

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

Student:

Final Grade: Satisfactory/Unsatisfactory

Semester: Spring

Date of Completion:

Faculty: Frances Brennan, MSN, RN; Amy M. Rockwell, MSN, RN
Chandra Barnes, MSN, RN; Brian Seitz, MSN, RN, CNE
Brittany Lombardi, MSN, RN, CNE

Faculty eSignature:

DIRECTIONS FOR USE:

Each week the students evaluate themselves based on the competencies using the performance code on page 2. The performance code includes the terms **Satisfactory (S)**, **Needs Improvement (NI)**, **Unsatisfactory (U)**, and **Not Available (NA)**. The faculty member will initial if in agreement with the student's evaluation. If there is a discrepancy in the performance code evaluation between the student and the faculty member, a note is written in the comment section by the faculty member with the rationale for the evaluation. All competencies must be rated a "S, NI, U, or NA". If the student does not self-rate, then it is an automatic "U". A student who submits the clinical evaluation tool late will be rated as "U" in the appropriate competency(s) for that clinical week. Whenever a student receives a "U" in a competency, it must be addressed with a comment as to why it is no longer a "U" the following week. If the student does not state why the "U" is corrected, it will be another "U" until the student addresses it. All clinical competencies are critical to meeting the objectives of the course. If the final performance code is unsatisfactory or needs improvement in any one of the competencies, a grade of unsatisfactory is given. If a pattern of unsatisfactory performance occurs after performing the competency satisfactorily, this also constitutes a grade of unsatisfactory. An unsatisfactory or needs improvement as a final score in any single competency results in a clinical course grade of unsatisfactory; this is a failure of the course. The terms Satisfactory and Unsatisfactory will be used in evaluating the final grade or clinical course performance.

METHODS OF EVALUATION:

Clinical Assignments
Completion of Patient Care
Meditech Documentation
Observation of Clinical Performance
Evaluation of Clinical Performance Tool
Onsite Clinical Debriefing
Clinical Discussion Rubric
Preceptor Feedback
Nursing Care Map Rubric
Skills Lab Checklists/Competency Tool
Lasater Clinical Judgment Rubric
Virtual Simulation scenarios
Pathophysiology Grading Rubric
SBAR/Physician Orders Rubric
Hand-Off Report Competency Rubric

ABSENCE (Refer to Attendance Policy)

Date	Number of Hours	Comments	Make Up (Date/Time)
01/30/2024	8	Missed 4P clinical due to illness	02/07/2024 0700-1500
Initials	Faculty Name		
CB	Chandra Barnes, MSN, RN		
FB	Fran Brennan, MSN, RN		
BL	Brittany Lombardi, MSN, RN, CNE		
AR	Amy Rockwell, MSN, RN		
BS	Brian Seitz, MSN, RN, CNE		

PERFORMANCE CODE

SATISFACTORY CLINICAL PERFORMANCE

Satisfactory (S): Safe; accurate each time, efficient, coordinated; confident, focuses on the patient; some expenditure of excess energy; within a reasonable time period; appropriate affective behavior; occasional supporting cues; minimal faculty feedback needed related to written clinical work.

UNSATISFACTORY CLINICAL PERFORMANCE

Needs Improvement (NI): Safe, accurate each time, skillful in parts of behavior, focuses more on the skill and self rather than the patient, inefficient, uncoordinated, anxious, worried, and flustered at times, expends excess energy within a delayed time period, frequent verbal and occasional physical directive cues in addition to supportive cues, faculty feedback required in several areas of clinical written work.

Unsatisfactory (U): Failure to achieve the course competency, safe but needs faculty reminders constantly, not always accurate, unskilled, inefficient, considerable expenditure of excess energy, anxious, disruptive or omitting behaviors, focus on skills and/or self, continuous verbal and frequent physical cues, unsafe, performs at risk to patient/clients/others, unable to function, incomplete, erroneous, faulty, illegible clinical written work, no feedback sought from faculty or response to feedback not evident in submitted written work. If the student does not self-rate a competency the competency is graded "U." A "U" in a competency must be addressed in writing by the student in the Evaluation of Clinical Performance tool. The student response must include how the competency has been or will be met at a satisfactory level. If the student does not address the "U," the faculty member (s) will continue to rate the competency unsatisfactory.

