)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
a. Develop and implement a priority care map utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)		NA	NA	NA	NA	S	NA	S	NA									
b. Develop and implement a plan of care utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)		NA	NA	NA	NA	S	NA	S	NA									
c. Document assessment findings, interventions, and outcomes accurately on appropriate forms. (Including risk assessment and monitoring of wound care)		NA	NA	NA	NA	S	NA	S	NA									
d. Summarize witnessed examples of patient/family advocacy.		NA	NA	NA	NA	S	NA	S	NA									
e. Provide patient centered and developmentally appropriate teaching.		NA	NA	NA	NA	S	S	S	NA									
f. Analyze the involved pathophysiology of the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Week 6- 4a- You did a great job on your care map. Taylor. Please see your rubric below for feedback. BS

Week 7- 4e- Your group did a nice job of providing developmentally appropriate education to children of various ages on the topics you chose related to nursing. Nice work! BS

Student Name: T. Fox		Course Objective: 4					
Date or Clinical Week: 6							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Nice job listing abnormal observation and assessment findings based on your patient experience this week. Abnormal findings were identified and listed. Lab/diagnostic findings were also provided. Nice job reviewing and including pertinent risk factors related to your priority problem of risk for infection.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Five high priority nursing problems were identified. Risk for infection was appropriately selected as the top priority problem. All relevant assessment data was highlighted pertinent to the priority problem. Three potential complications were identified, each supported with signs and symptoms to monitor for.
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	2	Nursing interventions related to the top priority were listed. Interventions were mostly appropriately prioritized. I would suggest vital signs should be in the top 2. Each listed intervention included a frequency and rationale. All listed interventions were individualized and realistic to the
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	

	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	patient situation. I would suggest interventions for performing hygiene to the perineal area and promoting a high-protein diet to help with wound healing.
Reflecting	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	3	An evaluation of all abnormal findings was provided along with a determination to continue the plan of care.
	14. Evaluation includes one of the following statements: <ul style="list-style-type: none"> Continue plan of care Modify plan of care Terminate plan of care 	Complete			Not complete	3	
Total Possible Points= 42 points 42-33 points = Satisfactory 32-21 points = Needs Improvement* < 21 points = Unsatisfactory* *Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines.						Total Points: 41/42 Satisfactory. BS	
Faculty/Teaching Assistant Comments: Taylor, nice work with your care map related to risk for infection. See comments provided throughout the rubric. Let me know if you have any questions. Keep up the hard work! BS						Faculty/Teaching Assistant Initials: BS	

Objective																		
4. Construct nursing care plans and clinical reports that demonstrate mastery of clinical judgment skills through holistic, age-appropriate nursing care of the childbearing family and children. (1,2,6)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
g. Correlate the diagnostic tests with the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA									
h. Correlate the pharmacotherapy in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA									
i. Correlate the medical treatment in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA									
j. Correlate the nutritional needs/diet in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA									
k. Correlate the patient's growth and developmental level in relation to the patient's disease process. (noticing, interpreting, responding)		NA	NA	NA	NA	S	NA	S	NA

Comments:

Objective																		
5. Collaborating professionally with members of the health care team, childbearing and child-rearing families, faculty, and peers through written, verbal and nonverbal methods, and by conferencing, networking, and posting through computer technology. (1,3,5,6,7,8)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
a. Demonstrate interest and enthusiasm in clinical activities.		NA	NA	NA	NA	S	S	S	NA									
b. Evaluate own participation in clinical activities.		NA	NA	NA	NA	S	S	S	NA									
c. Communicate professionally and collaboratively with members of the healthcare team.		NA	NA	NA	NA	S	NA	S	NA									
d. Document assessment findings, interventions, and outcomes accurately in the electronic health record.		NA	NA	NA	NA	S	NA	S	NA									
e. Demonstrate skill in accessing and navigating information in the electronic health record. (Responding)		NA	NA	NA	NA	S	NA	S	NA									
f. Clearly communicate care provided and needed at each transition in care using hand off communication techniques. (I-SBAR-R)		NA	NA	NA	NA	S	NA	S	NA									
g. Consistently and appropriately post comments in clinical discussion groups.		NA	NA	NA	NA	S	S	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Comments:

Week 6 – 5a – You did a great job showing interest and enthusiasm while in OB. You sought out new learning experiences while on clinical. You were able to a vaginal delivery while on clinical this week! KA

Week 6 – 5e – You did a nice job documenting the postpartum assessment in the EMR for the first time. You asked appropriate questions to ensure you were able to document the assessment accurately. KA

Week 6 – 5f – You provided updates about your patient regularly to the appropriate nurse and provided hand-off report before leaving clinical at the end of shift. KA

Week 7- 5a- Your group did a great job providing developmentally appropriate education to the kids on some very important topics. BS

***End-of-Program Student Learning Outcomes**

Objective																		
6. Critique own strengths and areas for improvement modifying behaviors accordingly to achieve personal and professional goals. (7,8)*																		
Weeks of Clinical	1	2	3	4	5	6	7	Midterm	8	9	10	11	12	13	14	15	Make up	Final
	8/25	9/1	9/8	9/15	9/22	9/29	10/6		10/13	10/20	10/27	11/3	11/10	11/17	11/24	12/1		
a. Recognize areas for improvement and goals to meet these needs. (List Below)*		NA	NA	NA	NA	S	S	S	NA									
b. Accept responsibility for decisions and actions.		NA	NA	NA	NA	S	S	S	NA									
c. Demonstrate evidence of growth and self-confidence.		NA	NA	NA	NA	S	S	S	NA									
d. Demonstrate evidence of research in being prepared for clinical.		NA	NA	NA	NA	S	S	S	NA									
e. Exhibits professional behavior i.e. appearance, responsibility, integrity, and respect.		NA	NA	NA	NA	S	S	S	NA									
f. Describe initiatives in seeking out new learning experiences.		NA	NA	NA	NA	S	S	S	NA									
g. Demonstrate ability to organize time effectively.		NA	NA	NA	NA	S	S	S	NA									
h. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions.		NA	NA	NA	NA	S	S	S	NA									
i. Demonstrates growth in clinical judgment.		NA	NA	NA	NA	S	S	S	NA									
		BS	BS	BS	BS	BS	BS	BS										

Comments:

Week 6:

6a: I want to improve on postpartum assessments and to be able to do them more systematically. I plan on going over Bubble-le multiple times prior to my next simulation and OB clinical experience. **Yes, practice makes perfect. BS**

***End-of-Program Student Learning Outcomes**

Week 7:

6a: I want to improve my communication with children as a whole. I feel as though it was easy to communicate with the younger students as they paid more attention to the activity, but the higher level students I felt was harder to communicate with as they didn't seem as interested in the activities. I will look in the book and review therapeutic communication techniques before clinicals to help improve this. **Good plan. It can be difficult to engage with children of different ages, with different wants and needs. BS**

Taylor- Nice work so far this semester. Keep it up!! BS

***End-of-Program Student Learning Outcomes**

GROUP #: 3

SCENARIO: Pregnancy and PPH

OBSERVATION DATE/TIME(S): 9/12/2023 1010-1140

CLINICAL JUDGMENT COMPONENTS						<u>OBSERVATION NOTES</u>
<p>NOTICING: (1, 2, 5) *</p> <ul style="list-style-type: none"> • Focused Observation: E A D B • Recognizing Deviations from Expected Patterns: E A D B • Information Seeking: E A D B 						<p>Assessment nurse introduces self and identifies patient. VS assessed, heart and lung sounds. Lab results received. Patient requests mountain dew.</p> <p>Patient identified, VS obtained. Mona CO pain- rated at 3/10, and feeling dizzy. Notices boggy uterus.</p>
<p>INTERPRETING: (2, 4) *</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 						<p>Lab results interpreted- + for glucose. FSBS- 200, interpreted as being high.</p> <p>Inspection reveals blood on the bed. Uterus interpreted to be boggy. Uterus interpreted to be firm following massage.</p>
<p>RESPONDING: (1, 2, 3, 5) *</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D B 						<p>Inquires about smoking during pregnancy, applies fetal heart monitor. Leopold's performed to determine baby's position. Mona assister to left side. UA sent to lab. Call to lab for results. Call to provider to report glucose in urine, report of no prenatal care. Orders received- US to confirm dates, FSBS, IV fluid, Procardia, acetaminophen, education. Orders read back. Medications prepared and patient identified. Talked about ways to reduce stress. Nurse and charge nurse in to provide patient education related to dietary changes and prenatal care. Ultrasound phoned with gestational age. IV fluid initiated and acetaminophen administered. Call to provider with concern about Procardia related to blood pressure. Procardia administered.</p> <p>Fundus palpated, Mona CO pain and a gush. Feeling dizzy. Fundus immediately massaged. Call to provider, orders for methergine and to increase fluid rate. Methergine prepared and administered- remember to use an IM needle. Peri-pad weighed and replaced.</p>

