

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2023

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Semester: Fall

Faculty: Frances Brennan, MSN, RN; Amy Rockwell, MSN, RN;
Chandra Barnes, MSN, RN; Nick Simonovich, MSN, RN

Final Grade: Satisfactory/Unsatisfactory

Date of Completion:

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Skills Lab Checklists	Faculty Feedback
Care Map Grading Rubric	Documentation
Administration of Medications	Clinical Reflection
Simulation Scenarios	
Skills Demonstration	
Evaluation of Clinical Performance Tool	
Clinical Discussion Group Grading Rubric	
Lasater Clinical Judgment Rubric	

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
Faculty's Name			Initials
Chandra Barnes			CB
Frances Brennan			FB
Amy Rockwell			AR
Nicholas Simonovich			NS

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated, confident, focuses on the patient, some expenditure of excess energy, within a reasonable time period, appropriate affective behavior, occasional supporting cues, minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U", the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Objective																		
1. Describe how diverse cultural, ethnic, and social backgrounds function as sources of patient, family, and community values. (2,4,6)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:								NA		S								
a. Identify spiritual needs of patient (Noticing).								NA		S								
b. Identify cultural factors that influence healthcare (Noticing).								NA		S								
c. Coordinate care based on respect for patient's preferences, values, and needs (Responding).						S	N/A	S		S								
d. Use Maslow's Hierarchy of needs to determine the care needs of the assigned patient (Interpreting).						S	N/A	S		S								
Clinical Location: Patient age**						CB	CB	CB										
						3T Age: 72	NA	NA		3T Age: 90								

Comments

****Document your clinical location and patient age in the designated box above.**

Week 6(1c,d) – Nice job this week interacting with a patient for the first time in the clinical setting. You were able to respect your patient's preferences, values, and needs when entering the room to obtain vital signs and a head to toe assessment. You used Maslow's to determine the importance of assessing vital signs and an assessment to meet the physiological needs of your patient first, great job! CB

Objective																		
1. Summarize knowledge of anatomy, physiology, chemistry, nutrition, psychosocial and developmental principles in performance of basic physical assessment through use of clinical judgment skills. (3,4, 5)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:						S	N/A	S		S								
a. Perform head to toe assessment utilizing techniques of inspection, palpation and auscultation (Responding).																		
b. Use correct technique for vital sign measurement (Responding).						S	N/A	S		S								
c. Conduct a fall/safety assessment and institute appropriate precautions (Responding).						N/A	N/A	NA		S								
d. Conduct a skin risk assessment and institute appropriate precautions (Responding).								NA		S								
e. Collect the nutritional data of assigned patient (Noticing).								NA		S								
f. Demonstrates appropriate insertion, maintenance, and/or removal of NG tube (Responding).								NA		N/A								
g. Describe the findings and the rationale for diagnostic studies with the nursing implications for assigned patient (Interpreting).								NA		S								
						CB	CB	CB										

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Comments

Week 6(2a,b): This week you were able to use skills learned in the lab and take content learned in theory and combine them to apply your knowledge in the clinical setting. You were successful in obtaining vital signs and a head to toe assessment on a live patient for the first time. You were able to notice your patient had a fever, and you were able to use your clinical judgement to further assess the situation by reviewing their trending vital signs, where you noticed their temperature had been running higher. Great job! CB

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																		
2. Select communication techniques and appropriate boundaries with patients, families, and health care team members. (1,2,3,4,6,7)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:						N/A	N/A	NA		S								
a. Receive report at beginning of shift from assigned nurse (Noticing).						N/A	N/A	NA		S								
b. Hand off (report) pertinent, current information to the next provider of care (Responding).						N/A	N/A	NA		S								
c. Use appropriate medical terminology in verbal and written communication (Responding).						S	N/A	S		S								
d. Report promptly and accurately any change in the status of the patient (Responding).						S	N/A	S		S								
e. Communicate effectively with patients and families (Responding).						S	N/A	S		S								
f. Participate as an accountable health care team member in the provision of patient centered care (Responding).						S	N/A	S		S								
						CB	CB	CB										

Comments

Week 6(3e): Paige, you did a great job communicating effectively with your patient this week! I know this can be challenging for the first time in the clinical setting, however you were able to use appropriate communication skills to learn more about your patient. CB

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																		
3. Exemplify advanced searches in accessing electronic health care information and documenting patient care. (1,4,8)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:						S	N/A	S		S								
a. Document vital signs and head to toe assessment according to policy (Responding).						S	N/A	S		S								
b. Document the patient response to nursing care provided (Responding).						S	N/A	S		S								
c. Access medical information of assigned patient in Electronic Medical Record (Responding).		S				S	N/A	S		S								
d. Demonstrate beginning skill in accessing patient education material on intranet (Responding).		S						S		S								
e. Provide basic patient education with accurate electronic documentation (Responding).								NA		S								
f. Consistently and appropriately post comments for clinical discussion groups on Edvance360 website (Reflection).						S	N/A	S		S								
*Week 2 –Meditech		CB				CB	CB	CB										

Comments

Week 2(4c,d): Satisfactory for listening attentively and actively participating in the Meditech orientation clinical. You showed beginning competence in the ability to access a patient's EHR, document care in an intervention, and locate patient data. You were able to access Lexicomp to locate patient education materials. Additionally, nursing policies and procedures were located on the health system intranet. Great job! NS/CB