OTHER

Not Available (NA): The clinical experience which would meet the competency was not available.

Grey shaded weekly competency boxes do not need a student evaluation rating or faculty/teaching assistant initials.

Objective

1. Engage in the coordination and delivery of nursing care measures to groups of patients and to patients with complex problems. (1,3,4,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:																		
a. Manage complex patient care situations with evidence of preparation and organization. (Responding)	S	S	S															
b. Assess comprehensively as indicated by patient needs and circumstances. (Noticing)	S	S	S															
c. Evaluate patient's response to nursing interventions. (Reflecting)	S	S	S															
d. Interpret cardiac rhythm; determine rate and measurements. (Interpreting)	S	S	S															
e. Administer medications observing the six rights of medication administration. (Responding)	S	S	S															
f. Perform venipuncture skill with beginning dexterity and evidence of preparation. (Responding)	NA	NA	NA															
g. Respond appropriately to equipment alarms; IV pumps, ECG monitors, ventilators, etc. (Responding)	S	S	S															
Faculty Initials	CB	CB	BL															
Clinical Location	4C 63 M 65 F	4C 63 M	4P 79 F															

Comments:

Week 2(1a,b,d,e,g): Great job this week managing complex patient situations while in the ICU. You were able to perform thorough assessments, implement interventions, and evaluate your patient's response to those interventions. You were able to administer medications using the six rights of medication administration and utilized the BMV system. You did a great job responding to different alarms related to your patient's. CB

Week 3(1a,e): Great job this week managing complex care situations. You did a great job being prepared for clinical, and ensuring that your assessments were detailed and thorough. You did a great job administering medications to your patient this week (IV, IV push, SQ, IM), following the six rights of medication administration. Great job! CB

Week 4-1(a-e,g) Great job this week managing complex patient care situations. Your care was very well organized, and you did a great job with your time management. All six rights of medication administration were followed during all medication passes. You administered PO, IV and IVP medications. Satisfactory completion of your ECG booklet in which you were able to practice determining rates, measurements and interpreting cardiac rhythms. Excellent job overall monitoring your patient very closely to ensure positive patient outcomes. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective																		
2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)*																		
Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding)																		
b. Monitor for potential risks and anticipate possible early complications. (Noticing, Interpreting, Responding)	S	S	S															
c. Recognize changes in patient status and take appropriate action. (Noticing, Interpreting, Responding)	S	S	S															
d. Formulate a prioritized nursing plan of care utilizing clinical judgment skills. (Noticing, Interpreting, Responding, Reflecting) *	S	S	S															

*End-of- Program Student Learning Outcomes

e. Respect patient and family perspectives, values, and diversity when planning, giving, and adapting care. (Responding)	S	S	S															
Faculty Initials	CB	CB	BL															

***When completing the 4T Care Map CDG refer to the Care Map Rubric**

Comments:

Week 2(2a,b,d,e): Great job this week formulating a care map related to your patient. You were able to notice abnormal assessment findings to interpret your patient's priority problem, and recognize potential complications related to that problem. You were Satisfactory on your care map, please see the grading rubric below. You did a great job participating in debriefing about cultural diversity and racial inequalities that were related to your patient. CB

Week 3(2a,e): Olivia, great job completing your pathophysiology, you were Satisfactory, please see the grading rubric below. You do a great job respecting your patients and family's needs, ensuring that optimal care is provided around their needs. CB

Week 4-2(b,c) Great job discussing how you monitored your patient for potential risks and anticipated early complications. You also did a great job discussing changes in patient status you noticed, as well as how you responded and took action. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