<p>REFLECTING: (6) *</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Team discussion of the scenarios. Team recognized the significance of teamwork and communication, and did very well with each. Also discussed risk factors for postpartum hemorrhage and that it is ok to ask for help when unsure of something. Discussed the importance of lifestyle changes and prenatal care, especially with pregnancy.</p>
<p>SUMMARY COMMENTS: * = Course Objectives</p> <p>Satisfactory completion of the simulation scenario is a score of “developing” or higher in all areas of the rubric.</p> <p>E= Exemplary</p> <p>A= Accomplished</p> <p>D= Developing</p> <p>B= Beginning</p> <p>Scenario Objectives:</p> <ol style="list-style-type: none"> 1. Implement appropriate nursing interventions and test to monitor fetal well-being during pregnancy upon completion of nursing assessment. (1, 2, 3, 5)* 2. Demonstrate correct technique of uterine massage for postpartum assessment. (1, 2, 4, 5)* 3. Identify the signs and symptoms of postpartum hemorrhage (PPH) and implement appropriate management of the Postpartum Hemorrhage (PPH). (1, 2, 5)* 4. Utilize therapeutic communication and interpersonal 	<p>You are Satisfactory for this scenario! BS</p> <p>Lasater Clinical Judgement Rubric Comments:</p> <p>Noticing: Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs Recognizes most obvious patterns and deviations in data and uses these to continually assess Makes limited efforts to seek additional information from the patient and family; often seems not to know what information to seek and/or pursues unrelated information</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data. In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse.</p> <p>Responding: Is tentative in the leader role; reassures patients and families in routine and relatively simple situations, but becomes stressed and disorganized easily Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Develops interventions on the basis of relevant patient data; monitors progress regularly but does not expect to have to change treatments. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Evaluates and analyzes personal clinical performance with minimal prompting primarily about major events or decisions; key decision points are identified, and alternatives are considered. Demonstrates a desire to improve nursing performance; reflects on and evaluates experiences; identifies strengths and weaknesses; could be more systematic in evaluating weaknesses:</p>

<p>skills in the interactions with patients, families, and members of the health team. (3, 5, 6)*</p> <p>5. Implement appropriate nursing interventions upon completion of nursing assessment. (1, 2, 5)*</p> <p>*Course Objectives</p>

Lasater Clinical Judgment Rubric Scoring Sheet

Student Roles: A=Assessment Nurse; M=Medication Nurse; C=Charge Nurse

STUDENT NAME(S) AND ROLE(S): Cromwell (A), Fox (M), McCloy (C)

GROUP #: 3

SCENARIO: **Shoulder Dystocia and Newborn Care**

OBSERVATION DATE/TIME(S): 10/3/23 1010-1140

CLINICAL JUDGMENT COMPONENTS						<u>OBSERVATION NOTES</u>
NOTICING: (Link to Course Objectives) *						
• Focused Observation:	E	A	D	B		Introduce self
• Recognizing Deviations from Expected Patterns:	E	A	D	B		Pain assessment: rating, duration
• Information Seeking:	E	A	D	B		Obtain vital signs
						Assessment of lung sounds, heart sounds, grasp strength, leg strength
						Pain reassessment after medication administration
						Fundus assessment post delivery
						Baby heart rate and respirations obtained
						Apgar score at 1 minute: 9
						Newborn reflexes assessed, newborn assessment complete