Week 6(4 a,c,f): Good job with your documentation of vital signs and a head to toe assessment for the first time on a live patient. My only advice for documentation of the head to toe assessment is to make sure you click on the + sign in the top left corner every time so you don't miss anything and always have the meditech guidelines with you to ensure you are documenting on the correct areas. Also, documenting in your patient's room will help you if there are any areas you may have forgot to assess. Great

job on your first CDG, you met all requirements of the grading rubric, and the proper intext citation for the Potter and Perry textbook is, (Potter et al., 2019). There is a list of APA style references for you on edvance360. CB

*** End-of-Program Student Learning Outcomes**

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																		
4. Exemplify psychomotor skills and nursing care safely using evidence-based practice. (3,4,5,7,8)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:						S	N/A	S		S								
a. Demonstrate correct body mechanics and practices safety measures during the provision of patient care (Responding).																		
b. Apply the principles of asepsis and standard/infection control precautions (Responding).						S	N/A	S		S								
c. Demonstrates appropriate skill with foley catheter insertion, maintenance, and removal (Responding).								NA		N/A								
d. Manage basic patient care situations with evidence of preparation and beginning dexterity (Responding).						S	N/A	S		S								
e. Organize time providing patient care efficiently and safely (Responding).						S	N/A	S		S								
f. Manages hygiene needs of assigned patient (Responding).								NA		S								
g. Demonstrate appropriate skill with wound care (Responding).								NA										
h. Document the location of fire pull stations and fire extinguishers. ** (Interpreting).						S	N/A	S										
						CB	CB	CB										

Comments

****You must document the location of the pull station and extinguisher here for your first clinical experience.** 5h. Fire extinguisher across from room 3036. Fire pull station across from room 3037. **CB**

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																	
5. Develop patient-centered plans of care utilizing the nursing process. (3,4,5,6,7)*																	
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up
Competencies:								NA		S							
a. Utilize clinical judgment skills to develop a patient-centered plan of care (Responding).								CB									

Comments

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective																		
6. Convert basic pharmacology principles into safe medication administration. (3,5,6,7)*																		
Clinical Experience	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Mid-Term	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Make-Up	Final
Competencies:								NA										
a. Identify the action, rationale, dosage, side effects and the nursing implications of medications (Interpreting).								NA										
b. Recognize patient drug allergies (Interpreting).								NA										
c. Practice the 6 rights and 3 checks prior to medication administration (Responding).								NA										
d. Administer oral, intra-muscular, subcutaneous, and intradermal medications using correct techniques (Responding).								NA										
e. Review the patient record for time of last dose before giving PRN medication (Interpreting).								NA										
f. Assess the patient response to PRN medications (Responding).								NA										
g. Demonstrate medication administration documentation appropriately using BMV (Responding).								NA										
*Week 11: BMV								CB										

Comments

* End-of-Program Student Learning Outcomes

Clinical judgment terminology embedded in each competency – noticing, interpreting, responding, reflecting

Objective

2. Exemplify professional conduct through self-reflection, responsibility for learning, and goal setting. (1,5,7)*

[illegible]

**** Strength/weakness reflection (a,b): Must have different written example each week of clinical/lab. You must explain your plan for how you will improve. Example, “I am having a difficult time with obtaining a manual BP. I will get a BP cuff from Amy and practice manual BP’s with at least three members of my family this week.” Please ensure that you answer this section in-depth with your plan of action. Each week must be different.**

Week 6: 8A: My strength for this clinical was getting accurate vital signs and documenting them correctly. Paige, great job utilizing the skills that you have learn and applying your knowledge of meditech to document vital signs correctly. CB

8B: My weakness for clinical was being overly nervous when assessing my first patient. I will continue to practice my skills in the lab, at home and with friends at least twice a week to ensure that I get more comfortable in the clinical setting. Paige, I know that the first time clinical can be overly intimidating and that you are a bag of nerves, but I think you have a great plan in place to ensure that you get your confidence up and that you have a plan moving forward when performing a head to toe assessment. CB

Week 7: 8A: N/A CB

8B: N/A CB

Week 9: 8A: My strength for this clinical was that I overcame my fear of the unknown and answered a few call lights that I had no idea who it was for or what it was. Although it was something as simple as helping a patient to the bathroom or just getting them a blanket, it got me to be a little bit more comfortable in this new healthcare setting.

8B: My weakness for this clinical was navigating through medi-tech to document everything since I am not so familiar with it. I will continue to practice in skills lab with my documenting as well as watch my assigned RN and nursing instructors document to get more comfortable and familiar with documenting everything for my patient as right and accurate as possible.

Simulation Evaluations

<u>Simulation Evaluation</u> Performance Codes: S: Satisfactory U: Unsatisfactory	Simulation #1 (2,3,5,8) *	Simulation #2 (2,3,5,7,8) *
	Date: 11/7/2023 or 11/14/2023	Date: 11/27/2023 or 11/28/2023
Evaluation (See Simulation Rubric)		
Faculty Initials		
Remediation: Date/Evaluation/Initials		

* Course Objectives

- A. Reflect on an area of strength after observing/participating in each simulation scenario.**
- B. Recognize one area for improvement and set a goal to meet this need.**

The goal must include what you will do to improve, how often you will do this, and when you will complete the goal (example- "I forgot to raise the head of the bed when the patient began having trouble breathing. I will review the proper nursing interventions for dyspnea in the textbook and on skyscape twice before the next simulation scenario").

EVALUATION OF CLINICAL PERFORMANCE TOOL
Nursing Foundations – 2023

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature & Date: _____
