

EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student: Nadia Drivas

Final Grade: Satisfactory/Unsatisfactory

Semester: Spring

Date of Completion:

Faculty: Dawn Wikel, MSN, RN, CNE; Rachel Haynes, MSN, RN; Kelly Ammanniti, MSN, RN, CHSE;
Monica Dunbar, DNP, RN; Heather Schwerer, MSN, RN; Nick Simonovich, MSN, RN

Faculty eSignature:

Teaching Assistant: None

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written on the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U". If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Skills Lab Competency Tool & Skills Checklists
Simulation, Prebriefing, & Reflection Journals
Nursing Care Map Rubric
Meditech Documentation
Clinical Debriefing
Clinical Discussion Group Grading Rubric
Evaluation of Clinical Performance Tool
Lasater's Clinical Judgment Rubric & Scoring Sheet
Virtual Simulation Scenarios

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make-up (/Date/Time)

Faculty's Name	Initials
Kelly Ammanniti	KA
Monica Dunbar	MD
Rachel Haynes	RH
Heather Schwerer	HS
Nick Simonovich	NS
Dawn Wikel	DW

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe, accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe; accurate each time; skillful in parts of behavior; focuses more on the skill and self rather than the patient; inefficient, uncoordinated, anxious, worried, flustered at times; expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues; faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

***Grey shaded boxes do not need a student evaluation rating or faculty/teaching assistant initials.**

Date	Care Map Top Nursing Priority	Evaluation & Instructor Initials	Remediation & Instructor Initials	Remediation & Instructor Initials

Note: Students are required to submit two satisfactory care maps over the course of the semester. If the care map is not evaluated as satisfactory upon initial submission, the student must revise the care map based on instructor feedback/remediation and resubmit. A maximum of two remediation attempts will be provided for a single care map and if still unsatisfactory, the student will be required to start fresh and initiate a care map on a new patient. At least one care map must be submitted prior to midterm.

Objective

1. Illustrate correlations to demonstrate the pathophysiological alterations in adult patients with medical-surgical problems. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S														
a. Analyze the involved pathophysiology of the patient's disease process. (Interpreting)			S														
b. Correlate patient's symptoms with the patient's disease process. (Interpreting)			S														
c. Correlate diagnostic tests with the patient's disease process. (Interpreting)			S														
d. Correlate pharmacotherapy in relation to the patient's disease process. (Interpreting)			S														
e. Correlate medical treatment in relation to the patient's disease process. (Interpreting)			S														
f. Correlate the nutritional needs in relation to patient's disease process. (Interpreting)			S														
g. Assess developmental stages of assigned patients. (Interpreting)			S														
h. Demonstrate evidence of research in being prepared for clinical. (Noticing)	S		S														
Indicate your clinical site as well as your patient's age and primary medical diagnosis in this box weekly.	Meditech, FSBS, IV Pump Sessions																
Instructors Initials	DW																

Comments:

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Week 1 (1h)- During week 1, the Meditech, FSBS and IV pump sessions were all considered clinical hours. You came prepared to each of them and demonstrated competency accordingly. For this reason, you have earned an S for this competency. DW

Objective

2. Perform physical assessments as a method for determining deviations from normal. (3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S														
a. Perform inspection, palpation, percussion, and auscultation in the physical assessment of assigned patient. (Noticing)			S														
b. Conduct a fall assessment and implement appropriate precautions. (Noticing)			S														
c. Conduct a skin assessment and implement appropriate precautions and care. (Noticing)			S														
d. Communicate physical assessment. (Responding)			S														
e. Analyze appropriate assessment skills for the patient's disease process. (Interpreting)			S														
f. Demonstrate skill in accessing electronic information and documenting patient care. (Responding)	S		S														
	DW																

Comments:

Week 1 (2f)- By attending the Meditech clinical update & providing your full, undivided attention during the demonstration of documenting insulin, IV solutions, and the Meditech 2.2 upgrades, you are satisfactory for this competency. NS

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																	
3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*																	
Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:	S		S														
a. Perform standard precautions. (Responding)																	
b. Demonstrate nursing measures skillfully and safely. (Responding)	S		S														
c. Demonstrate promptness and ability to organize nursing care effectively. (Responding)			S														
d. Appropriately prioritizes nursing care. (Responding)			S														
e. Recognize the need for assistance. (Reflecting)			S														
f. Apply the principles of asepsis where indicated. (Responding)	S		S														
g. Demonstrate appropriate skill with Foley catheter insertion, maintenance, & removal (Responding)			n/a														
h. Implement DVT prophylaxis (early ambulation, SCDs, TED hose, administer enoxaparin or heparin) based on assessment and physicians' orders (Responding)			S														
i. Identify the role of evidence in determining best nursing practice. (Interpreting)	S		S														
j. Identify recommendations for change through team collaboration. (Reflecting)			S														
	DW																

Comments:

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																	
3. Execute safety precautions in the implementation of quality, patient-centered care and evidence-based nursing interventions. (2,3,4,5,8)*																	
Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S														
k. Administer PO, SQ, IM, or ID medications observing the rights of medication administration. (Responding)			S														
l. Ensure patient safety through proper use of EHR, IV flow sheet, and BMV. (Responding)			S														
m. Calculate medication doses accurately. (Responding)			S														
n. Administer IV therapy, piggybacks, IV push, and/or adding solution to a continuous infusion line. (Responding)			S														
o. Regulate IV flow rate. (Responding)	S		S														
p. Flush saline lock. (Responding)			S														
q. D/C an IV. (Responding)			n/a														
r. Monitor an IV. (Noticing)	S		S														
s. Perform FSBS with appropriate interventions. (Responding)	S		S														
	DW																

Comments:

Week 1 (3o,r)- During the IV pump session, you actively participated in the programming and maintenance of the Alaris IV pump. Additionally, you accurately identified abnormal IV site assessment data with an IV site monitoring activity. HS
 (3s)- The student was able to satisfactorily perform a Quality Control check of the glucometer as well as demonstrate skills and knowledge required for proper fingerstick blood glucose measurement with the ACCU-CHEK Inform II glucometer. DW

Objective

4. Use therapeutic communication techniques to establish a baseline for nursing decisions. (1,5,7)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S														
a. Integrate professionally appropriate and therapeutic communication skills in interactions with patients, families, and significant others. (Responding)																	
b. Communicate professionally and collaboratively with members of the healthcare team using hand-off communication techniques. (SBAR) (Responding)			S														
c. Report promptly and accurately any change in the status of the patient. (Responding)			S														
d. Maintain confidentiality of patient health and medical information. (Responding)			S														
e. Consistently and appropriately post comments in clinical discussion groups. (Reflecting)			S														
f. Obtain report, from previous care giver, at the beginning of the clinical day. (Noticing)			S														
g. Provide a clear, organized hand-off report to your patient's next provider of care. (Responding)			S														

Comments:

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Implement patient education based on teaching needs of patients and/or significant others. (1,6)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
Competencies:			S														
a. Describe a teaching need of your patient.** (Reflecting)																	
b. Utilize appropriate terminology and resources (Lexicomp, UpToDate, Dynamic Health, Skyscape) when providing patient education. (Responding)			S														

****5a & b- You must address this competency in the comments below for all clinicals on 3T, 4N, or Rehab- describe the patient education you provided; be specific- include the topic, method of delivery, reason for teaching need, materials to support learning through above resources (if applicable), and method used to validate learning.**

Example: Education related to orthostatic hypotension (changing positions slowly by sitting at the side of the bed or chair for a few minutes before moving to another position, utilizing the walker when ambulating) was provided to my patient through discussion and demonstration. This was necessary to maintain patient safety as he/she was experiencing a drop-in blood pressure and dizziness when getting out of bed. A patient education sheet was printed from Lexicomp and given to the patient. The teach back method was used to validate learning.

Comments:

5a& 5b- Education related to fall; stand up slowing, clutter less environment, using equipment to move like a walker or cane, appropriate footwear were some the topics that was provided to the patient. To the patient during her education. This teaching will help the prevent the patient from having a fall. I used the education resource on skyscape and the RN gave her Firelands discharge teaching paperwork. We also used the teach-back method with the lady. This helped us to review the areas she was still having problem understanding.

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

6. Implement patient-centered plans of care utilizing the nursing process, clinical judgment, and consideration for cultural, ethnic, and social diversity. (2,3,4,5)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Develop and implement a priority care map utilizing the nursing process and clinical judgment. (Noticing, Interpreting, Responding, Reflecting)			S														
b. Identify factors associated with Social Determinants of Health (SDOH) &/or cultural elements that have the potential to influence patient care.** (Noticing, Interpreting, Responding, Reflecting)			S														

****6b- You must address this competency in the comments on a weekly basis. For all clinicals - provide an example of SDOH &/or cultural elements that influenced your patient's care; be specific.**

6b- my patient fell, a cultural element that cause her to fall was the fear of falling. She was walking down the stairs and didn't want to miss a step, then she took too little of steps and fall. It is normal for weaker adults to have this fear. When living at home, they fear of falling and no one being there to help them.

Comments:

See Care Map Grading Rubrics below.

