

The highest level of education I'd like to complete and why.

The highest level of education I'd like to complete is NP- masters degree. I want to achieve this because I have always believed this is what I'd like to do since I was a little girl. I would love to specialize in Geriatrics. I have always loved caring for older individuals and have worked on the inpatient rehabilitation floor at Firelands for almost 2 years now and have loved watching people recover and get stronger.

When I was younger I helped care for my great grandmother throughout her last years and enjoyed it very much. It was a great feeling having such a large impact on someone. I like the thought of being a Nurse Practitioner as they often work alone, but often have many resources and individuals to collaborate with. I also like the idea of being able to care for individuals throughout all stages of their recovery and treatment.
