

Title: The Finicky Foley: Find a Friend!

Citation APA Format:

Price, D., & McKeon, L. (2020). Outcomes of a nurse-led difficult urinary catheter team in an academic medical center. *Journal of Nursing Care Quality*, 35(4), 309–316. <https://doi.org/10.1097/NCQ.0000000000000464>

Multiple choice question:

What is the main reason behind having a urinary catheter insertion team at a hospital?

- a. To ensure that each catheter is being taken care of correctly and the patient receives perineal hygiene
- b. To reduce the number of urethral injuries and infections on insertion
- c. To ensure that each catheter is being inserted correctly and with sterile technique
- d. To minimize discomfort for patients who need a urinary catheter

Correct Answer: B (page 2, paragraph 1)