3. Plan leadership experiences with a mentor to impact team performance, patient safety, and quality indicators. (1,3,5,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Critique communication barriers among team members. (Interpreting)																		
b. Participate in QI, core measures, monitoring standards and documentation. (Interpreting & Responding)	S	S	S															
c. Discuss strategies to achieve fiscal responsibility in clinical practice. (Responding)	S	S	S															
d. Clarify roles & accountability of team members related to delegation. (Noticing)	S	S	S															
e. Determine the priority patient from assigned patient population. (Interpreting) (Patient Mgmt.)	NA	NA	NA															
Faculty Initials	CB	CB	BL															

Comments:

Week 2(3c): Great job this week actively participating in debriefing, discussing different strategies to achieve fiscal responsibility in the clinical setting. CB

Week 3(3a): Great job in debriefing this week discussing communication barriers you witnessed between healthcare team members while at clinical. CB

Week 4-3(b) Great job participating in the discussion of quality indicators and core measures. BL

Objective

4. Plan for a future in the nursing profession by analyzing information concerning employment, licensure, ethical, and legal issues in nursing focusing on accountability and respecting patient autonomy. (1,2,4,5,7)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Critique examples of legal or ethical issues observed in the clinical setting. (Interpreting)																		
b. Engage with patients and families to make autonomous decisions regarding healthcare. (Responding)	NA S	S	S															
c. Exhibit professional behavior in appearance, responsibility, integrity and respect. (Responding)	S	S	S															
Faculty Initials	CB	CB	BL															

Objective 4a: Provide a comment for the highlighted competency each week. If no clinical experiences, put "NA" for that week.

Comments:

Week 2: This was not quite an issue yet, however, many of the healthcare personnel I worked amongst on Wednesday believed that my patient would not wake back up after his cardiac arrest due to an anoxic brain injury. He was an organ donor so Life Bank was contacted, however, his family can choose not to donate his organs even if it would benefit for the greater good. This kind of falls under beneficence in the way that donating his organs would be following what the patient wanted and also helping other patients in need. It also falls under the ethical principle of "utility," in which "actions are to be judged by their usefulness" (Broome, 2008).

Broome, John. "Utility." Cambridge University Press. 05 December 2008. <https://www.cambridge.org/core/journals/economics-and-philosophy/article/abs/utility/56CF937C558E9733551694609069B2E1>

Week 2(4a): Olivia, this is a great example of a legal and ethical issue. I know that I have had patient's in this situation, and this is why we discuss the importance of having all wishes documented, and having someone that will stand by your wishes as a designated POA. CB

Week 3: I had the same patient as last week pertaining to the organ donation issue. He was not brain dead and has since been extubated, however, he sustained an anoxic brain injury that has altered his memory and orientation. His daughter is not grasping how severe his condition is and is looking for quick answers and was expecting for him to be discharged home so she can go back to Florida. However, he requires placement somewhere for continued care and I worry that the daughter will place him in the cheapest and closest facility without doing any research to see where he would fit best. She also changed his code status to DNRCCA without intubation because she states "This isn't what he would want."

Week 3(4a): Unfortunately, you are going to see this a lot in your career. Families sometimes don't understand that it takes time to find answers and see if a patient can recover to what life was before becoming sick. Always remember the best thing you can do for family members is educate them on what is going on and keep them in the loop of what is happening. CB

*End-of- Program Student Learning Outcomes

Week 4: Bri's patient had quite a bit going on with him and while Bri is an LPN, she is still a nursing student and the patient's primary nurse should have been assessing him and re-assessing him more often than she was. Had anything happened to that patient, it would've fallen on the primary nurse, which could bring up a multitude of different legal issues. While I usually try to search for legal/ethical issues that occur amongst patient's and their families, I thought this one was an important one to highlight as it gives us students a good example of how we should not be as nurses. Olivia, unfortunately the primary nurse for Bri's patient this week gave us many examples to identify for legal and ethical issues. The nurse never went into the patient's room to do an assessment; therefore, she was falsifying the patient's medical record documenting on all of the interventions that she had not even completed herself. Its unfortunate you both had to witness this, but as you mentioned, there is something to be learned from this situation as well. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