Objective

7. Illustrate professional conduct including self-examination, responsibility for learning, and goal setting. (7)*

Weeks of the Course	1	2	3	4	5	6	7	8	Midterm	9	10	11	12	13	Make Up	Make Up	Final
a. Reflect on an area of strength. ** (Reflecting)	S		S														
b. Reflect on an area for improvement and set a goal to meet this need.** (Reflecting)	S		S														
c. Demonstrate evidence of growth, initiative, and self-confidence. (Responding)	S		S														
d. Follow the standards outlined in the FRMCSN Student Code of Conduct Policy. (Responding)	S		S														
e. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S		S														
f. Exhibit professional behavior i.e. appearance, responsibility, integrity, and respect. (Responding)	S		S														
g. Demonstrate the ability to give and receive constructive feedback. (Responding)	S		S														
h. Actively engage in self-reflection. (Reflecting)	S		S														
	DW																

****7a and 7b: You must address these competencies in the comments section on a weekly basis. Please write a different comment each week. Remember that a goal includes what you will do to improve, how often you will do it, and when you will do it by (example- "I had trouble remembering to do the three checks of the six medication rights prior to administering medications. I will review the six rights and medication administration content in the textbook twice before the next clinical. Additionally, I will request to meet with my clinical faculty member to practice preparing and administering at least three medications before the next clinical."**

Comments:

Week 1- 7a- One area of strength is programing the IV pump and spiking the bag. **Agreed! You were efficient and confident. I can tell you do this on a regular basis for work. Keep up the great work! DW**

*End-of-Program Student Learning Outcomes

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

7b- I need to work on asking question and feeling less confidence. I think my confidence in my skills makes me feel like I don't need to work as hard. One goal would be to remember I am learning and to take advice from other. I will ask 3 questions in the next clinical. Also, I will a peer for help if needed before lap/clinical/sim. I appreciate this reflection, Nadia! Regardless of the fact that you are in a RN program, nurses always have something new to learn, so having a mindset of lifelong learning will serve you well. DW

Week 2- 7a- A strength I had this week was performing trach care, I haven't done it in months, but I still remembered. I did ask question like my goal was last week. Excellent! DW

7b- I need to work on talking to people and being a team player. I'm used to doing everything alone, it feels weird to me to help someone that is struggling. In trach lab I did it, with some pushing from Dawn. My goal for next week is to help and talk to the other classmates. It might seem like a small goal to say, but for me this is huge. I'm insecure about my voice so I just don't say anything. I can appreciate that 100%. I want you to know that from an outsider's perspective, when you do push yourself out of your comfort zone, I have witnessed multiple occasions just within the last two weeks where you were engaging your classmates in an extremely kind, outgoing and inspiring way. Who knows, maybe in doing this, you could find a lifelong friend. 😊 Thank you, Nadia! DW

Side note: On weeks that you do not have clinical (ex. Week 11 and 13), you do not need to write a strength and goal for improvement. Regardless, I'm really glad you did. It's always important to reflect on past experiences for future growth. DW

Week 3 7a- A strength I had this week was on my medication pass. I do it every day at work, but its different having someone watch and question on why you are doing that. 7b- I need to work on the action of some of the medication. My goal throughout this week I will review the blood pressure medication twice before my next clinical on Wednesday.

Student Name:				Course Objective:			
Date or Clinical Week:							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)		
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)		
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)		
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete

Comments:

Week 1

(Insulin)- You were able to correctly prepare an insulin pen and administer subcutaneous insulin. Insulin requirements were accurately identified and calculated through the corrective scale and carbohydrate coverage orders. MD

(Assessment)- You were able to satisfactorily demonstrate the Basic Head to Toe Assessment during lab. KA/RH

(IV Math)-You satisfactorily participated in the IV Math learning session on 1/9/24 as well as the assigned IV Math practice questions and the IV Math Application lab on 1/10/24. KA/DW

(Lab Day)- You satisfactorily completed the mandatory lab review of nursing foundational skills. This was achieved through simulating care for a patient in a scenario requiring competency in assessment, communication, medication administration (including PO and IM injection), nasogastric tube insertion and maintenance, patient mobility and hygiene, use of PPE for Contact Isolation, wound care, foley insertion, and development of nursing notes. NS/MD

(IV Skills)- You have satisfactorily completed IV lab including a saline flush, IV push medication administration, priming and hanging a primary and secondary IV solution, adjusting a flow rate to run by gravity, discontinuing IV solution, and monitoring the IV site for infiltration, phlebitis, and signs of complication. DW

Week 2

(Trach Care & Suctioning) - During this lab, you satisfactorily demonstrate competence with tracheostomy care and tracheostomy suctioning. Nice job overall for both skills! No prompting was required for either skill and sterility was maintained. For tracheal suctioning, be sure to auscultate the lungs under the gown and have better

control of the catheter as you don't risk contaminating it on the patient's chest or towel. During trach care, remember to step back and avoid cleaning the inner cannula over the sterile field. Otherwise, keep up the good work!

DW/RH/NS/HS

(EBP Lab)- You actively participated in the online searching process for evidence-based practice literature, as well as reviewing example articles to determine appropriate selection and information needed when summarizing a research article. KA/LK

EVALUATION OF CLINICAL PERFORMANCE TOOL
Medical Surgical Nursing – 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:

Student eSignature and Date:

12/27/2023