<p>INTERPRETING: (Link to Course Objectives) *</p> <ul style="list-style-type: none"> • Prioritizing Data: E A D B • Making Sense of Data: E A D B 	<p>Offer Nubain for pain since no epidural in birth plan Relate PCN administration to GBS+ (pre-delivery) Reads fetal monitoring strip and connects trends with fetal distress (decelerations) Interpret baby being stuck as shoulder dystocia. Dry baby, swaddle, put hat on for thermal regulation</p>
<p>RESPONDING: (Link to Course Objectives) *</p> <ul style="list-style-type: none"> • Calm, Confident Manner: E A D B • Clear Communication: E A D B • Well-Planned Intervention/ Flexibility: E A D B • Being Skillful: E A D B 	<p>Nubain administration: check name/DOB, appropriate dose and needle. Needle safety engaged. Injected 8 mL of air after injection of medication. 45 degree angle, should be 90 degrees. PCN administration: secondary IV medication. Contamination of spike of IV tubing prior to spiking the bag. Hung secondary bag above primary bag. Interventions: call for help, McRoberts maneuvers, suprapubic pressure, attempt to remove posterior arm, mom to hands and knees, episiotomy evaluation, rotational maneuvers. Offer skin to skin with baby and educate that it is a temperature regulation Education on erythromycin and vitamin K for baby. Vitamin K administration: check name/DOB. Inject medication and 4 mL of air. Educate mother on thermoregulation for baby and keeping hat on</p>
<p>REFLECTING: (Link to Course Objectives) *</p> <ul style="list-style-type: none"> • Evaluation/Self-Analysis: E A D B • Commitment to Improvement: E A D B 	<p>Team discussion of scenario. Team recognized teamwork, communication, and proper interventions. Discussion of various interventions (HELPERR and types of heat loss for baby). Discussion of proper IM injection technique and identification of areas for improvement done by team members. Team educated mother on some topics, but</p>

<p>SUMMARY COMMENTS: * = Course Objectives</p> <p>Satisfactory completion of the simulation scenario is a score of “developing” or higher in all areas of the rubric.</p> <p>E= Exemplary</p> <p>A= Accomplished</p> <p>D= Developing</p> <p>B= Beginning</p> <p>Scenario Objectives:</p> <ul style="list-style-type: none"> • Select physical assessment priorities based on individual patient needs. (1, 2)* • Identify risk factors for shoulder dystocia. (1, 2, 3, 4, 5)* • Implement appropriate nursing interventions upon completion of nursing assessment. (1, 2, 5)* • Utilize therapeutic communication and interpersonal skills in the interactions with patients, families, and members of the health team. (3, 5)* • Identify ways in which heat loss occurs in infants. (1, 2, 4, 5)* • Implement appropriate nursing interventions upon completion of nursing assessment that support thermoregulation in the newborn. (1, 2, 5)* 	<p>additional topics discussed in debriefing.</p> <p>You are Satisfactory for this scenario! RH</p> <p>Lasater Clinical Judgement Rubric Comments:</p> <p>Noticing: Regularly observes and monitors a variety of data, including both subjective and objective; most useful information is noticed; may miss the most subtle signs Recognizes most obvious patterns and deviations in data and uses these to continually assess. Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and family.</p> <p>Interpreting: Generally focuses on the most important data and seeks further relevant information but also may try to attend to less pertinent data In most situations, interprets the patient’s data patterns and compares with known patterns to develop an intervention plan and accompanying rationale; the exceptions are rare or in complicated cases where it is appropriate to seek the guidance of a specialist or a more experienced nurse.</p> <p>Responding: Generally displays leadership and confidence and is able to control or calm most situations; may show stress in particularly difficult or complex situations. Generally communicates well; explains carefully to patients; gives clear directions to team; could be more effective in establishing rapport. Interventions are tailored for the individual patient; monitors patient progress closely and is able to adjust treatment as indicated by patient response. Displays proficiency in the use of most nursing skills; could improve speed or accuracy.</p> <p>Reflecting: Independently evaluates and analyzes personal clinical performance, noting decision points, elaborating alternatives, and accurately evaluating choices against alternatives. Demonstrates commitment to ongoing improvement; reflects on and critically evaluates nursing experiences; accurately identifies strengths and weaknesses and develops specific plans to eliminate weaknesses:</p>

EVALUATION OF CLINICAL PERFORMANCE TOOL
Maternal Child Nursing – 2023
Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