Objective

5. Construct methods for self-reflection and critiquing healthcare systems, processes, practices and regulations on a weekly basis. (7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Reflect on your overall performance in the clinical area for the week. (Responding)	S	S	S															
b. Demonstrate initiative in seeking new learning opportunities. (Responding)	S	S	S															
c. Describe factors that create a culture of safety (error reporting, communication, & standardization, etc. (Interpreting)	S	S	S															
d. Maintain the principles of asepsis and standard/infection control precautions (Responding)	S	S	S															
e. Practice use of standardized EBP tools that support safety and quality. (Responding)	S	S	S															
f. Utilize faculty feedback to improve clinical performance. (Responding & Reflecting)	S	S	S															
Faculty Initials	CB	CB	BL															

Comments:

Week 2(5c,e): Good job actively participating in debriefing discussing factors that create a culture of safety for patients and EBP tools that you utilized to care for your patient's during clinical. CB

Week 3(5a): Olivia, you do a great job seeking opportunities to learn. You are very engaged during clinical and always ask appropriate questions so that you understand. Keep up all your hard work! CB

Week 4-5(b,c) Olivia, you do an excellent job working independently and taking initiative in completing nursing interventions for your patient. Great job discussing actions you took to create a culture of safety for your patient in your CDG this week. BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

6. Engage with members of the healthcare team, patients, families, faculty, and peers through written, verbal and nonverbal methods, and by utilizing computer technology. (1,2,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid-term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Establish collaborative partnerships with patients, families, and coworkers. (Responding)																		
b. Teach patients and families based on readiness to learn and discharge learning needs. (Interpreting & Responding)	NA S	S	S															
c. Collaborate and communicate with members of the healthcare team, patients, and families to achieve optimal patient outcomes. (Responding)	S	S	S															
d. Deliver effective and concise hand-off reports. (Responding)	S	S	S															
e. Document interventions and medication administration correctly in the electronic medical record. (Responding)	S	S	S															
f. Consistently and appropriately posts in clinical discussion groups. (Responding and Reflecting)	S	S	S															
Faculty Initials	CB	CB	BL															

Comments:

Week 2(6b,d): I changed competency 6b to a "S" because you did educate your patient while administering medications. Your patient did not know the name or reasons for medications, but you were able to provide that information. Also, great job with your hand-off report, you were Satisfactory scoring a 30/30 per the hand-off report rubric. You provided a very thorough and detailed report on your patient, good job! CB

Week 3(6a,b,c,f): Great job this week collaborating with peers and bedside nurses to achieve optimal patient outcomes. Good job with your documentation this week, it was very thorough and completed on time. Your CDG was Satisfactory, meeting all requirements. CB

Week 4-6(e) Excellent job with all your documentation this week in clinical. Your documentation was done in a timely manner and accurate. 6(f) Satisfactory completion of your CDG this week. Keep up the great work! BL

Clinical Judgment Terminology: Noticing, Interpreting, Responding, Reflecting

*End-of- Program Student Learning Outcomes

Objective

7. Devise methods utilized by nursing to develop the profession, advance the knowledge base, ensure accountability, and improve the outcomes of care delivery.
(1,3,4,6,7,8)*

Weeks of Course:	2	3	4	5	6	7	8	Make up	Mid- term	9	10	11	12	13	14	15	Make up	Final
Competencies:	S	S	S															
a. Value the need for continuous improvement in clinical practice based on evidence. (Responding)																		
b. Accountable for investigating evidence-based practice to improve patient outcomes. (Responding)	S	S	S															
c. Comply with the FRMCSN "Student Code of Conduct Policy." (Responding)	S	S	S															
d. Incorporate the core values of caring, diversity, excellence, integrity, and "ACE"- attitude, commitment, and enthusiasm during all clinical interactions. (Responding)	S	S	S															
Faculty Initials	CB	CB	BL															

Comments:

Week 3(7d)- Great job displaying a great attitude, commitment to provide optimal care, and enthusiasm for the caring of individuals at a very vulnerable and often difficult time. CB

Week 4-7(a,b) You researched and summarized an interesting EBP article in your CDG titled "Risk Stratification of CVD in Type 2 Diabetes." Excellent job! BL

Remediation: Date/Evaluation/Initials	NA	NA	NA	NA	NA	NA	NA	NA	NA	NA

***Course Objectives**

Comments:

Meditech Documentation: Satisfactory participation of assessment documentation including physical re-assessment, safety and fall assessment, RN mechanical ventilator assessment, IV location assessment, and documentation editing. Great job! FB

Physician Orders/SBAR: Satisfactory completion of physician's order lab per the SBAR skills competency rubric: phone call to physician with SBAR report, receiving and reading back multiple physician orders, and hand-off report given to the next student in rotation. Discussion of the treatment, medications, and plan of care for a patient experiencing NSTEMI and STEMI. CB/BS

Prioritization/Delegation: Satisfactory completion of the prioritization and delegation skills lab. You satisfactorily prioritized care for multiple patients using multiple methods (e.g. Maslow's hierarchy of needs, ABC, Nursing Process, etc.). You were able to appropriately delegate nursing tasks for patients, and you actively participated in the group discussion on delegation of nursing tasks. Great job! BL

Resuscitation: Satisfactory participation in the practice of Hands-Only CPR, discussion regarding use of and ventilation with bag-valve mask/Ambu bag, and review of crash cart and Code Blue team duties and documentation. AR

IV Start: Satisfactory participation in the IV Start lab, including practice with technique, initiation and discontinuation of IV site, and placement of IV dressing. FB/BL/CB/BS

Blood Admin/IV Pumps: Satisfactory completion of practice with blood administration safety checks and quality assurance audit. Great job with IV pump practice, the use of the medication library, and pump set up of primary and secondary IV medication infusion. AR

Central Line Dressing Change: Satisfactory central line dressing change participation providing proper technique guidelines, maintenance of central line ports, and line flushing. FB

Ports/Blood Draw: You were satisfactory in accessing and de-accessing an infusaport device, demonstrated proper technique on how to draw blood from a CVAD, and properly labeled a blood tube per hospital policy. Great job! CB

Head to Toe Assessment: Satisfactory completion of the Head to Toe Assessment. Great job! BL/BS

ECG/Telemetry Placements/Hand-off report/CT: Satisfactory participation with review of monitoring tutorial and placement of ECG/Telemetry patches and leads; satisfactory participation in review of Chest Tube/Atrium tutorial; satisfactory completion of handoff report activity. BL/BS

ECG Measurements: Satisfactory participation in and practice of ECG measurements during the ECG Measurements Lab. You accurately measured and interpreted a 6-second rhythm strip for Normal Sinus Rhythm. Great job! AR

Care Map Evaluation Tool**
AMSN
2024

Date	Nursing Priority Problem	Evaluation & Instructor Initials	Remediation & Instructor Initials
Jan. 16, 2024	Impaired Gas Exchange	S/CB	NA

** AMSN students are required to submit one satisfactory care map (CDG) during the 3-week 4T clinical rotation. If the care map is not evaluated as satisfactory upon initial submission, the student has one opportunity to revise the care map based on instructor feedback.

Comments:

Firelands Regional Medical Center School of Nursing
Care Map Grading Rubric
AMSN
2024

Student Name: Olivia Arthur				Course Objective: Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment.			
Date or Clinical Week: Jan. 16, 2024-Week 2							
Criteria		3	2	1	0	Points Earned	Comments
Noticing	1. Identify all abnormal assessment findings (subjective and objective); include specific patient data.	(lists at least 7*) *provides explanation if < 7	(lists 5-6)	(lists 5-7 but no specific patient data included)	(lists < 5 or gives no explanation)	3	Great job noticing abnormal assessment findings, labs, and diagnostic testing for your patient. My only suggestion for this portion of your caremap is that you include all abnormal assessment findings, examples including skin assessment and mobility.
	2. Identify all abnormal lab findings/diagnostic tests; include specific patient data.	(lists at least 3*) *provides explanation if < 3		(lists 3 but no specific patient data included)	(lists < 3 or gives no explanation)	3	
	3. Identify all risk factors relevant to the patient.	(lists at least 5*) *provides explanation if < 5	(lists 4)	(lists 3)	(lists < 3 or gives no explanation)	3	
Interpreting	4. List all nursing priorities and highlight the top priority problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	2	All nursing priorities that are related to your patient should be listed. I would have also included chronic pain, deficient knowledge related to medications, risk for falls, risk for decreased cardiac perfusion, risk for infection, and risk for injury. You did a great job correlating all of your abnormal assessments to your priority problem of impaired gas exchange. My only suggestions is highlighting Hx of mediastinal mass because that
	5. Highlight all of the related/relevant data from the Noticing boxes that support the top priority nursing problem.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	6. Identify all potential complications for the top nursing priority problem.	(lists at least 3)	(lists 2)		(lists < 2)	3	
	7. Identify signs and symptoms to monitor for each complication.	(lists at least 3)	(lists 2)		(lists < 2)	3	

*End-of- Program Student Learning Outcomes

							is the reason she had the procedure performed and it definitely correlates to impaired gas exchange. Good job listing potential complications of your priority problem and including s/sx of each of those potential complications.
Responding	8. List all nursing interventions relevant to the top nursing priority.	> 75% complete	50-75% complete	< 50% complete	0% complete	3	Good job listing nursing interventions for your patient related to impaired gas exchange. These interventions are prioritized, individualized, and realistic, including a frequency and rationale.
	9. Interventions are prioritized	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	10. All interventions include a frequency	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	11. All interventions are individualized and realistic	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
	12. An appropriate rationale is included for each intervention	> 75% complete	50-75% complete	< 50% complete	0% complete	3	
Reflecting	13. List all of the highlighted reassessment findings for the top nursing priority.	>75% complete	50-75% complete	<50% complete	0% complete	2	Good job reflecting on abnormal assessment findings. Although lab and diagnostic testing may have not changed, you should reflect on all highlighted findings from the first two boxes on the caremap. Terminating the plan of care is appropriate for your patient considering she was being discharged.
	14. Evaluation includes one of the following statements: - Continue plan of care - Modify plan of care - Terminate plan of care	Complete			Not complete	3	
Total Possible Points= 42 points 42-33 points = Satisfactory							Total Points: 40/42

32-21 points = Needs Improvement* < 21 points = Unsatisfactory* *Total points adding up to less than or equal to 32 points require revision and resubmission until Satisfactory. Refer to the course specific requirements for resubmission deadlines. Faculty/Teaching Assistant Comments: Olivia, you did a great job on your caremap for 4T. You were thorough and included appropriate data that correlated with a priority problem of impaired gas exchange.	Faculty/Teaching Assistant Initials: CB
--	---

Pathophysiology Grading Rubric
Firelands Regional Medical Center School of Nursing
Advanced Medical Surgical Nursing
2024

Student Name: **Olivia Arthur**

Clinical Date: **1/23-24/2024**

1. Provide a description of your patient including current diagnosis and past medical history. (4 points total) - Current Diagnosis (2)-2 - Past Medical History (2)-2	Total Points: 4 Comments: Great job discussing your patient's current diagnosis and past medical history.
2. Describe the pathophysiology of your patient's current diagnosis. (6 points total) Pathophysiology-what is happening in the body at the cellular level (6)-6	Total Points: 6 Comments: Excellent job! Pathophysiology is detailed and accurate.
3. Correlate the patient's current diagnosis with presenting signs and symptoms. (6 points total) - All patient's signs and symptoms included (2)-2 - Explanation of what signs and symptoms are typically expected with this current diagnosis (Do these differ from what your patient presented with?) (2)-2 - Explanation of how all patient's signs and symptoms correlate with current diagnosis. (2)-2	Total Points: 6 Comments: All patient's signs and symptoms included with detailed explanation of correlation to current diagnosis. Great job discussing the signs and symptoms that are typically expected with a patient who is diagnosed with this disease.
4. Correlate the patient's current diagnosis with all related labs. (12 points total) - All patient's relevant lab result values included (3)-3 - Rationale provided for each lab test performed (3)-3 - Explanation provided of what a normal lab result should be in the absence of current diagnosis (3)-3 - Explanation of how each of the patient's relevant lab result values correlate with current diagnosis (3)-3	Total Points: 12 Comments: Excellent job, Olivia! All relevant labs were included with rationales. Normal lab values were included and an explanation of how each lab correlates to the patient's diagnosis.
5. Correlate the patient's current diagnosis with all related diagnostic tests. (12 points total) - All patient's relevant diagnostic tests and results included (3)-3 - Rationale provided for each diagnostic test performed (3)-3 - Explanation provided of what a normal diagnostic test result would be in the absence of current diagnosis (3)-3 - Explanation of how each of the patient's relevant diagnostic test results correlate with current diagnosis	Total Points: 12 Comments: Excellent job, Olivia! All relevant diagnostic test were included with rationales. Normal findings were included and an explanation of how each test correlates to the patient's diagnosis.

(3)-3	
6. Correlate the patient's current diagnosis with all related medications. (9 points total) - All related medications included (3)-3 - Rationale provided for the use of each medication (3)-3 - Explanation of how each of the patient's relevant medications correlate with current diagnosis (3)-3	Total Points: 9 Comments: Great job including all medications, all information is detailed and accurate.
7. Correlate the patient's current diagnosis with all pertinent past medical history. (4 points total) - All pertinent past medical history included (2)-2 - Explanation of how patient's pertinent past medical history correlates with current diagnosis (2)-2	Total Points: 4 Comments: Great job correlating the patient's past medical history with current diagnosis.
8. Prioritize nursing interventions related to current diagnosis. (6 points total) All nursing interventions provided for patient prioritized and rationales provided (6)-6	Total Points: 6 Comments: All pertinent nursing interventions are prioritized and you provided detailed rationales.
9. Discuss the role of interdisciplinary team members in the care of the patient. (6 points total) - Identifies all interdisciplinary team members currently involved in the care of the patient (2)-2 - Explains how each current interdisciplinary team member contributes to positive patient outcomes (2)-2 - Identifies additional interdisciplinary team members (not involved currently) that should be included in the care of the patient to ensure positive patient outcomes (2)-2	Total Points: 6 Comments: Great job identifying additional interdisciplinary team members that should be included to ensure positive outcomes for your patient.
Total possible points = 65 51-65 = Satisfactory 33-50 = Needs improvement <32 = Unsatisfactory Course Objective: 2. Formulate nursing care plans, correlations, or clinical reports that demonstrate patient-centered care of diverse populations, evidence-based practice, and clinical judgment. (1,2,3,4,5,8)* Clinical Competency: 2(a.) Correlate relationships among disease process, patient's history, patient symptoms, and present condition utilizing clinical judgment skills. (Noticing, Interpreting, Responding) *End-of-Program Student Learning Outcomes	Total Points: 65/65 Comments: Excellent job, Olivia! Your pathophysiology was very detailed, thorough and well done. Keep up all your hard work! CB

EVALUATION OF CLINICAL PERFORMANCE TOOL
Advanced Medical Surgical Nursing- 2024

Firelands Regional Medical Center School of Nursing
Sandusky, Ohio

I was given the opportunity to review my final clinical ratings in each course competency. I was given the opportunity to ask questions about my clinical performance. I have the following comments to make about my clinical performance/final clinical evaluation:
